## BIGELOW NEWS DOTS AND DASHES, BY RUBE.

—Miss Zoe Morris, of Mound City, was visiting with Mrs. Harry Morris, last week, while Harry made a trip to Colorado to look over the country.

—Miss Opal Graham visited last week with Miss Allie Williams in Fortescue.

—The many friends of Mrs. Allen Notley will be pleased to know that she was able to be brought home from St. Joseph, last Sunday noon, and is getting along exceedingly well. Not many are operated on for appendicitis who are able to return home a week from the day they were taken to the hospital.

—Mr. and Mrs. W. M. Twyman and Miss Hazel Carter were visiting with Mr. and Mrs. Fred Gresham, last Sunday evening.

—Jim Gambel is here, this week, from Hamburg, Iowa, visiting with his brothers, Felix and John Gambel.

—Mr. and Mrs. Chas. Walden and Mr. and Mrs. Gilman Walden returned the latter part of last week from Hoxie, Kansas, where they had been visiting with relatives and friends for several days. They made the trip in the former's Ford car, and report a very pleasant trip, and of course, were glad to get back to good old Missouri and home.

—Henry Overlay, our old reliable section foreman, was on the sick list several days, the latter part of last week.

—Mr. and Mrs. Dick Rhoades were here last Sunday and Monday, visiting with Dick's brother, Jim Rhoades and family.

—Quite a number from here attended the Judge Randall funeral at Craig, Thursday of last week. The Judge had a large number of friends in this vicinity who sympathize deeply with the relatives in their loss.

—Misses Wilma and Vera Gresham were shopping in St. Joseph, one day last week.

—W. F. Caton was a business visitor in Mound City, one day last week.

—Marian Archer was down from Maitland, last Sunday, visiting with Mr. and Mrs. J. I. Chuning.

—W. M. Stuart and Jesse Hines, of Fortescue neighborhood, were Bigelow visitors last Saturday evening. The boys report Fortescue as flourishing, a new lumber yard is being built; the elevator has installed a brand new up-to-the-minute set of Fairbanks scales, and everything is moving along in good shape. What Fortescue needs now, since "Observer" has left, is a correspondent.

—Bernice Graham was visiting with her aunt, Mrs. F. E. Hogan, in Mound City, several days last week.

—We heard a fellow say the other day that Mound City people spent quite a lot of money on advertising signs along the public roads, inviting trade; that the signs were above the average, and, no doubt, a good investment.

ment; but if they really want trade from this vicinity a little money spent on the street going into town, near the old power house, would be very much appreciated. This particular place has been rough, very rough, for some time, and we are very much surprised that up-to-date, enterprising citizens, like those who live in our sister city, would permit their streets to get in this condition.

—J. F. Iden was transacting business in St. Joseph, one day, the first of the week.

—Mr. and Mrs. Fred St. John and son, Dale, were visiting with Mrs. E. A. Crow and family, in Mound City, last Sunday.

—Forty-nine scholars attended the Christian Sunday school, last Sunday morning, and the collection amounted to \$2.45.

—Frank Haiger and Miss Marie Ashworth, of Maitland, were quietly married in St. Joseph, Thursday of last week, Sept. 1. Frank was born and raised in this vicinity, and is a mighty fine young man, and we are sorry to lose him. One reason is because he is a progressive young man, and one of the best in this vicinity to drag the roads; one of the best pieces of road in the district is between Big Tack and Cottonwood school house, due to dragging at the right time. Miss Ashworth is one of Maitland's most accomplished young ladies, and we are told the young folks have gone to house-keeping on a farm, a short distance from Maitland, where they will make their home. We join their many friends in wishing them much happiness.

Vinton is working for the street railway company and has a good run, and likes the work very much. Bacon says they sure enjoyed their outing very much.

—It is reported that the hot weather of the last few weeks has cut down the corn crop. Nights are nice and cool, but say, Mister, look out for the day time.

—Mrs. Lester Allison and two children were here several days, last week, visiting with Mrs. J. T. Dodson and family. Mrs. Allison and Mrs. Dodson are cousins, and Mrs. Allison had been to Clinton where her mother, Mrs. Lucy Hinkle, who died in Denver, Colo., was buried a week ago last Sunday, and Mrs. Allison stopped off here on her way home to Denver.

