

Newspaper Readers.

If subscribers to journals, like church members, in "stopping their paper," were required to produce an editorial certificate before they could subscribe for another, there would be some curious developments—as, for example: We certify that A. B. stopped his paper because the editor refused to allow him six columns for a personal vindication which concerned nobody but himself. We certify that C. D. refuses the paper because the editor did not publish the obituary notice of a relative which was never sent to him, but which he ought to have detected in some of his exchange papers. We certify that E. F. wishes to transfer his patronage to another paper, because, having taken this paper six years without paying a cent, he felt himself insulted by having a bill sent to him by way of reminder. We certify that B. B., in his own opinion, is a poet of the first water; but the editor, unfortunately, differing from him in his opinion, is regarded by him as wholly unqualified for his office. We certify that I. J. has stopped his paper, because the editor had the temerity to express an opinion on a certain matter without having previously ascertained the opinion of this particular subscriber.—*London Standard*.

A complete, minute, and exact copy of France is about to be terminated after thirty-five years' incessant labor, and at an expense of nearly £400,000. It is the grandest work of the kind ever undertaken.

Circumstantial Evidence.

George W. Bentley, cash clerk of the Worcester and Nashua Railroad, at Worcester, was knocked down, last Thursday evening, says the Springfield Republican, by an unknown man, who escaped, leaving behind him a Kossuth hat. The next morning, as we learn from the Worcester Transcript, an Irishman took the cars for Boston, and, as he acted strangely, the conductor questioned him. The Irishman stated that he struck a man in Worcester the night before, and was hurrying off to escape the consequences. He also stated that he lost his hat in the scuffle, and that it was a Kossuth hat. The conductor asked him what kind of a man he struck, and he described Mr Bentley, even to the color of his whiskers. The conductor then took means to have him returned to Worcester, where the Kossuth hat was found to fit him exactly, and Mr Bentley thought he was the man who struck him, though it was too dark at the time to tell confidently. He would have been convicted had not the real assailant turned up through the discovery of the hat, when he was discharged. Who the Irishman did strike, has not yet transpired. It is a curious case.—*Hamp. and Franklin (Mass.) Express*.

A RHEUMATISM.—A worthy man in this great metropolis recently visited a 'medium,' to witness the wonders of spiritual rappings. He had lived twelve years with a notorious shrew, who at last died, soon after which he married a young woman of comely person and pleasant disposition. On inquiring if any spirits were present, he was answered by the raps in the affirmative.

"Who?"

"The spirit of Melinda, your deceased wife."

"Ah!" exclaimed he, with a gesture of alarm; but recovering himself, he kindly inquired:

"Are you satisfied with your condition? Are you happy?"

"Perfectly so," replied the spirit.

"So am I!" gruffly exclaimed the ungallant inquirer, as he turned upon his heel, and walked off.—*Bost. Journal*.

DYSPEPSIA.

THESE Restorative Pills have been used in private practice, with unprecedented success, for 20 years, they have never before been offered to the public. These Pills remove obstructions, open the natural passages of the fluids of the body—as the pores and lacteal vessels.

THEY ARE WHOLLY VEGETABLE, and perfectly harmless in their effects, instead of weakening and debilitating the patient, (as is usually the case with other Pills) they give tone to the stomach—strengthening and invigorating both stomach and bowels; and imparting new feeling and energy to every part of the system.

Being wholly vegetable, they are mild in their operation, without griping, or any pain whatever. They are slow in their movement, but thorough in their renovating and restorative character; and need only be tried to be approved of by all such as are afflicted with the horrible suffering arising from Dyspepsia, or any of the symptoms of a disordered stomach.

THE STOMACH IS THE CENTER OF SYMPATHIES. It is principally supplied with nerves by a large pair proceeding directly from the brain, called the Par

Vagus. These, in their course, send branches to the pharynx and larynx; the esophagus; the vessels of the neck and heart; the lungs; the liver; the spleen; and the diaphragm.

It is unnecessary to go farther than a primary derangement of the stomach, to account for a multitude of distressing symptoms with which many are afflicted, such as:

Indigestion,	Head-Ache,
Biliousness,	Extreme Nervous Agitation,
Acidity,	Difficulty of Respiration,
Palpitation of the Heart,	A Sense of oppression at the Stomach,
A Sense of the Stomach,	A temporary loss of memory,
An Incapacity for the slightest exertion,	A Sense of Emptiness,
Depression of Spirits,	Drowsiness,
Mistiness and Indistinctness of Vision,	Pulse less frequent, and more feeble than usual,
Cold Hands and Feet,	Debility,
Unpleasant taste in the Mouth, particularly when rising the morning,	Despondency,
Numbness of the Limbs, and other parts,	Emaciation and Extreme Debility,
Vertigo, Nausea,	Costiveness,
Dull Heavy Pain and sense of weight in the Head,

TEMPERANCE ADVOCATES ATTENTION!!!

"The only natural wholesome drink for man," can be obtained from BURNETT'S PATENT WATER COOLER.

WE are now prepared to offer our friends and customers a superior article of Water Coolers of entire new style, at greatly reduced prices. This article is the result of the application of scientific principles to the purpose intended, viz: to keep water as cool as possible, as long as possible, and with the least possible quantity of ice.

The proprietor has long devoted his attention to this particular branch of domestic economy, and passing from one improvement to another, has at length arrived at near perfection as it is possible to reach. A proof of this is found in the very general use of these Coolers in all parts of the country. A simple statement of facts in regard to these Coolers, will satisfy every one of their superiority. First, they are the only article of the kind ever patented.—They are finished with two distinct non-conducting chambers, by means of which, with two pounds of ice to the gallon, water is kept at a temperature of 40 degrees above zero, or only 8 degrees from the freezing point all day. Thus at a cost of some five cents per day, a family of ordinary size can be constantly supplied with water as cold as ice itself, larger numbers in the same proportion. This has been found by actual experiment to be a saving of at least seventy-five per cent. over the Earthen Jars, formerly used for this purpose.

Again, these Coolers NEVER SWEAT; in this way saving much unnecessary waste and trouble. Being manufactured in the most workmanlike style, and handsomely finished in every respect, they make a very beautiful ornament for the Dining Room, Hotel or Steamboat.

An important improvement has lately been added to the Cooler, viz: A small Fan (capable of holding from six to eight pounds of Butter) inserted directly under the cover. This quantity of butter can be kept perfectly hard all day, without additional ice, (a very important addition to the economy and comfort of families.)

If desired, the Cooler can also be furnished at a small expense with a FILTERING APPARATUS, which serves the additional purpose of removing all impurities from the water, rendering it perfectly clean and wholesome.

The Cooler and Filter may be seen in operation at any time, at BURNETT'S,
