### SITUATION SERIOUS

STRIKE AT NEW ORLEANS ASSUMING AN ALARMING ASPECT.

Electric Light and Gas Works Shut Down and the City in Darkness—Militia in Readiness to Prevent Any Attempt to Resort to Violence.

NEW ORLEANS, Nov. 7.—The strike situation assumed a serious aspect during the day. The following unions are now on strike: Riceworkers, painters, shoemakers, carpenters, coal wheelers, grain shovellers, printers, clothing clerks, teamsters and lumber yard men, laundry and dry cleaning women, musicians, coalmen, steamship seamen, factory girls, paper hangers, sealmen, card makers, bakers and confectioners, retail shoe clerks, mail clerks and newspaper carriers and freight handlers. There was no communication between the employers and the striking employees during the day. The men are beginning to resort to violence in the outlying districts and special officers will be appointed. Governor Foster was in consultation with his aides all day and the state military holds itself in readiness to answer the call to arms. The water works and electric light men as well as the gas workers went on strike. The water works men were ordered back to guard against fire. The others, however, stay out.

The city had on a holiday appearance everywhere except among the merchants against whom the strikes are aimed and they will carry on their business until prevented by violence. They say that a number of union men are willing to return but they did not propose to make targets of the unions until they were ready for a vigorous defense and so declined to take them back for the present. The strike also failed to affect the newspapers to the extent expected and the only paper which has so far failed to appear is The Item, which is the official organ of the strikers.

The center of activity was the city hall where the mayor and his advisors spent the day. During the morning a proclamation was issued calling upon all persons to preserve the peace and warning them that disorder and violence will be at once suppressed and the guilty punished. During the afternoon President Levee and the Mayor, Rice exchange, called and asked that protection be furnished those interests. Nearly 8,000 barrels of sugar and molasses besides other products and merchandise lay on the levee, he said, at the mercy of the public tumult. The board of trade also urged the mayor to do his best to bring about the resumption of street car travel and the continuance of the supply of gas, electricity and water in order to provide for the protection of life and property and for the convenience of citizens. The mayor promised to do all he could to maintain order. The electric light and gas companies called on the mayor and said they thought they could furnish light if they were afforded protection, which was readily promised.

### ENGLAND'S GREATEST STRIKE.

It is Probably Begun by the Lockout of Cotton Spinners.

LONDON, Nov. 7.—The lockout of the cotton spinners has begun in South Lancashire. No disorder attended the beginning of what may prove to be one of the greatest strikes that England has seen. The lockout is the result of a determination on the part of the master cotton spinners to reduce wages 5 per cent.

### THANKSGIVING DAY.

The President Designates Thursday, Nov. 11, as the Date.

WASHINGTON, Nov. 5.—The president has issued a proclamation appointing Thursday, Nov. 11, as a day of Thanksgiving and prayer.

### No Break in the Banks.

HOMESTEAD, Pa., Nov. 7.—The promised break in the ranks of the strikers has failed to materialize. But four men returned to work and possibly three others will comprise the extent of the defection. The men who returned were John Schultz, general master mechanic of the works previous to the strike; Charles Atwood, a roller and two roughers. The meeting of Saturday last had a stimulating effect upon the men and the waning courage of the week-kneaded has been brought to the sticking point. Further defections from the strike will be prolonged indefinitely, as there is less appearance of weakening today than at any time during the present struggle that now enters upon its fifth month.

### Inflammatory Pamphlets.

CHICAGO, Nov. 7.—During the last three days hundreds of inflammatory pamphlets have been circulated secretly among the followers of Anarchist Spies and his fellow "anarchists." Through one of his detectives one of these has fallen into the hands of Chief McClurg. A call is issued for a great demonstration at Utsch's hall Friday, Nov. 11, at 8 p. m. There are three closely printed pages denouncing everybody and all existing institutes and calling on the friends of anarchy to arm with gun, bomb and torch and go upon the streets and square their accounts with their oppressors.

