

CHICAGO RIOT

Street Car Wrecked and
Two Non-Union Men
Injured

HUNDREDS IN MOB

The Riot Grew Out of the Recent
Strike on the Street Railway—The
Trouble Was Caused by the Refusal
of Passengers to Pay Their Fares to
Non-Union Conductor and His De-
termination Not to Run the Car Till
the Fares Were Paid—A Large
Force of Police Finally Quelled the
Disturbance.

Chicago, December 16.—In a riot to-
day growing out of the recent strike
on the Chicago City street railway,
a car was wrecked by a mob of union
sympathizers who furiously attacked
the non-union conductor and motorman,
badly injuring both. The crew of the
car escaped into a nearby building,
where they were guarded by police.

The riot occurred on the Halsted
street line, near Archer avenue.

The riot was participated in by hun-
dreds of men and boys. Forced to flee
from the car, the two non-union men
were knocked off their feet and severely
pummelled. Struggling up again, the
victims fled in different directions,
pursued by the mob. The mob failing
to re-capture the fugitives, returned
to the car which had been abandoned
at Halsted street and Archer avenue,
and wrecked vengeance upon the con-
veyance, destroying the wood work
and rendering the coach unfit for use.

A patrol wagon load of police mean-
time rescued the two non-unionists.

The trouble occurred owing to the
refusal of passengers, among them
several women, to pay fare to the con-
ductor, who were non-union. When
the conductors were refused him he
announced that the car would stop un-
less the money was paid.

At this several of the passengers in
the car seized him, while others pro-
ceeded to the front platform and or-
dered the motorman to start the car.
At first the motorman refused, but
when one of the passengers exhibited
a revolver concealed in the folds of
his overcoat he started the car and did
not stop until Archer avenue was
reached. The he leaped from the car
and was pursued by a crowd. The
conductor was then attacked. Both
of the victims, it is said, were employed
as strike breakers, during the recent
strike.

SMALL FIRE.

Believed to Have Been of Incendiary
Origin.

A fire alarm was turned in last
night a few minutes after 11 o'clock
from box 47. The fire proved to be
at the residence of Mr. E. P. H.
Strunck, on Dawson street. The fire-
men arrived before the fire had gained
much headway and the flames were
quickly extinguished. The loss will
not exceed \$25.

When discovered the fire was burn-
ing under the outer edge of the house.
It is believed that the fire was of in-
cendiary origin.

Not a Sick Day Since.

"I was taken severely sick with kid-

MERCURY

A POOR CRUTCH.

Experience is a dear teacher, as those who pin their
faith to Mercury find out sooner or later. This power-
ful poison combined with Potash, is the treatment gen-
erally prescribed for Contagious Blood Poison, but failure
and disappointment is the inevitable result. These min-
erals drive in the sores and eruptions, and apparently the
disease is gone and the patient believes the cure perma-
nent, but soon learns better when the old symptoms
return almost as soon as the treatment is left off. You
must either keep the system saturated with mercury or endure the tortures
of sore mouth, ulcerated throat and the mortification that one naturally
feels when the body is covered with disgusting sores, rashes, copper-colored
spotches and other aggravating symptoms of this vile disease.

Mercury and Potash are poor crutches, and their use eventually breaks
down the constitution, ruins the digestion and cause the bones to decay.
S. S. S., a guaranteed purely vegetable remedy, is the
only antidote for Contagious Blood Poison. It de-
stroys every atom of the deadly virus, overcomes the
bad effects of the mercury and cleanses the blood and
system so thoroughly that never after are any signs
of the disease seen. Nor is the taint ever transmitted to others.

We will send free our book on Contagious Blood Poison, which is inter-
esting and contains full directions for treating yourself at home. Medical
advice or any special information desired given without charge.

Col. H. Clay King Dies While Serving
a Life Sentence.

Nashville, Tenn., December 16.—
Colonel H. Clay King died today in
the state penitentiary where since
August 11, 1899, he had been serving
a life sentence for the murder of At-
torney David H. Poston on Main
street in Memphis. The murder grew
out of litigation against King by Pos-
ton for Mrs. Clifton J. Hollow, wife
of the famous Confederate officer.
Both King and Poston were widely
known, the former being the author of
"Kings Digest of the Laws of Ten-
nessee." Up to the final trial and sen-
tencing of King, Poston was high and
on the night the convicted man was
taken from Memphis to Nashville,
Poston's friends chartered a special
train and endeavored to over-
take King with the avowed pur-
pose of lynching him.

The Plant Will Litigation Not Settled.

