Being Satisfied

How often we look around and envy the other fellow!

And how often we envy someone who isn't nearly as happy as we are, ourselves.

Being satisfied and making the best of our opportunities is a valuable asset.

There is no need for any of us to sit and grumble because the other fellow is getting ahead and doing something—not if we are making the best use of our own ability and time.

Sit down and think this over and if we can help you out any come in and visit us.
