GREATER HENDERSONVILLE CLUB

Will Co-operate in The Organization of Young Men's Auxiliary

At the meeting of the Greater Hendersonville club Friday night a number of matters of importance were discussed, some committees appointed and a meeting called for next Friday night to hear the reports of committees heretofore named.

The question of organizing an auxiliary to the Greater Hendersonville club was mentioned by W. A. Smith and Jim Waldrop and a committee composed of W. A. Smith, chairman, S. Nixon Rowe and Noah M. Hollowell, was appointed to confer with the proposed junior club in the matter of organization. The auxiliary will be for young men mostly and will work in conjunction with the Greater Hendersonville club.

Secretary John W. Grimes was instructed to forward a letter of thanks to Hon. M. L. Shipman for his efforts in connection with securing the next grand lodge of Odd Fellows for Hendersonville.

The club named Secretary Grimes as a committee to visit the insurance underwriters' meeting to be held soon in Durham for the purpose of inviting the organization to meet in Hendersonville next year.

President R. N. Willcox reported that he had a communication from S. H. Hardwick of the Southern railway, stating that Hendersonville would hereafter be mentioned in the schedules of the Southern in which it had been omitted heretofore, especially in mention of Pullman service.

The club adopted a resolution presented by H. C. Meyer, requesting the Southern railway authorities to establish an up-town ticket office in Hendersonville at the Quality Shop, where quarters had been offered by Mrs. Parker, during the summer. The matter will be taken up without delay since it would work great convenience to visitors to have an up-town office.

F. S. Wetmur, chairman; H. C. Meyer and Secretary Grimes were named as a committee to formulate plans whereby Hendersonville might get some publicity out of the sale of Pisgah Forest to the government, since 18,000 acres of the land purchased last week lies in Henderson county.

Secretary Grimes stated to the club that he needed a typewriter with which to carry on correspondence for the club. He was instructed to get one on trial with the view to purchasing.

P. F. Patton, chairman; R. H. Staton, W. A. Smith, F. S. Wetmur and E. W. Ewbank were named as a committee to look into the question of the establishment of an industrial school in Hendersonville on the Lake Ocoee property by Dr. John W. Tyndell. Dr. Tyndell was in the city last week looking into the proposition and was well pleased with the site. He made the city a proposition whereby it could get the school.

WESTERN FOREST FIRES.

Olympia, Wash., May 22.—Warm weather, absence of rain and brisk winds have led to a serious forest fire situation in this state. Twenty fires are burning and practically none is listed as under control. State Forester Ferris has ordered out all western Washington county fire wardens. Hundreds of fire fighters already are in the field.

\$250,000 Damage.

Tacoma, Wash., May 22.—Special from Lebam say losses totalling a quarter of a million dollars were sustained when a forest fire wiped out the business district and destroyed a number of residences of the town yesterday. There was no water, except that taken from wells, with which to fight the flames, and although many automobile loads of persons went from Raymond, no real help could be given.

Smoke Interferes.

Salt Ste. Marie, Mich., May 22.—Steamers are moving slowly on account of heavy smoke which hangs over Lake Superior and St. Mary's river from forest fires in the upper peninsula.

CITY WILL PAVE SIXTH AVE.

FOR FIVE BLOCKS OR MORE.

Property Owners File Petition Asking for Street Improvement Commissioners Meeting.

The property owners on Sixth avenue filed with the city commissioners Thursday night a petition calling for the paving from Main to Justice street. The board granted the petition and it is likely that other property owners will be interested sufficiently to ask that the street be paved to the cemetery.

The paving of this street will follow that of Third, Fourth and Fifth avenues from Main street. The paving will extend farther than that on the other streets except that of Fifth avenue which extends to the city limit on the west.

The petition calling for a light on Locust hill to the rear of the Rhett property was referred to the light committee.

The Hendersonville Light & Power company was granted permission to erect poles on Main street.

John L. Orr applied for a permit to erect a nine room house on Willow street. His application was referred to the building committee.

