LOCAL ITEMS.

Joe Rue has got back once more.

Harvest commenced in earnest last Monday.

The greatest borer of the season—Mesquites.

Ed Farham was in town last Sunday and Monday.

Read W. W. Griswold's real estate advertisement.

Wheat is being shipped from this point direct to Duluth.

Behold! he saith unto Moses, if the cap fits—wear it.

Farmers must expect low prices for grain this season.

Auditor Parker of Big Stone County, was in town last Friday.

And now it is the rail road boys who are happy. The pay car caused it.

The Glenwood papers are having a hot time of it, both are ahead so far.

Ed Thomas and Ed Tait of Benson, were registered at the Central Tuesday.

R. W. Dunn the "rumrod" of the Benson House was in town last Monday.

Al. Nash was in town Sunday, but was not visible for more than an hour or so.

Mrs. G. T. Abbey of Waterloo Indians, is visiting her sister Mrs. W. W. Griswold.

Croquet has almost died out, and the only sport that the boys have is kicking football.

M. L. Torpey received the contract for completing the court room, consideration \$75.00.

Harvesting has commenced in earnest, and there is great demand for harvest hands.

Billy Rhodes is in town looking after and talking about the McCormick farm-machinery.

Either the result of the last match game, or else business in the harvest field, has put a stop to base-ball.

It won't be many days before our wheat buyers and elevator agents, will be up to their ears in business.

The youthful De Laitte who sells groceries and such, was seen button-holing the "unwary" last Saturday.

Mr. John Kervin is in town, and will superintend the putting in operation of numerous Elward Harvesters.

If our subscription list keeps increasing as fast as it has for the past month, we will have to get a power-press.

We rise to remark that our Hancock correspondent had better send us some items, or will be after him with a club.

The County Commissioners have had the safe in the Court House moved, it now stands across the end of the hall.

W. W. Griswold is now Village Recorder. Mr. Hutchins owning to business arrangements was compelled to resign.

J. C. McCarthy of St. Paul, is up looking after the harvesting of the crop on his farm. He will remain two or three weeks.

If you don't want to see your name in print, behave yourself. "There's a chiel among ye takin' notes, and faith he'll publish em."

J. B. Hoxie, one of the leading commission merchants of St. Paul, was in town last Monday, making arrangements for the fall trade.

Some of the piling was moved out from under the railroad bridge, by the freight Friday. Freight trains were delayed about two hours.

Sunday school picnic to-day. Every body, their children, and children's children ought to be there. Hope the little folks will have a good time.

We have a reporter at Herman now, and it behooves the goodly people of that town to be on their guard, for these reporters have a habit of publishing everything of note.

Mr. L. Kreiger of St. Paul is going to start a lumber-yard at this point. The yard will be located on the grounds on Pacific Avenue immediately in front of this office.

The Executive Committee of the Agricultural Society were in session last Saturday, no business of importance was transacted. An adjourned meeting will be held this afternoon.

Mr. David Giltman of Philadelphia, accompanied by his sons Lex and Sam arrived Tuesday evening. Mr. Giltman is on a visit to his son George, and will remain during harvest.

Parties living about eight miles west from this village, claim that during the rain storm on Friday last, a water-sport in the shape of an hour-glass, was plainly seen, and when it burst it almost deluged the fields in its vicinity. We never have seen it rain so hard nor continue so long as it did that day, and are surprised no more damage was done.

Mr. E. S. Rolfe, of Herman, was in town last Saturday, and paid us a friendly visit.

Hank Ball has been with us for some time past, but will now fold up his tent, and take his departure for Sauk Centre where he proposes to remain until after harvest, when he will return.

Mr. R. P. Wells, of Jordan, was in town last week, on a visit to relatives in this vicinity. He expressed himself highly pleased with what he seen of this section of country, and thinks it is the finest in the state.

Post-Master Wolff has got the new boxes all in position, and has the office separate and distinct from the rest of the store. Deputy Whitely can now do business much more rapidly, as he has everything conveniently arranged.

Machine Agents have a hard time nowadays. They are kept going early and late setting up machines and starting them. It takes a good deal of patience, some perseverance, and a little oil to get a machine in running order.

Some of our subscribers had to be content with a half sheet last week. The reason for this was a mistake in our usual supply of paper; We were not to blame, as the mistake was made in St. Paul. It will not occur again.

