Spaulding high school will open the 1914 baseball season on Friday afternoon of this week when the school nine will clash with the alumni representatives at the Granite City trotting park.

For many years past this game has been an annual event preparatory to the official opening of the school scheduled. From present indications the alumni will present such a formidable lineup as to insure a repetition of its former victories over the high school regulars.

The make-up of the infield will be composed of Soldini, catcher; Grover Kenefick, pitcher; James Kenefick, first base; James Levis, second base; William Stuart, shortstop; William Johnston, third base. The contenders for outfield positions are numerous and the selections completed the week about ten days ago.

The game. It is the present intention of Coach Agnew to afford many candidates of the high school squad. Captain Tomasi will be seen on the firing line, with Harry Levin handling the bulk of the backstop work. The selection of players for the high school team will be definitely announced until the Montpelier seminary game a week from Wednesday.

C. A. Churchill, the well-known contractor, who has been passing a few days at his home in this city, has gone to Milford, Mass., where he will remain during the coming few months.

For the past few months, Mr. Churchill has been supervising the reconstruction of the Victoria Granite company's plant at Keene, N. H., which was destroyed by fire during the early part of winter.

The past few months, Mr. Churchill has been supervising the reconstruction of the Victoria Granite company's plant at Keene, N. H., which was destroyed by fire during the early part of winter.

The Victoria plant at Keene, N. H., is now finished and running as large a force of workmen as in the past. The Victoria Granite company is controlled by C. H. Dobbs & Sons of Xenia, Ohio.

A short time ago the Dobbs & Sons concern purchased the Milford Pink Granite company's quarries and manufacturing plants. In addition, the concern purchased numerous other properties and quarries lands. Through the Dobbs' acquisition of the Milford pink properties, the granite business of the Massachusetts town is generally recognized to have received a greater impetus than has been known for years.

In late years the granite business has been in rather of a decline in Milford, but now Milford people are looking forward to a revival in the business. Among the plans for the booming of the Milford Pink concern is the construction of a modern granite manufacturing plant. The plant will be one of the largest, most commodious and most sanitary plants in New England. Contractor Churchill will immediately commence the task of erecting the plant. He will supervise a force of about forty men, and the work will consume a matter of many months.

Rev. Mr. Newell will have charge of a departmental service while the conference is in progress. Rev. W. C. Johnson of Windsor, a former pastor at Waterbury, was the guest of his son, W. Curtis Johnson, here to-day, while on his way to Hardwick.

Traffic over the main line of the Montpelier & Wells River railroad was halted until late this afternoon, as the result of a derailment of cars of train No. 1, which occurred at Fairmont (East Montpelier) early this morning.

Train No. 1, which is a freight, left Montpelier for Wells River at an early hour. While passing just beyond the Fairmont station, some of the cars were derailed.

The Green Mountain express, due in Barre at 8 o'clock, was held up at the scene of the wreck and a special train was dispatched from Montpelier to convey the passengers the remainder of the trip. The train due in Barre at 12 o'clock was also delayed because of the accident.

The Boston papers, mail and baggage were held up because of the derailment. It was not until late this afternoon that a wrecking crew from Montpelier cleared the main track and made traffic possible.

A minor accident in the Central Vermont freight yards this forenoon put a large number of passengers to the pains of walking from the station down to Granite street before they could en train for points north and south at 11:25 o'clock.

The overland foot journey to the point of departure was due to the spreading of a rail which sent one of the freight locomotives off the rails just as it was passing the Fenner property to the south of Granite street.