There was some discussion as to granting permits to operate two news stands in the vicinity of the postoffice. Permits were not granted but an understanding was had whereby the stands may operate provided no complaint is filed.

The question of surface closets was discussed again and letters were ordered sent to property owners, notifying them to connect with the sewer line or get sanitary closets.

DANGEROUS CALOMEL GOING OUT OF USE.

A Safer, More Reliable Remedy Has Taken Its Place in the Drug Store and in the Home.

A few years ago, men, women and children took calomel for a sluggish liver and for constipation. They took risks when they did so, for calomel is a dangerous drug. Your family doctor will be the first to tell you this if he discovers you dosing yourself with calomel.

But the drug trade has found a safer, more pleasant remedy than calomel in Dodson's Liver Tonic.

Justus Pharmacy tell us that their drug store sells Dodson's Liver Tonic in practically every case of biliousness and liver trouble where calomel used to be taken.

Dodson's Liver Tonic is a vegetable liver tonic that is absolutely harmless for children and grown people. It sells for 50 cents a bottle and is guaranteed to be entirely satisfactory by Justus Pharmacy who will refund your money with a smile if it does not give quick, gentle relief without any of calomel's unpleasant after-effects. 5-21-2t adv.

MR. AND MRS. BROWN LEAVE.

Mr. and Mrs. F. D. Brown left the city this week for Salisbury, where Mr. Brown has become interested in the Reams-Jones Furniture company.

H. L. Brown, who had spent some time with his brother with the Hendersonville Furniture company, has also gone to Salisbury.

It is the purpose of F. D. Brown to enter school to prepare for ministerial work next fall. He and Mrs. Brown have made a number of friends in Hendersonville who are interested in their success.

VANDERBILT UNIVERSITY.

Oklahoma City, Okla.—Eight members of the clergy and eight laymen were named today by the conference of the Methodist Episcopal church, South, as a commission of sixteen to convey to the eight original patronizing conferences whatever rights the church has to the control of Vanderbilt university, and to consider the advisability of establishing another university as the representative educational institution of the south.

CAROLINA PEOPLE TELL WONDERFUL

EFFECTS OF MAYER'S STOMACH REMEDY

Sufferers Find Swift Relief by Use of This Remarkable Treatment.

Stomach sufferers in the southeast and, in fact, all over the country have found remarkable and efficient results from the use of Mayr's Wonderful Stomach Remedy.

Many have taken this remedy and tell today of the benefits they received. Its effects come quickly—the first dose convinces. Here is what two Carolina folks have written:

W. R. DAVENPORT, Parker, N. C. —"For years I have suffered from a disease which puzzled doctors. I heard of your remedy and one bottle gave me relief. Your full treatment has about cured me."

J. B. ERWIN, Winston Salem, N. C. —"I am satisfied through personal use of the powers of your remedy. You have saved my life."

These statements come from letters among thousands. This remedy is

known and used throughout the United States. It has a record of results and proof.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and poisonous matter. It brings swift relief to sufferers from ailments of the stomach, liver and bowels. Many declare it has saved them from dangerous operations and many are sure it has saved their lives.

Because of the remarkable success of this remedy there are many imitators, so be cautious. Be sure it's MAYR'S. Go to W. H. Justus' drug store and ask about the wonderful results it has been accomplishing in cases they know about—or send to Geo. M. Mayr, Mfg. Chemist, 154, 156 Whiting St., Chicago, Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you its wonderful results.

ACTIVITIES OF BIRDS AS CONSERVERS OF HEALTH.

Washington.—New light is shed on the activities of birds as conservers of the public health in a communication to the National Geographic Society at Washington, from Henry W. Henshaw, chief of the biological survey. The survey for a considerable period has been studying the foods of birds by examining the stomachs of specimens killed for scientific purposes.