Messrs. Brown, Landberg and Cooper went on a visit to Ortonville last week. They had numerous ludicrous incidents which enlivened the trip, but Cal. declares that after leaving the Sutherland farm, they were not on the right road for over ten minutes at one time.

This section was visited by a furious storm last Saturday, the rain fell in torrents for nearly two hours, and did considerable damage to the crops, oats especially; some fields are lodged badly but the cool weather will probably help some of it up again. Wheat was hurt but little.

In case some of our readers may feel anxious as to why our poet does not give his usual contribution, we will state, that the hot weather for the past few weeks has almost prostrated him, and he's not equal to such almost superhuman effort, as is requisite to prepare his weekly poem.

It is delicious to sit out doors on a fine evening, and ponder on the many good deeds you have done during the day, your thoughts too precious for utterance keep you dumb, while the cool breezes fan your weary brow, oh! it is heavenly, it is divine, it is sub-concern the mosquitoes any how.

Don't crowd the mourners. We are not prepared to pay damages on a libel suit for more than \$1,000,000, at least not for a few days, it takes all our small change to pay for a suit of clothes; but we don't expect every body will be suited, and therefore we do the next best thing and suit ourselves.

Farmers have hard work to get sufficient machinery to harvest their crops. The demand has exceeded the supply, especially for self-blinders, and this class of machinery is not to be had for love or money. A few more harvesters are to be had, but it is probable a couple of days will exhaust the supply.

A FREAK OF NATURE.—While Mr. Victor Smith was mowing in his meadow last Saturday he came across a curiosity in the shape of a frog. This animal differs from others of his species, by having a full grown tail; and with the exception of its hind feet and mouth, bears very much resemblance to a lizard, yet it is undoubtedly a frog. We will if possible try and have this curiosity, sent to Dr. Sweeney of St. Paul.

An accident occurred last week with nearly fatal results. One of our grangers went out in his wheat field to cut down a wheat straw for fuel; he labored patiently with his axe and had almost succeeded in cutting it through, forgetting for the moment that the enormous head would make it top heavy, when it fell with a sudden crash, and he barely escaped being struck by it. As it was, one foot was badly injured.

Workmen are busy siding up the east end of Messrs Cogel & DeKay's elevator, and the approaches to the drive-way are being gravelled. On the inside many improvements have been made, and it is being made more secure by having iron rods run through the bins; by the time the enterprising young proprietors have completed the improvements which they intend making, the elevator will be in first class condition to receive and handle grain.

A short year brings many changes, but none as apparent as the difference in our feelings. One short year ago and we were all despondent, our crop had been a failure for two years in succession and we had to face again—hard times, but now things have undergone a change, the harvest field bears a bounteous crop, and nowhere is seen the anxious and clouded faces of last harvest, but on the contrary all have a light heart and smilingly look forward to better times in the "near future."

Say boys, how will it do to get up a harvest dance, and have it either during harvest or immediately after. To make it a success it must be taken in hands now and and thoroughly talked up, advertised, and all arrangements completed. Won't the leading spirits in the "light fantastic art" take hold of this, and by having day and date understood, make it a success. The proceeds can be devoted to some worthy object, we can have a good time, get acquainted with one another, and it will probably be the last chance this season to get all the folks together, as many will leave for home soon, not to return again until next spring.

It happened thus, and is a fact: A party living in or near Hancock, was the owner of a very fine and unusually fat pig, and when he went to feed him he found him enjoying the excessive heat of last week, by laying off full length in his trough. His owner did not disturb him but returned to his house, and when he went again to the sty, lo! and behold! no pig was there, but instead the trough was brim full of lard! It is supposed the excessive heat rendered him fat, as he was fully exposed to the sun's burning and fiery rays. We will now go to the head of the class, and wait till we see a bigger yarn in print. Next!

P. S.—Should occasion require it, we can do a little better.

There are rumors of two or three additions to the business men of our town. There is to be another drug store, a feed store and grocery store. These additions to the business of the town will make sharp competition, and of course benefit the farmer; therefore it would be well for that class to bear in mind this fact, that this is the place to trade, you can get exactly what you want and get it at reduced prices, and as every effort is being made to put the various roads centering at this point in good repair, it will be a double advantage to all who come here to trade, for good roads are a large item where heavy loads are hauled, and it is generally the case that teams are loaded going as well as coming.