New Haven, Conn., December 16.—
Probate Judge Cleveland was infor-
med by Attorney Shipman, of Hartford
today that Mrs. Plant has declined to
sign with the other heirs the peti-
tion to the court that the late Henry
Bradley Plant be declared to have been
a resident of New York, in order to
expedite the settlement of the \$17-
000,000 estate which has long been in

no reason for her refusal to sign. The
court ordered a hearing on the peti-
tion delayed until the 16th instant.

The Best Remedy for Croup.

(From the Atchison, Kan., Daily
Globe.)
This is the season when the woman
who knows the best remedies for
croup is in demand in every neighbor-
hood. One of the most terrible things
in the world is to be awakened in the
middle of the night by a whoop from
one of the children. The croup reme-
dies are almost as sure to be lost, in
case of croup as a revolver is sure to
be lost in case of burglars. There
used to be an old-fashioned remedy for
croup, known as hive syrup and toll,
but some modern mothers say that
Chamberlain's Cough Remedy is bet-
ter, and does not cost so much. It
causes the patient to "throw up the
phlegm," quicker, and gives relief in
a shorter time. Give this remedy as
soon as the croupy cough appears and
it will prevent the attack. It never
fails and is pleasant and safe to take.

Stepped Against a Hot Stove.

A child of Mrs. Geo. T. Benson,

which burned him severely. The child
was in great agony and his mother
could do nothing to pacify him. Re-
membering that she had a bottle of
Chamberlain's Pain Balm in the house
she thought she would try it. In less
than half an hour after applying it
the child was quiet and asleep, and in

BADLY BURNED.

Negro Boy Went to Sleep Near a Fire
and When He Awoke His Clothing
Was on Fire.

On Wednesday afternoon Isaac
Bryan, a colored boy about seventeen
years of age, was found lying near the
Atlantic Coast Lane's track about ten
miles north of this city, badly burned
and suffering great pain. The boy was
brought to this city and sent to the
James Walker Memorial hospital. His
condition is critical and there is little
hope entertained of his recovery. The
boy says he was on his way from
Rocky Point to this city and that
getting cold he gathered together a
pile of railroad sills and made a good
fire. He laid down in front of the fire
and soon fell asleep. When he awoke
his clothing was on fire and before he
could extinguish the flames the lower
portion of his body was horribly
burned. The boy's people live in this
city.

LENGTHEN BASEBALL SEASON.

Each Club Will Play 154 Games With
Each Other Club.

New York, December 9.—The Nation-
al League of Professional Base Ball
Clubs, at its second day's session at the
Hotel Victoria, today decided to length-
en the base ball season so to give all
teams of the major leagues who win
pennants an opportunity to play for
championship of the world.

The board decided that each club shall
play 154 games with each other instead
of 140 games as was called for in last
year's schedule. The schedule commit-
tee will try to arrange the schedule that
each club will have enough off days so
that postponed games will not be played
on the same day with scheduled
games. The season will open about
April 15 and continue until October.

The rumor of consolidation with the
American league was denied tonight
with a vehemence that seemed to set-
tle the question. Harry Von Der Horst
declared there was no truth in the con-
solidation talk and the other owners
said it was a foolish matter to even dis-
cuss.

How We Catch Cold.

A cold is sometimes contracted while
remaining inactive for a while in an
uncomfortable room or a cold draft
and by falling to sleep under like
conditions. But most colds are caught
while sleeping too cold at night. Deep
sleep causes sluggish circulation which
renders the system susceptible to
change of temperature. To prevent
colds, sleep under plenty of cover.
To cure colds use Rydalen's Elixir, it
lessens the severity and shortens the
duration and prevents Pneumonia,
Bronchitis and Consumption. R. R.

JURY REPORT

On Post Office Bribery
and Illegal Fencing of
Government Lands

22 INDICTMENTS

One of the indictments is Against a
Former State Senator, Ten Are
Against Ranchmen, and the Others
Are Minor Cases Against Indians—
The Grand Jury Will Make a Sup-
plementary Report and This Will
Include Several More Indictments.
Reported Plan to Take Life of the
Grand Jury's Foreman.

Omaha, Neb., December 16.—The
United States grand jury which has
been in session for some time investi-
gating postoffice bribery cases and the
alleged illegal fencing of government
lands in western Nebraska, today made
a partial report to the court, returning
twenty two indictments.

