It positively cures rheumatism, neuralgia, sprains, bruises, wounds, cuts, sciatic and inflammatory rheumatism, burns, scalds, sore feet, contracted muscles, stiff joints, old sores, pain in back, barb wire cuts, sore chest or throat, and is especially beneficial in paralysis.

It Soaks Into the Flesh

right down through the fevered parts to where the inflammation is rooted. That is why Mustang Liniment "cures all aches and pains of man or beast." If it evaporated or remained on the skin it could not cure. That is why volatile extracts fail. They can't go down through the inflamed parts.

Mustang Liniment

owes its success to its power of penetration. There is nothing marvelous about its curative powers. It is simply a few common sense ingredients combined in a way to make penetration possible and insure a cure.

Mustang Liniment has been used for one-half a century.

Circuit court meets next week. Probate court is in session this week. The County court will be in special session December 16.

The travel on the M. K. & T. is still increasing and the prospects for a big business over the bridge is increasing.

Hon. Chauncey I. Filley is spoken of by a number of papers as the next governor of Missouri.

Will Williams, a penitentiary convict who escaped Monday morning, was captured by Porter Went about 12:30 o'clock that day and returned to the penitentiary.

The ferry company has paid off its entire floating debt and is in flourishing condition.

A Saying That Has Caught the Town—"Make Your Feet Glad."

Not long ago there was introduced into the advertisements of a certain Chicago shoe house a pair of making feet with the words, "make your feet glad." In the morning we suppose it's cracked ice to "make your feet glad."

This expression has been borrowed, paraphrased and quoted until it has become a common saying all over town. You will see other shoe advertisements headed "Make your feet happy, clothing advertisements that read "Make your boy glad."

Now-a-days the favorite invitation to drink is "Come in and make your stomach glad." In the morning we suppose it's cracked ice to "make your head glad."

The other day a man directed a boy to hurry on an errand with the words "run along, make your feet glad."

The firm that coined this can't be forgotten catch phrase is coining money as well, if you judge from its monthly sales. They make report, and back up the statement with unqualified proof, that their sale of shoes for July amounted to more than that of any other shoe house in the country, and more than for any preceding July in their business.

Four factories employing 1,600 men and turning out an average of 7,000 shoes a day are always on the go.

That Chicago should hold the greatest American boot and shoe industry is a pride worthy fact, especially when the product is of such unvarying excellence. Any one who is at all familiar with the leather business knows of the stormy times through which the trade has just passed. There was an advance in the price of leather—an unavoidable, unconquerable raise.

The shoe firm of which we are writing, true to its patrons' interests, was the last to succumb to this condition. For months after other houses brought up their prices they stuck out at their old prices and smaller profits.

It is such policies as this that make the firm of Seitz, Schwab & Co., Monroe and Market streets, Chicago, successful above all others.

Home-seekers' Excursion.

K. & T. will sell round trip tickets to all points in Texas and Louisiana west of LaFayette at rate of one regular first class fare plus \$2.00 for the round trip.