Commissioner Thomason has called our attention to the fact that the weed known as the Canada thistle has made its appearance in some parts of the county. For the information of all interested, we publish the law in regard to this nuisance:

Sec. 2. Any person or persons owning any lands within this state or occupying or having control of any lands, whether within the plat of towns, villages or cities, or otherwise, within the state knowingly permitting or suffering any Canada thistle or thistles to go to seed upon any land or lands thus owned, occupied or under the control of such person or persons, shall be deemed guilty of maintaining and supporting a common nuisance, and upon conviction thereof in any court having competent jurisdiction of the offence, shall be punished by fines not exceeding fifty dollars nor less than five dollars, said fine to be paid to the treasury where such thistle or thistles are permitted to grow.

Sec. 3. provides for their extermination on lands owned, or otherwise, and if not removed by owners of property, the supervisors are empowered to destroy them and charge the same to the owners of the property, or in case there are no owners, the costs shall be paid by the town.

Estimates of Expenditures.

The following is the itemized statement of the estimate of expenditures, made by the Board of County Commissioners of Stevens County, State of Minnesota, on which the levy of taxes for the year A. D. 1878, is to be based, to-wit:

County officers' salaries	\$4,000
Expense of criminal cases	600
" courts	400
" printing	300
" elections	20
" assessing	20
" stationery	175
" statistics	35
" public buildings	200
" board of audit	25
Miscellaneous, including stoves, wood, postage, expressage and insurance	200
Total	\$4,117
Expense of poor	\$60
" interest	750
" roads and bridges	600

For the purpose of raising money to pay the above estimates, the levy on the taxable property in said county for said year, is the sum of nine and one-half mills on each dollar of the taxable property of said county, as follows, to-wit:

For county revenue	7 mills
" " roads and bridges	1.1 "
" " interest	1.3 "
" " poor	0.1 "

July 20, 1878.

The weather is fine.

Our Public school closes to-day; Miss Sophia Norderhus teacher.

The school has a picnic two miles away, with the school taught by Lydia Norderhus. Toad is working into business, as well as Dr. Holden, who is Landlord, Doctor and Druggist alternately, and doing well.

Red raspberries have been plenty, and so have the pickers, of all sexes and ages. It is nice to go through sunny groves and pick berries among logs, brush, stumps and stones, thermometer 100 in sun and shade, with not a breath of air, with horseflies drawing blood at every bite on man and beast, and then, when melting with heat, to be cooled off by a thunder shower.

Please send us more of the good men of Morris. We want a man of capital to buy out our flouring mill cheap, and put it in good running order. We want a good harness maker. We want a thousand families to settle among us, to help build up a beautiful town, and to cultivate and beautify our wide spread inviting prairies. We hope they will come in time and want them soon. Several improved farms are waiting for buyers and cultivators, in nice localities and cheap.

Herman Items.

From our own Correspondent.

Politics quiet. Grant Co. will go solid for Washburn.

Some changes in our town have made it possible for us to appear in print once more.

Rumor has it that we are soon to have a new hotel, a drug store and jewelry shop, hardware store etc.

Mr. Spence is putting up a good sized store. He proposes opening up a general stock of goods this fall.

Crops in nearly every instance, are magnificent. Farmers are anticipating very little, if any, damage from rust. Many begin cutting barley and even oats this week.

O. C. Eaton is building a large and comfortable office. He holds himself ready and willing to loan money on improved farms at very reasonable rates. He will also write up insurance in good reliable companies, or negotiate bonds.

B. S. Rolfe has opened a law office over Wells Bros' store. He has been appointed Co. attorney, and henceforth will see to it, that our county affairs are conducted "in accordance with the statutes in such cases made and provided."

On Friday the town was captured by a band of Indians from the Agency. Their object however, was peace, and they were not to be disturbed. They made the trip with oxen and brought no ponies, which was a sad disappointment to the "breakers" just about departing for their homes and wishing to take back some tangible evidence of having been on the frontier. In the evening the "hoble red man" seemed to be indulging in the "mazy," as last we were visited by the "dreadful" band, and by the musical "A-yi-yi" their style of "catting off," probably 1000 1100.

Rev. W. C. Sherman will hold Episcopal service, at Good's Hall, on Sunday, July 28th.

Every body seems to be busy, some hauling lumber and some machines, but one and all seem to find something to do.