One is against former State Senator
Elliott Lowe, charging bribery in con-
nection with the appointment of a post-
master at Alma, Neb.; ten are against
ranchmen for illegal fencing and the
others were Indian cases, mostly of a
minor character. Those against ranch-
men include true bills against Bartlett
Richards, President of the Nebraska
Land Fencing Company, W. G. Con-
stock, Vice President of the same com-
pany and Secretary Charles C. James-
son, all of Ellsworth, Neb., and former
State Senator Frank M. Currie, a large
individual cattle owner of Broken Bow,
Neb.

The foreman of the grand jury stated
to the court that it would later have
a supplementary report, and it is stated
this addition will include several more
indictments. The indictment against
former State Senator Lowe contains two
counts, and charges conspiracy to vi-
olate Section 1551 of the revised statutes,
by conspiring to bribe Senator Charles
H. Dietrich by acting as intermediaries
the payment of \$400 in consideration of
which J. B. Billings, who at the time
of the alleged transaction was postmas-
ter at Alma, Neb., was to receive the
reappointment. One of the counts charg-
ed the payment of \$100 and the other
of \$300.

Mrs. H. W. Benner, of Fairbury, Neb.,
today called on Francis E. White, fore-
man of the grand jury and informed
him that members of a fraternal order
were planning to take his life. Mrs.
Benner was taken to the office of United
States Marshal Matthews and closely
questioned, but did not relate the
source of her information.

THE FORESTRY ASSOCIATION.

the directors indicated a substantial
advance in the forestry movement.
The membership of the association is
2,107. Over 53,000 acres of private
forest lands are under the supervision
of the bureau of forestry and the total
now in national forest reserves is over
62,000,000 acres. A resolution was
adopted declaring that the association
lend its best efforts to the creation of
the Southern Appalachian National
Forest Reserve.

The committee on nominations re-
commended Secretary Wilson for
president of the association, Dr. B. E.
Fernow, New York, vice president, E.

CONDITION OF S. A. L.

Rumors of Change of Control Are
Again Denied.

Atlanta, Ga., December 16.—Presi-
dent John Skelton Williams of the
Seaboard Air Line, accompanied by
General Manager J. M. Barr and
James A. Blair, of New York, one of
the directors of the road arrived here
this afternoon and will leave for
Washington and New York at noon.
President Williams in an extended in-
terview this evening took occasion to
repeat denials of several rumors, cur-
rent regarding the control of the road
by interests other than those that he con-
trol. He said regarding the condition
of the line:

"The business of the Seaboard Air
Line railway at present is limited only
by its rolling stock and its terminal
facilities. The earnings for the past
month have increased at the rate of
about \$3,000 a day over the same
month last year. The financial con-
dition of the road today is stronger
than it has ever been."

MYSTERY NOT SOLVED.

Burn Capps Dies Without Naming
His Slayer — Goldsboro Society
News.

(Special to The Messenger.)
Goldsboro, N. C., December 16.—
Although the date is some time off
and there are other matters claiming
immediate attention of the society cir-
cles of the city, there is nothing to
eclipse interest in the annual New
Year's ball, which will take place in
the Armory on New Year's eve. Prepa-
rations are now in vogue for some-
thing more elaborate than any of the
delightful dances that have been given
heretofore on such occasions. Noth-
ing less than a favor german may be
looked for.

The marriage of Mr. N. A. Hum-
bell, of the firm of Hummell Bros.,
tailors of this city, to Miss Callie
Ivey, daughter of Mr. and Mrs. J. J.
Ivey, has been announced to occur
at the home of the intended bride's
parents at Seven Springs on the morn-
ing of the 24th instant.

The man Dunn Capps, who was re-
ported yesterday as being found in a
ditch near the home of Captain A. L.
Sasser in Fork township in a critical
condition, died last night. Dr. Thomas
Hill, the coroner, has gone to the
scene to hold an inquest today. It
is learned since yesterday that Capps
was not lacerated with a knife, as
was reported by courier from the
scene, but that he had been struck
on the back of the head with some
heavy blunt instrument and that his
skull was crushed. A bottle of whis-
key was found in his pocket and it
is presumed that he was drinking and
got into a difficulty with some one on
the road. Two negroes who live in
the neighborhood where Capps was
found by his son yesterday morning,
have told since that they passed
Capps lying beside the road early
Tuesday night, and that they did not
then tell of what they saw for fear
that they would be accused of the
deed. When Capps was found he had
crawled on his hands and knees some
distance from where the negroes passed
him. Instead of being thrown into
the ditch as was thought at first, it
is now believed that he crawled into
the ditch himself in his efforts to
reach the home of Captain Sasser,
which was near by.

