pay for a year's subscription to the Why not correct it now? TWICE-A-WEEK REPUBLIC, of St Louis, Mo., and FARM PROGRESS, will receive, ABSOLUTELY FREE a beautiful colored picture, 24 by 32 inches in dimensions, entitled "The Depar-often ends in a sad accident. To heal ture of the Bride from the Home of accidental injuries use Bucklen's Arnica Washington." This picture is a direct reproduction from the celebrated painting by Ferris. Sixteen colors were employed in the process. It is made on a fine, heavy paper, and will make, when framed and hung, a magnificent ornament for the home. Aside from its genuine artistic merits, it possesses an uncommon interest to every American, as the central figure in it is George Washington, standing at the portal of his Virginia home, bidding adieu to the bride and bridegroom. The color work is highly ornate and correct in every detail' as are the character representations, costumes.

The TWICE-A-WEFK REPUBLIC is the oldest and best semi-weekly family paper in the country, and FARM PROG RESS, which is also published by The Republic, is the fastest-growing farm monthly in America. Remember that you get both of these splendid journals an entire year, and the beautiful big colored picture, all for only ONE DOL-

Honest Assessment Leagues.

The time is ripe for the organization of 'Honest Assessment Leagues." Any one who will take the trouble to examine the list of tax payers in any school district will find property, especially notes and money, listed entirely too low. A committee of nine-three from each school board, city council and commercial club at Aurora, Mo., has been appointed to assist the assessor in locating unassessed notes, bonds and money. No one need be surprised if this committee finds ten times as much of such property as has been listed. Let local leagues be formed and then a state league composed of delegates representing local leagues.

In the interest of better school, it seems absolutely necessary to increase the amount of assessed valuation of many school districts. The State Superintendent was recently called into consultation to devise means of securing a better and suitable school building for a small town. After thorough investigation, it was found that the constitutional limitation prevented their voting bonds, because the corporation was already bonded to the limit. If all the property of that district were assessed, and at half could, under the constitution, vote \$10, to do will be to file on it. he a meeting of the stockholders of the 000 in bonds necessary to erect a suitable school building. It could also at the usual rate of levy for school purposes, maintain a longer term, employ better teachers and pay better salaries.

In considering the rate of assessment on real and personal property, it should not be forgotten that real estate is tangible and it is all listed, while much personal property escapes assessment altogether. For this reason assessors inclne to list notes and money at real value, land at about one-third of its actual value and property more fluctuating in value at still smaller rate.

Why not through "Honest Assess ment Leagues" make sentiment in favor of listing all property at its actual earning capacity value and then assess it all at a level discount of forty or fifty per cent? The people have long enough let great irregularities exist and the proper-Every person who sends One Dollar to ty of many wealthy men escape taxation.
