## Cold Weather Philosophy.

Some of these grayheaded sinners don't find any consolation in the thought that for all the snow in this world, 'dev ain't any in de worl', dey travelin' to!

Over de sinnin' and sorrow of dis dark worl' de snow falls, ez it ter hide it all from de sight of humanity.

You can't have roses all de year long; even de flower gardens gits tired of bloomin'.—Atlanta Constitution.

## A Long Story in Brief.

The distiller, from the bushel of corn, makes four gallons of whisky (with the aid of various harmful products and adulterations); these four gallons of whisky retail for \$16.40. The farmer, who raises the corn, gets from 25 to 50 cents. The United States Government, through its tax on whisky, gets \$4.40. The railroad company gets \$1. The manufacturer gets \$4. The drayman who hauls the whisky gets 15 cents. The retailer gets \$7. The man who drinks the whisky gets drunk. His wife gets hunger and sorrow. His children get rags and insufficient food.—Selected.

## TRUSTS.

Their Relation to the Trade and the Farmer.

Q. What constitutes a Trust, and for what purpose are Trusts organized?

Ans. An organization for the control of several corporations, under one direction, to regulate the production, control prices, and defeat competition.

Q. Who are benefited by Trusts and Combinations?

Ans. The stockholders only.

Q. Name some of the most important Trusts.

Ans. The Standard Oil Co., which controls the oil product of the United States.

The Meat Trust, which controls the price of live-stock; also, controls the price at which its product is sold to the retail dealer.

The Steel Trust, which practically controls the price of American Field Penning.

The Coal Trust, which fixes the price which retail dealers have to pay for coal; also the price they must obtain for it from the consumers.

The Harvester Trust, which originally was composed of the Deering, Champion, Plano, Milwaukee and McCormick Companies, have since absorbed the Minnie Harvester Co., Aultman, Miller & Co., Buckeye and D. M. Osborn & Co. This combination is seeking to control the sale of Grain and Corn Binders, Mowers, Reapers, Rakes, Hay Stackers, Sweep Rakes, Tedders, Disk Harrows, Spring and Spike Tooth Harrows, Shredders, Gasoline Engines, Cream Separators, Wagons and Binder Twines. Should this combination carry out its plans, the dealers in above machines will no longer be free to manage their own business, while the accumulated evils of the system will ultimately have to be borne by the farmer.

Q. What is the most effective weapon for the farmer to use against this Harvester Trust with a capitalization of One Hundred and Twenty Million?

Ans. Refuse to buy their product, for without your patronage they cannot exist.—Implement Age.

## Our Member.

A Globe-Democrat correspondent in a recent pen-picture of several members of the General Assembly has the following to say of the member from Bates.

"Representative Geo. Church of Bates county was a Populist four years ago. Now he is one of the strongest Republicans in the Legislature. When he gets a good idea started, Church hangs on to it with all the tenacity that only a Pop can, but he knows he is right. He resides within a stone's throw of the Democrat he defeated for representative. Col. Sharp. Sharp was a pretty strong Democrat, but he drifted into Populism during the campaign and some of the Democrats of Bates didn't care for poetry. They let Sharp stay at home and sent George Church, the only Republican elected on the county ticket. George is a farmer, and a good one. He knows as much about a farm as any one in the State, and he farms with as much energy. Now that he is in Jefferson City he shows as much energy in making good laws as he does in farming. Church is at the head of the committee on roads and highways of the house. He is evolving a good road-measure, which if adopted, may mean something in the State."

You cannot afford to be without reading matter when you can get two papers for the price of one. See our clubbing list on this page.

## Not a Sermon But a Judge's Charge.

Judge John H. Martin of Hawkinsville, Pulaski county, Ga., in a recent charge to the grand jury, expressed himself as follows on gambling and intemperance. We copy from the Atlanta Constitution:

"I charge you that society people, be they male or female, who form social clubs and meet from time to time at the homes of the members and play whist, progressive euchre, flinch, trail, buncie or any other game with cards or like devices for valuable prizes purchased with funds to which the players have contributed, are as much guilty of violating the law against gambling as the veriest plebeians who hover around a light-wood knot fire and play seven up or poker, or skin for the paltry pennies and nickels, and the person knowingly permitting such playing at his or her house is as guilty of keeping or maintaining a gambling house, as is the proprietor of the den in some back alley where gambling is practiced. 'Quit you like men, be strong' and when weighed in the balance of duty be found not wanting. Strike at this evil in high places as well as in low places with all your might. It is not less criminal to play for a silver card case than for a plain silver dollar as it comes from the mint.

Statistics declare that over 90 per cent of the embezzlements and defalcations are traceable to gambling.

Judge Martin's charge on the liquor question was the strongest deliverance of the kind ever heard by a Pulaski jury. He classed the improper use of whiskey as the greatest curse that ever afflicted the human race. The man who treats his friends or guest within two miles of polls on election day commits a crime of the same nature as the blind tiger proprietor.