### Newton Not Guilty.

NEW YORK, Nov. 5.—The commission appointed more than twelve months ago by Bishop Potter to investigate charges of heresy against Rev. Dr. Heber Newton, rector of the Episcopal Church of All Saints, at Sixty-sixth street and Madison avenue, has reported the charges as "not proven."

### Sent Up a Repeater.

NEW YORK, Nov. 5.—John Murphy, who was arrested Saturday for illegal registration, has been sentenced to three years imprisonment by Judge Benedict in the criminal branch of the United States circuit court.

### THE IAMS CASE.

Charge of Assault Against Colonel Streeter.

PITTSBURG, Nov. 7.—When court opened the jury in the Iams case had not agreed on the verdict. It came into court at 10 o'clock and asked for further instruction, presenting the request in writing. Judge Porter informed the jury that their question was wholly immaterial on the question, and with some sharp criticism of the jury on the written question, whatever it may have been, they were sent back. At 11:15 o'clock the jury returned their verdict, which followed. On the assault and battery charge we find defendants not guilty and the county to pay the costs. On the aggravated assault and battery case we find the defendants not guilty, but Colonel Hawkins and Colonel Streeter each shall pay half of the costs.

### SMALLPOX AT SEATTLE.

Sixteen Cases of the Scourge Within the City Limits.

SEATTLE, Wash., Nov. 7.—Seattle has sixteen cases of smallpox in the city limits. The prospects are that more cases will be reported. The true facts have not been given to the public and the result is that the unsuspecting people are liable to contract and spread the disease. One lodging house, on the principal business street, with thirty inmates, has been quarantined. An extra number of physicians were hired Friday by the health board, which is empowered by the mayor to spend all required sums to overcome the disease.

The People's party started a report here that the quarantine had been put on by Republicans to prevent them voting, but this is not true. The health board will at once erect a separate house. The situation is alarming.

### Say Tacoma Has It, Too.

SEATTLE, Wash., Nov. 8.—Tacoma, as well as this city, has small-pox. One case developed Saturday, another Sunday morning and a third Sunday night. A rigid quarantine has been established, and all bedding used in the lodging houses and infected with the disease have been burned. The situation in Seattle is not encouraging.

### VERY UNSATISFACTORY.

General Miles Talks About the Condition of Cheyennes and Arapahoes.

KANSAS CITY, Nov. 8.—General Nelson A. Miles, accompanied by his family and Captain Miller and Maus of his personal staff, has arrived in Kansas City from the Indian Territory, where General Miles has spent the last three weeks investigating the condition of the Indians. General Miles said: After the most careful investigation I consider the condition of the Cheyennes and Arapahoes such as to demand the intervention of the United States authorities in order to prevent an outbreak that looks almost like a certainty. These two nations sold their lands and took their allotments early last summer. Following close on this the government reduced the rations of these Indians to one-fourth of the original amount. They cannot profitably cultivate the lands they have selected. They have expended for food the money they received from the sale of their lands. I believe that before the winter is ended the Cheyennes and Arapahoes will be in need of food and then an outbreak will be more than probable.

### WORLD'S FAIR RATES.

Little Likelihood There Will Be Any Material Reduction.

ST. PAUL, Nov. 8.—A circular has been sent from Chicago addressed to the passenger department of every railroad in the United States, Canada and Mexico, requesting that a representative be sent to a mass meeting of railroad men to be held in the Auditorium hotel on the 21st inst., to determine on a basis of rates for the world's fair and on methods of handling traffic. From what can be gathered from various expressions of opinion there appears to be a strong disinclination to accord much, if any, reduction in the regular schedule of rates. The railroads claim that in any event they will have all the traffic they can handle at the tariff rates, and fail to see why they should make any reduction. From present appearances it seems that the utmost concession will be a reduction to one fare and a third on certain trains, while all passengers on trains running between Chicago and St. Paul will be required to pay full tariff rate. The meeting of the 21st inst. will probably decide what the ruling rate shall be.

