Great Land SALE!

Immense Tract of Rich Farm Land in the Famous Round Lake Country, Wisconsin

THROWN OPEN TO SETTLERS!

The Wisconsin lumbermen have at last released their grip on the great tracts in Northern Wisconsin, much of which they have held since their original preemption from the Government. Their vast holdings in the famous Round Lake Country have passed into the possession of the greatest immigration concern in the United States—the American Immigration Company.

Over 500,000 acres of virgin soil, partially covered with valuable timber, and every acre adapted to dairy and general farming, is being cut up into farms and sold at from \$6.50 to \$20 an acre on ten years' time. It is a country of abundant rainfall and the purest of water.

Sale of Round Lake Farm Lands Arouses Widespread Interest

The low prices and favorable terms on which this rich land may be secured, challenge the attention of the owner of high priced land and the tenant farmer as well. The man who owns high priced land in Iowa, Illinois, Indiana, Ohio or other great farming states, can sell at top-notch figures and by re-investing in the Round Lake Farm Lands, secure a tremendously increased acreage of equally good land. The tenant farmer can realize here his life's ambition to have a fine farm of his own and raise his family in independence, with none to dispute his right to the fruits of his own industry.

Country Developing Rapidly

The great development plans inaugurated by the American Immigration Company are rapidly bearing fruit and new towns are being laid out, new railroads are coming, and sturdy settlers are already building homes and getting the land under cultivation.

There is work to do, but it is work that brings big reward in rapidly increasing land values and ready cash. There is timber to be cleared away, but much of it is merchantable hardwoods—birch, maple, hemlock and bass-

Investigate! Act Now! Nine men out of every ten who come up to look over this land become purchasers. A personal investigation will prove that the facts are exactly as we state. The country speaks for itself. We refund railroad fare to purchasers. Make your arrangements to come at the earliest possible moment. The action of the executor in the Joseph Groves estate, in employment of labor, for tending crops, etc., was approved by the court, and he was authorized to take credit therefor in the sum of \$626. His first annual settlement showed a balance of \$1,211.35.

—Dr. Proud tells us that they have a visitor over at Mortie Martin's and that the little fellow made his appearance Sunday, May 15th, 1910. Of course Mortie and Bennett are tickled to death, but Grandpa Dan takes the cake. He called us aside privately and wanted us to get out a special edition, with a "full tone" of the new grand-son on the first page, he didn't want any half tone.

—Call in and let us show you how to grain your floors, rooms, fix your furniture all new. It costs you nothing to learn. HINDE DRUG CO.

—Judge Schlottzauer asks that he be re-nominated for the office of Judge of the county court for the first district. This has been the custom for years, especially when the incumbent has done his duty to his constituency, and it is a clear case that Judge Phil. Schlottzauer has done this in the highest sense of the word. No district judge could have done more and none ever did more. He has always been in his seat when the court met and stayed until it completed its labors.

The "SOCIETY" Girl

It is our pleasure to present to our patrons this year an exquisite water-color reproduction by A. M. Turner, whose work is well known throughout the United States, and whose talent has won for him a position in the art world for ideal heads and figure compositions that is equaled by but few artists.

The fabulous prices demanded by Mr. Turner for his work preclude the possibility of reproductions from his originals being used for magazine covers, illustrations and stories.

Mr. A. M. Turner has exhibited his paintings both in Europe and America. The original of this painting is considered the most beautiful woman in New York society today. The sweetness of her character is well expressed in this masterly portrait.

This delicate art print is given as a souvenir to each lady who purchases from us a pair of our "Satin Oxfords" at \$2.35 and \$2.50; "Quaker Oxfords" at \$2.98 or "Mayflower" Shoes at \$2.85.

We feel assured that The "Society" Girl will be handsomely framed and receive a place of honor, and serve to decorate and beautify the homes of our most artistic patrons. This beautiful picture represents the highest type of art, and on this account it has been selected as The "Society" Girl for 1910, because the "Society" Shoe for women typifies the highest art in fine footwear.

The great expense we incur in supplying a picture of this kind to our customers makes it impossible for us to supply them except with each pair of our ladies' fine "Star Brand" Shoes or Oxfords as mentioned above.

This striking water-color reproduction would sell in most art stores at \$1.50 to \$2.00, but we will give one free for a limited time only, to our lady customers on