—Mr. and Mrs. Fred Gresham surprised their many friends and relatives, last Saturday, when they came in on the afternoon train from McKinney, Texas, where Fred has been treated for cancer for some time. He is looking much better than we expected to see him, taking into consideration that he has been taking very severe treatments since the middle of last January. He weighs 150 pounds, and is eating hearty and gaining right along. Fred has had all of his teeth pulled and they were all pulled at one setting, without taking anything to relieve the pain, which was no doubt some job. Prospects are that he has a permanent cure, and the cancer, taken from his neck, he brought back with him to show these Missourians what a real cancer looks like, and he told his doctor that a Missourian had to be shown. The many relatives and friends are mighty glad to see him back and trust that he will have no further trouble along this line.

—L. A. Hunt and sons, Harry and Ben Pete, returned the latter part of last week, in their car, from Cheyenne Wells, Colo. They expect to return to Cheyenne Wells in about two weeks.

—A stranger drove into town recently, and asked if we had a road district in this vicinity, and when we told him we were well fixed along that line, and that we had an independent district, he wanted to know if we had road commissioners, and when we told him we had, he made the remark that they were not doing any work on the roads, neither were the poll tax men doing anything; that our roads were about the worst he had traveled over, and he had been traveling for several weeks.

### Teachers Must Be Healthy.

All the county superintendents in the state have been informed by State Superintendent Baker, in a letter sent out last week, that the county superintendents must require all teachers in their respective counties to furnish health certificates before taking up their work this fall.

The requirement of a health certificate is a part of the revised school laws passed by the regular session of the state legislature last spring and became effective June 1.

The section of the laws regarding the health certificate reads as follows: "No teacher shall be employed to teach in the schools of Missouri who has not furnished a certificate by a reputable physician showing said teacher to be in good health and free from any contagious disease at the time the certificate is granted."

Superintendent Baker has ruled that such certificates need not be required before the certificates are granted to teachers, but that such certificates should be presented to the school board when application is made for positions.

Superintendent Baker stated that the health provision of the law would be strictly enforced and advised county superintendents to inform all school boards of the provision of the school laws.

### St. Mihiel Battle.

The reduction of the famous St. Mihiel salient was the first battle of the World War fought almost entirely by American troops, and wholly under the order of the American Commander-in-Chief. At 1 a. m., Sept. 12, 1918, three years ago next Monday, the artillery opened the most terrific bombardment in history, firing a half million rounds an hour for four hours. At 5 o'clock the infantry went over. The next morning, the 1st and 2d Divisions met at Vigneulles, cutting off the salient. On the 15th all units had obtained their objectives. Divisions participating—1st, 2d, 3d, 4th, 5th, 26th, 42d, 82d, 89th and 90th.

The contingent that left Oregon on April 26, 1918, consisting of thirteen men, participated in this battle. Two were killed—George Story, of Craig, and Roy Cocanougher, of Bigelow; 7 were wounded.

Those that are here in the county should meet together next Monday, and tell the story over again.

### The Savannah Fair.

The Andrew County Fair, in session at Savannah last week, was a grand success in every way—in fact, was the genuine old fashioned fair—fine exhibits of stock of all kinds—the floral hall full to repletion with fine exhibits of the products of the field and garden, fruit light, as the crop is short over this entire section. The display of fancy and needle work was grand. The racing and driving every day was never better. On Oregon Day, Wednesday, a large crowd from Oregon and Holt county was present. One of the features of the day was the splendid music by the Oregon Cornet Band, under the leadership of Harvey A. Evans, who rendered fine music and plenty of it, and decidedly made a hit with the immense crowd present.

### Meeting of Legion.

At a meeting of the Harris E. Petree Post, American Legion, Monday evening of this week, quite a number of members were present. Delegates to the state convention, Sept. 19-20, were selected. The proposition of observing Armistice Day in Oregon was discussed, and a committee appointed to investigate the feasibility of such. Upon orders from headquarters, the Post was requested to advocate the proposal of handling all claims for insurance and compensation through the Legion's committee, as it is thought it will prove more satisfactory since the Legion is so well organized, and a committee, headed by Ex-National Commander D'Olier, is steadily on the job in Washington.

### Handbag of 36,000 Pieces.

Mrs. George H. Swan has recently completed a beaded handbag composed of approximately 36,000 beads. It is eight by twelve inches in size, worked in eight different colors of beads. With the greatest skill she has worked artistically colored peacocks on the two sides.

Mrs. Swan spent nine months in making it. She showed it to the Sacramento Indians at the Fair, and they declared it one of the finest pieces of bead work they had ever seen. Mrs. Swan values it at \$250. She said the beads used in its construction cost \$15.