"Intemperance incites the father to butcher his offspring, the husband to massacre his wife, and the child to grind the paracidal ax. It makes wives widows, children orphans, fathers fiends. It fills your jails, crowds your penitentiaries, and furnishes victims for your scaffold. It's the lifeblood of the gambler, prop of the highwayman, support of the midnight incendiary. It covers the land with idleness, misery, and crime."

## TYPHOID GERMS.

The microscope shows that in the blood of every person suffering from typhoid the little germs can be found as shown above. They are supposed to get into the water or milk. The germs multiply so that one germ is capable of producing about one hundred trillion germs in twenty-four hours. That is why if they ever get into the water supply of a town they multiply so fast that nearly everybody drinking the water comes down with the disease. There are exceptions, however, and they are the persons whose health is perfect, whose blood is pure, and liver active. When the germs get into a healthy body they are thrown off with the other poisons. Recent Chicago statistics show that one-eighth of all the deaths in the past two years in that city have resulted from pneumonia.

The best advice we can give is to put the body into a perfectly sound, healthy condition. Be assured that you have rich, red blood and an active liver. Many years ago Dr. R. V. Pierce, who is consulting surgeon to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., found certain herbs and roots which, when made into an alterative extract (without the use of alcohol), seemed to be the very best means of putting the stomach, blood and vital organs into proper condition. This seemed to him as close to nature's way of treating disease as it was possible to go. For over a third of a century Dr. Pierce's Golden Medical Discovery has had a wonderful sale and the cures resulting from its use are numbered by thousands. It is a kidney-purifier, better than cod liver oil because it does not sicken the stomach or offend the taste. It strengthens or removes the poisonous or digestive processes in the stomach and acts on the bowels, which the weight of the bowels is reduced below the normal. Accept no substitute for "Golden Medical Discovery." Nothing else is "just as good."

DR. PRICE'S  
CREAM

## BAKING POWDER

makes home baking easy. Nothing can be substituted for it in making, quickly and perfectly, delicate hot biscuit, hot-breads, muffins, cake and pastry.

PRICE BAKING POWDER CO., CHICAGO.

John M. Scott, whose home was burned down some time ago, has just recently got the money for which he had it insured.

Miss Anna Burns returned home last Friday from a two weeks visit to her sister, Mrs. J. C. Crosswhite at Passaic, Mo.

Mrs. Geo. A. Huckleby came in last Saturday on her return trip from Tamaha, Ind. Ty. and visited the family of Geo. P. Huckleby and other relatives before departing for her home in Moberly, Mo. Tuesday noon.

## Our New Pastor.

The following highly complimentary notice is taken from a Florida paper and concerns the new pastor of the Walnut street M. E. church:

"We regret to learn that Rev. R. B. Templeton has resigned his pastorate here, preaching his farewell sermon Sunday night to a large congregation. The news of his resignation came as a shock to his friends having been reappointed as pastor for the third year. His friends appreciate his great work here, and although the field has been rough and thorny, his labors have been crowned with great success and the church and Sunday school is in a more flourishing condition than ever before. Mr. Templeton has been greatly helped in his work here by his wife, who has ever been ready to lend a helping hand. She will be especially missed by the choir, being one of the leading sopranos. Mr. and Mrs. Templeton have, during their two years' stay, won the hearts of all, both to tourists and residents. They will leave Saturday morning for Ocala, where Mrs. Templeton and two little daughters will remain until April, and on Monday Mr. Templeton will leave for Rich Hill, Missouri, his new charge. A farewell reception will be given them by their friends at the Methodist church tea room (Thursday) evening at 7:30. The new pastor, Rev. Addyman Smith of DeLand, will preach his first sermon Sunday morning at 11 o'clock."

A heavy snow last Saturday was followed by clear, milder atmosphere Friday and still warmer weather Saturday.

Mr. Joe Bellman, who has been a reader of the TRIBUNE for ten years past, came in last Friday and set his date to Jan. 1, 1906 and got a Hicks' almanac as a premium.

## SPECIAL CLUBBING OFFER.

The Twice-a-Week Republic of St. Louis, the best semi-weekly newspaper in the country, and FARM PROGRESS, America's leading agricultural and home monthly, will be sent to any address—or to separate addresses, when so requested—for ONE DOLLAR A YEAR.

THE TWICE-A-WEEK REPUBLIC for nearly a century has earned and maintained the confidence of half a million readers. It covers the news of the world thoroughly and accurately, and issues special State editions, each containing the latest and most reliable reports of the particular locality in which it circulates. Its special departments are edited by experts, and its artists and contributors are among the best in the country. It is published every Tuesday and Thursday—eight pages each issue—sixteen pages a week.

FARM PROGRESS issued on the first Thursday of each month, contains sixteen or more full, standard-size newspaper pages, filled with up-to-date farm literature, and special departments for the home, fashions, boys and girls, fiction, etc., etc. It is published by The Republic—a guarantee of its excellence and high character.

It will pay you to take advantage of this special offer now. Use this
