How It was Done.

A gentleman, Mr. J. P. Hannamon, residing in Pittsburg, Pa., writes from Salem, Ohio, (where he is visiting), on Wednesday evening; and was attended by a large number of ladies curious statement: "I suffered five weeks with sprained hip; went to a druggist here, a doctor; he gave me one liniment which failed; he gave net proceeds were some over \$200, me another which acted like magic; never before experienced such quick to realize for one evening's entertain-which was indeed a very large sum and permanent relief. He laughed when I told him and said: 'Just thank St. Jacobs Oil.' He had poured i into one of his bottles and gave it to me. When I went into his store I said patent medicines were humbugs; he stole a march on me, and I can say I believe in at least one of them.

DONNELLY.

Four years of substantial prosperity, barring unavoidable disaster, are assurred to the business interests of the United States. The continuance of the benign sway of protection will nently cured by it. For sale by Fritz cheapen every kind of manufactured Buckentin. article to the consumer, increasing the purchasing power of the toiler's wages. Confidence is the breath of life to business enterprise, and now that it is restored by the election of Harrison and Morton, and a Republican Congress in both branches, there should be a healthy revival of domestic trade in all normally situated departments. So let business men calm their fears. No free trade bills shall disturb them again for a long time to come, and such tariff amendment as may be made is going to be done with special care to avoid alarming our productive interests or threatening the wage worker, with the loss of emed by any other auctioneer. So ployment. Under the circumstances American enterprise can go ahead in that he dreamed about it, and his every legitimate direction and give itself free swing.

REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances.

E. G. Love, Ph.D." "It is a scientific fact that the Royal Baking Powder is absolutely pure.
"H. A. Morr, Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in market. I find it entirely free from alum, terra alba, or any other injurious sub-ice. Henry Morron, Ph.D., President of Stevens Institute of Technology." "I have analyzed a package of Royal Baking Powder. The materials of which s composed are pure and wholesome. S. Dana Hayes, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

Note-The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking l'owder knows by practical experience, that, while it costs a few cents per pound nore than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any

* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicated that they have any value. All alum powders, no matter how high their strength to be avoided as dangerous.