After being carried to the home of
Captain Sasser Capps never regained
consciousness. Dr. Theo. L. Ginn, of
this city, dressed the wound yesterday
and expressed the opinion that he
could not live.

The question as to how Capps came
to his violent death is as much of
a mystery today as it was yesterday
and it is probable that the jury of in-
quiry will not be able to throw any
additional light on the subject. From
the lips of the dead man was the only
source that could reveal the desired
information and now that they are
sealed the facts in the case will re-
main shrouded in mystery.

ALL WANTED THE LIBRARY.

Greensboro Citizens Unanimous in De-
sire for a Carnegie Library.

(Special to The Messenger.)

Greensboro, N. C., December 16.—But
few towns could have made a better
showing in the personnel of a gather-
ing than was observed last night at the
meeting of the board of aldermen, when
the final fate of the proposition of a
thirty thousand dollar library building
for Greensboro was hanging in the
aldermanic balance. Lawyers, bankers,
preachers, editors, merchants, insurance
presidents, railroad dignitaries, clerks,
professors, college presidents, school
superintendents, mechanics, contrac-
tors, hotel proprietors, doctors, con-
tractors, masons, and every class of
trade and profession huddled socially
together in a common cause, that of
continued progress for the city. For-
tunately for the city, the board of al-
dermen, without exception, represent
some one of all these allied elements of
progress and business sagacity, and af-
ter a careful investigation of the ex-
pressed will of a large majority of the
voters and a still larger majority of
the taxpayers of the city, they didn't
flinch from giving Greensboro another
push up the ladder of advancement,
but by a unanimous vote, accepted the
offer of Mr. Carnegie, obligating, dur-
ing their term of office to see that the
library has \$3,000 a year for its sup-
port. During the whole of this agita-
tion for the adoption of this agita-
tion for the acceptance of the library,
he it said to the credit of the city, not
a solitary man has openly opposed it
before the public or the board of al-
dermen, and the unanimity of the action
last night, bespeaks united action in
the future.

HOMES FOR CHILDREN.

There is Great Interest Manifested
Throughout the State.

(Special to The Messenger.)

Greensboro, N. C., December 16.—Mr.
William Streeter, President of the
North Carolina Children's Home Soci-
ety, returned last night from a two
weeks trip to the mountains, spending
most of the time in Asheville. He re-
ports great interest in the work in the
mountain section, and speaks enthusi-
astically of the work done for destitute
or homeless children by the Buncombe
county society, which has accom-
plished much for the past few years.
This society gave the president, its cor-
dial endorsement and support. Mr.
Streeter says that there are now thirty
applications on file by people who wish
children to adopt or care for. Captain
J. W. Fry, State Treasurer of the so-
ciety, speaks most encouragingly of
Mr. Streeter's work, and says that cor-
respondence shows that the people of
the State are taking great interest in
it. As soon as possible, receiving homes
will be established at many centers in
the State.

Mr. Streeter's wife and only son ar-
rived here last night from their former
home in Wisconsin, to take up their
permanent residence in North Carolina,

TO CHECK THE BOLL WEEVIL.

Special Session of the Louisiana Leg-
islature Considers the Matter.

New Orleans, December 16.—Gov-
ernor Heard in his message to the
special session of the legislature
which convened at Baton Rouge to-
day for the purpose of discussing the
boll weevil situation and passing nec-
essary laws to check the evils said:
The weevil first coming from Mexico,
has now spread across the State of
Texas and this year has injured the
cotton crop of that State, according
to various estimates from \$15,000,000
to \$50,000,000. If a check is not
found it is only a question of time
when Louisiana and the entire cotton
belt will become a prey to its ravages.
As to the law to be passed by the
special session, a separate board of
commissioners with plenary powers
may be appointed or the State board
of agriculture may be authorized to
carry into effect any laws that may
be passed. My own opinion is that
the work may be done by creating a
board of commissioners composed of
the commissioner of agriculture, the
director of experiment stations, the
State entomologist and two prominent
and practical cotton planters.

A bill carrying these suggestions in-
to effect was introduced and will
probably be passed.

it is to love the
beautiful and
pure. The critical ordeal through which the expectant mother must
pass, however, is so fraught with dread, pain, suffering and danger,
that the very thought of it fills her with apprehension and horror.
There is no necessity for the reproduction of life to be either painful
or dangerous. The use of Mother's Friend so prepares the system for
the coming event that it is safely passed without any danger. This
great and wonderful
remedy is always
applied externally, and
has carried thousands
of women through
the trying crisis without suffering.