### A Chance for Students.

CHICAGO, Nov. 8.—It has been decided by a committee appointed at the Nicaragua canal convention, held in St. Louis last June, to offer a prize of \$100 for the best essay upon the advantages which the canal will bring to the United States, and especially to the Northern central states. The contest is open to students in educational institutions in Illinois, Indiana, Ohio, Michigan, Wisconsin, Minnesota, Iowa, North Dakota, South Dakota, Nebraska, Kansas, Montana, Colorado and Wyoming. The essays must be on foolscap paper, on one side only and have a margin of one inch on the left-hand side and not containing over 2,000 words.

### An Unknown Victim.

MILWAUKEE, Nov. 4.—An unknown victim of the big fire was found during the day by the workmen who were removing the debris from the site of Klasinger's wholesale liquor store on East Water street. The remains are thought to be those of a man but are so badly burned that it is impossible to tell.

### Picked Up Wreckage.

LELAND, Mich., Nov. 4.—Furniture and wreckage has been picked up on North Island, marked "W. H. Gilcher." The steamer mast had foundered on the night of Oct. 28, north of the Manitowish.

Lieutenant Schwatka was found in an unconscious condition on the streets of Portland, Or., Wednesday morning, and died soon afterward. It was first thought he had taken an overdose of laudanum, but physicians think he had an apple pit.

The National W. C. T. U. convention at Denver re-elected the following officers: Miss Frances Willard, president; Mrs. Woodbridge, recording secretary; Mrs. Caroline B. Bell, corresponding secretary; Mrs. L. M. N. Stevens, assistant recording secretary; Miss Mather Fugate, treasurer.

### KILLED BY THIEVES

ENCOUNTER BETWEEN A SHERIFF'S POSSE AND OUTLAWS.

Three of the Officers Shot Down By One of the Party in Ambush—Ned Christie and His Gang Killed by United States Marshals.

CASPER, Wyo., Nov. 4.—Reports have just reached Casper of a fight between officers and supposed horse thieves near the head of Pilot river in the extreme northern part of Fremont county, this state. It is reported here that Fremont county officers were after a man by the name of Moore, who some time ago shot a constable in cold blood in the streets of Lander. Moore knew of their approach and hid for them, and as they approached shot down three of the approaching party. The officers were led by a man known as "Slick." Slick is an old time Nebraska man and shot a man a few years ago, Sidney Bridge, and supposing his victim to be dead approached him, when the man jumped on Slick's horse and stabbed him and left Slick for dead. Slick afterwards was picked up and recovered. Moore and his friends killed Slick and two deputies and left them where they lay. Some reports say that Sheriff Slough, of Fremont county, was in the fight and was wounded, but escaped, and is now on his way to Lander.

### HIS CAREER AT AN END.

Ned Christie, the Notorious Outlaw, Finally Run Down by Officers.

TALAMON, I. T., Nov. 5.—Ned Christie, the notorious outlaw is dead. Late Thursday afternoon the officers resorted to dynamite and succeeded in blowing down part of the house and setting fire to the ruins. While the blaze was at its fiercest Christie was seen to emerge from under the floor and started to run, but was ordered to halt. He did not stop and was riddled with bullets. The body of Wolf, who had been wounded early in the morning, was burned to a crisp in the building. Charlie Hare, another member of the gang, was captured.

One month ago the officers attempted to make a prisoner of Christie, but were obliged to abandon the attempt, not being acquainted with the location of the place. In this attempt Officer Field was killed and another officer crippled for life. During Christie's career of lawlessness he has killed two deputy marshals and three Cherokee Indians and over a dozen law-abiding citizens. For the last six years he has remained at his fortified cabin, where he met his death Thursday, defying all attempts to capture him.