"The value of birds to the farmer is plain enough, but we do not usually think of birds as having any direct relation to the public health," writes Mr. Henshaw. "To prove that it is, however, it is only necessary to state that 500 mosquitoes have been found in the stomach of a single night hawk; that in a killdeer's stomach hundreds of the larvae of the salt-marsh mosquito have been found, and that many shore birds greedily devour mosquito larvae. As mosquitoes are known to carry the germs of such serious diseases as typhoid, malaria, and dengue fever it is evident that by destroying such germs the birds are conferring a distinct benefit on man. It may be added that not infrequently tickers are eaten by birds, and that the tick which is responsible for the spread of Texas fever among cattle has been frequently found in the stomach of a bobwhite.

"In considering the many kinds of birds in the United States from the practical side, they may not inaptly be called a police force of the air, the chief duty of which is to restrain within bounds the hordes of insects that if unchecked would devour every green thing.

EFFECT OF HIGH COST OF LIVING ON MISSIONS.

Kansas City, Mo.—The effect of the high cost of living on home missions was pointed out in the annual report of the executive committee of home missions, presented to the fourth general assembly of the Southern Presbyterian church here today. It was asserted that where a missionary could live for \$800 a year 10 years ago it now costs him more than \$1200. For lack of funds the committee has on its hands 250 homeless churches and at least 175 other places where organizations might be effected.

The report of the executive committee of Christian education and ministerial relief reported progress in introducing the "every member canvass" by which regular weekly offerings are obtained from the entire membership.

The most imperative need of the Presbyterian church is that more young men give themselves to the service of God," the report said.

DR. MOREY

DENTIST

Has returned and may be found at his office, in Morey building, with a warm welcome from his friends and many patients. Phone 60.

MORTGAGE SALE NOTICE.

By virtue of the power of sale contained in a certain mortgage deed executed to the undersigned mortgagee by C. C. Bellamy and J. Q. Myers dated the 22nd day of May, 1912, and recorded in Book 33 at page 173 Henderson county mortgage records to secure the payment of certain indebtedness therein named, and default having been made in the payment of the principal and interest thereon, I will sell to the highest bidder for cash at the court house door in the city of Hendersonville, N. C., on Thursday the 4th day of June, 1914, at 12 o'clock M. all the following described piece, parcel or tract of land lying and being in the County of Henderson and State of North Carolina (Grab Creek Township), to-wit:

Beginning at a stake on the Mountain road, being George Holmes' (now Aug. W. Smith's) corner and runs North 18 poles to a stake on the side of a road, thence running with the road 168 poles to a stake, on the North-east line of the Coxie tract, thence with the line of said tract South 52 degrees East 52 poles to a Black Oak, a corner of same, on the line of the Anders tract, thence with the Anders line 18 poles to a stake, thence South 167 poles to a stake in a field, thence South 56 west 61 1-2 poles to a stake on the above mentioned road, thence with the same 70 poles to the beginning; containing 68 acres, 3 rods and 22 poles, more or less this being the property known as the Wainright place near Bowman's Bluff. This May 4th, 1914.

WOMEN FOR TRINITY COLLEGE.

Trinity College, May 23.—Since 1897, when Washington Duke made his first gift to the endowment fund of Trinity College and accompanied the gift with a request to the trustees that the opportunities offered at Trinity be made available for women there has been a steadily growing demand on the part of young women for admission to the college. Present accommodations for them are wholly inadequate, and adequate provision for women who wish to come here is the most immediate need of the college today.

The type of women sent out from Trinity is one of the two or three most significant contributions the college has ever made to higher education.

The alumnae are now engaged in an effort to raise money for building a co-ordinate college for women at Trinity, where women may have equal opportunities for education along with a distinct college life of their own. With a small outlay of money for classrooms and dormitories the entire plant at Trinity may be made available for women.

NEWBERN HAS FIRE.

Newbern, May 23.—Fire which is believed to have originated from a spark from a passing locomotive late this afternoon destroyed the mammoth plant of the West Box & Lumber Co. in this city, entailing a loss of \$125,000.
