

The Eastman Kodak Co. has cut wages twenty per cent. "Picture ahead."

It remains to be seen whether the alibi furnished by the man distilling alcohol for automobile fuel goes with the court. Incidentally, it is to be proven that the automobile goes on that fuel.

Fewer idle freight cars by 17,312 during the past week is encouraging news, even though the decrease may be due only to the necessity of moving cars into the western grain fields for shipments east and elsewhere. There's something doing at any rate.

The Rutland Herald condenses a world of truth into this sentence: "A soft answer gets a lot of men into politics." In fact, that's the reason we get so many into politics who have no real excuse for being in the limelight. A sharp, decisive "No" saves politics and people from being encumbered with a great deal of poor official material. It's a pity that more people who realize their limitations are not also gifted with ability to withstand the wiles of politics.

Two Rutland youths, aged about 18, went duck hunting; had a 22-calibre rifle; didn't understand the safety device; one boy got a bullet in the spine which promises to paralyze his lower limbs for the remainder of his life. If they had pointed the rifle at the ground while they were loading the rifle, as any sane person ought to do, they would have avoided the terrible consequences. The next time you load a gun or have anything to do with a gun, point the muzzle toward the ground. It is one of the cardinal principles in the handling of firearms.

ETAILERS have their financial problems which do not differ greatly from those of the jobber, except that usually the retailer does not grant as much nor as long credit; and therefore requires less capital, in proportion, to finance his sales.

Retailers have special demands at certain seasons which send them to their bankers for loan accommodation. At such times, this Bank is always prepared to assist customers to the extent warranted by general conditions and the standing of their account.
