### OUR YOUNG WOMEN

are so often subject to headache—are  
languid, pale and nervous—because  
their blood is thin or insufficient. They  
are not really sick and hesitate to com-  
plain, but they lack that ambition and  
vitality which is their birthright. They  
do not need drugs—but do need the tonic  
and nourishment in Scott's Emulsion  
that makes richer blood, fills hollow  
cheeks, suppresses nervousness and es-  
tablishes strength. Nourishment alone  
makes blood and Scott's Emulsion is the  
essence of concentrated nourishment,  
free from wines, alcohols or opiates.

If mother or daughter is frail, pale  
or nervous, give her Scott's for one  
month and see the betterment. It has  
a wholesome, "nutty" flavor. Avoid  
substitutes. At any drug store.

Let this fact be impressed on your mind at the start:  
There is not now, and never has been, any other car em-  
bodying all the advantages of this Willis-Knight.

It improves with use. Better than any poppet-valve  
motor to begin with, continued use serves only to polish  
its sliding surfaces and make it even more smooth-run-  
ning, more powerful, more efficient. All other motors  
deteriorate with use.

### CREAM FOR CATARRH OPENS UP NOSTRILS

Tell How To Get Quick Relief  
from Head-Colds. It's Splendid!

In one minute your clogged nostrils  
will open, the air passages of your head  
will clear, and you can breathe freely.  
No more yawning, sneezing, blowing,  
headache, dryness. No struggling for  
breath at night; your cold or catarrh  
will be gone.

Get a small bottle of Ely's Cream  
Balm from your druggist now. Apply a  
little of this fragrant, antiseptic, healing  
cream in your nostrils. It penetrates  
through every air passage of the head,  
softens the inflamed or swollen mucous  
membrane, and relieves it instantly.

It's just fine. Don't stay stuffed up  
with a cold or a nasty catarrh—relief  
comes so quickly.—Adv.

## Putting Tobacco in Tins is Like "Locking the Stable Door" —"After the Horse is Gone"

Real tobacco flavor depends upon the leaf being pre-  
served in its natural state, possible only by pressing the  
leaves into plug form and keeping it in by covering it  
with a natural leaf wrapper. The natural flavor and  
strength of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried out  
so that when you whittle it off it crumbles into dust, but it  
will burn and smoke smooth and cool as it has all of its origi-  
nal tobacco flavor preserved, unevaporated in Plug Form.

Whittling a pipeful is little trouble, amply repaid  
in both quality and quantity. Try this experiment and  
judge for yourself.