### Indians Preparing for War.

STOCK CREEK, Wyo., Nov. 4.—Word has been received from Deputy United States Marshal George Bartlett at the Pine Ridge agency, S. D., that some parties of Indians that recently sold their crops and stock to the government have left the agency and are in camp at some distance from the agency. They refuse to trade at the agency and are buying all their provisions at the railroad stores. They are laying in stores of ammunition and the action is believed to be a sure sign of hostile intentions.

### Say the Pope Is Very Ill.

LONDON, Nov. 7.—A dispatch from Rome to The Pall Mall Gazette says that the pope is very ill. The clerical papers and the correspondents make every effort to conceal the fact of his illness. A few days since his holiness was found motionless in his room and his condition caused a panic in the Vatican. Physicians were summoned and they succeeded in restoring him to consciousness. He has been forbidden to do any work.

### A Congressman Dead.

NEWARK, N. J., Nov. 7.—Congressman Edward J. McDonald died at his residence in Harrison early in the morning. He was stricken with pneumonia ten days ago. He was the Democratic candidate for re-election from the Fifth district, and death just previous to election is likely to give victory to the republican candidate. He was first chosen to congress in 1889.

### Cleveland Will Live in Jersey.

LAKEWOOD, N. J., Nov. 7.—Mr. Grover Cleveland will again become a resident here. The Cleveland cottage will be occupied by Mrs. Cleveland early next week and the ex-president will join his family after election. They will probably winter here.

### Five Negroes Shot.

AUGUSTA, Ga., Nov. 7.—Five negroes were shot at a ball Saturday night and will probably die. The affray occurred at a dance on Berry's plantation, six miles from this city. A gang of men who had not been invited went there to get even with those who were. A pitched battle ensued in which five men were fatally wounded.

### Will Be Electrocutted.

NEW YORK, Nov. 7.—Peter Schultz, the young German, who was found guilty of the murder of the baby of Mary Worth Heimer, has been sentenced in the Kings county court of sessions by Judge Moore to be electrocuted at Sing Sing prison during the week beginning Dec. 19.

### A Frightful Death.

PHILLIPS, Wis., Nov. 4.—The 10-year old son of Herman Schultz, employed in the box factory of the John R. Devlin Lumber company here, got his clothes caught in a shaft during the morning and before the machinery could be stopped was killed. His body was badly mangled, nearly every bone being broken.

### Prohibit Canadian Cattle.

LOXLEY, Nov. 5.—The government has issued an order prohibiting the importation of live Canadian cattle.

### Assistant Secretary Nettleson, who is now acting secretary of the treasury, has tendered his resignation to the president, to take effect Dec. 1.

A new pipeline for carrying oil to Philadelphia and coast towns, costing \$1,000,000, has just been put in operation, to cut into the Standard Oil company.

The report of the superintendent of the dead letter office shows a decrease of 48,439 during 1891, notwithstanding the fact that the postal business of the country has increased nearly 8 per cent. the past year.

### MINNESOTA NEWS.

Frank Carlton, sick and despondent, suicided at Minneapolis Sunday.

Dr. Ringland, of Duluth, has been elected president of Macalester college. Frank Allen, an 8-year-old Minneapolis boy, was killed Sunday afternoon by being run over by an electric car.

The Red Wing Daily Independent has made its appearance again after having suspended publication several months. Iver Urdahl, in attempting to board a construction train at Peterson, fell under the wheels and was cut to pieces. Albert Puppenfuss, of New Hartford, was instantly killed by being thrown out of his wagon in a runaway. His neck was broken.

Crookston experienced a \$30,000 fire last week. The Crookston Mercantile company and Williams & Roberts were burned out.

A man named Anderson was shot and killed by a policeman while attempting to escape from a patrol wagon in Minneapolis Thursday night.

Two highwaymen attempted to hold up a threshing hand near Crookston. He refused to talk and was shot in the leg. The robbers escaped.

The Great Northern road has discontinued its short line trains between St. Paul and Minneapolis. The growth of the interurban electric service is the cause.

Articles of incorporation have been filed in the office of the secretary of state by the Ohio Building, Saving and Loan Association of Duluth, with a capital of \$1,000,000.

It is stated that Governor Merriam is negotiating for the purchase of the Klison residence, on Summit avenue, which is conceded to be the finest property of its kind in St. Paul.

By the explosion of a threshing machine boiler at Alma City, Blue Earth county, Saturday, one man was killed and two probably fatally injured. All the parties live at Engle Lake.

Mrs. Annie Murphy, a female crook, worked St. Cloud banks last week to the extent of \$1,000. She cashed worthless checks on a New York bank and the recognition of St. Cloud business men.

Grant & Brown, of Detroit, Minn., have a contract for putting in 100,000 feet of logs for T. B. Walker, of Minneapolis. Large saw mills will be put up at Crow Wing lake and Leech lake to saw this cut.

Motley was visited by a very destructive fire Saturday. A number of business houses were burned to the ground, causing a total loss of at least \$30,000. The fire originated in a barn and is thought to have been incendiary.

Warden Wolf, of the state penitentiary, states that the binding twine plant is running at full capacity, and is turning out an excellent quality of twine. The board has contracted for enough twine to keep the plant running until April.

The St. Paul council has passed a supplemental order to the franchise granted the Fifth Ward Transfer company to build fifty miles of road along the St. Paul levee. The ordinance provides that the new road shall be in operation before Dec. 1, 1894.

The 12-year-old son of Rev. C. H. Stocking, pastor of the First Methodist church, of Duluth, died Friday morning of diphtheria. Two days previous his 5-weeks-old son died of the same disease, and on Oct. 16 last his 16-year-old daughter died of diphtheria.

The forger whose sleek work was recently reported at Mankato, Stillwater, Fairbault and Winona, has been captured at La Crosse, Wis., and was arraigned before H. J. Peck, clerk of the United States district court. He successively gave the names of Bowers, Bowles and Henderson, and in default of bail was remanded to jail.

Arrangements are being made to pay the Chippewa Indians at White Earth agency the following moneys: Fulfillment of treaties, \$10,000; advance interest under treaties, \$30,000; \$19,132.10 of which goes to the Chippewas at La Point, Wis., and \$1,000 to the heirs of Chief Hole-in-the-Day, being the last installment under the treaty.

Frank Valesh, of the Minnesota state labor bureau, is closing up his work on farm mortgages, foreclosures, and he finds that in Mower county—one taken as the standard by which the prosperity of the southern counties of the state is marked—there has been but one farm mortgage foreclosed during the past ten months, as against ninety-seven for the same period in 1891.

### Almost a Riot.

AMERICAN, Kan., Nov. 8.—The Republican rally and flambeau club parade held here Saturday night came near winding up in a general riot. The parade of the Republican club, headed by a band, was followed by a mob of about 500 men, many of whom were armed with clubs and stones. The parade was broken up by the mob, and a riot ensued. The police were called out and the mob dispersed.

### Whipped the Professor.

CLARION, Pa., Nov. 8.—Professor McClure punished two boys named Brinley, who are his pupils in the public school here, and one of them drew a knife on him, after which he sent them home. The father then called at the school house and thrashed the teacher in a brutal manner. The professor is badly injured and his assailant is in jail.

### Two men held up a train on the East Tennessee, Virginia and Georgia road and secured \$30,000 in registered letters and money from the express car.

At a meeting of Dunkards at Phillipsburg, O., 300 of those present were made seriously ill by eating soup into which croton oil had been maliciously poured.

At Buffalo, N. Y., the grand jury reported an indictment charging murder in the second degree against Clifford Cassidy, of the second regiment, and Richard Roe for the shooting of Michael Broderick during the recent strike there.
