THURSDAY, OCTOBER 18, 1883.

A PROHIBITION PARTY in the Politics of Dakota,

Huron Times, 15th. The Baptist church was nearly filled n Saturday afternoon by an audience composed of ministers and delegates, the occasion being the meeting appointed for the organization of a Territorial Home Protection party. For the temporary organization of the meeting the Rev. A. R. Cornwall was chosen chairman and the Rev. W. H Ware made secretary

A committee on credentials was appointed which acted upon the credentials of the comparatively few delegates present A motion was adopted that any man or roman who were present from any county in south Dakota, desiring to represent their county, and who were in harmony with the call, be accorded seats in the convention as delegates from their sev eral counties, provided that no more than

three be present.

It was also moved that where there It was also moved that where there was but one or more delegates from one county, they be allowed to cast the vote of the entire delegation. The temporary organization was made the permanent organization, the Rev. R. H. Dolliver being the acting chairman. The meeting then resolved to organize immediately the Prohibition Home Protection party and a committee consisting of the Rev. George A. Cressey, O. E. Murray, D. Rifenbark, Mrs. J. M. Hartsough and Lyman W. Denton, was appointed to draft resolutions. During the time this committee was out speeches were made on the subject of prohibition by members present. It was shown that the financial condition of the new party was weak and that the thing most needed for fostering the new party was money;

weak and that the thing most necessifor fostering the new party was money; that the advecates of prohibition had been pouring out their prayers and tears which had availed but little and that the time had come when they must pour

out money.

The committee on resolutions reported a set of resolutions and after some modi-

fication adopted the following:

"The Prohibition Home Protection
party of south Dakota in territorial convention assembled adopt the following

platform:

1. We declare our allagiance to the pure principles, high aims and noble incentives which actuated the founders of this republic, and moved to decided action the men who constituted the anti-always party in its incention and corried. slavery party in its inception and carried it forward to ultimate success.

2. We believe the welfare and future

2. We believe the welfare and future prosperity of this people demands the building up of a new party with a principle as its foundation to meet the exigences of the present.

3. We believe the liquor traffic to be the great standing menance of our free institutions, the destroyer of the home and the chief cause of crime. We believe the republican and democratic parties.

the republican and democratic parties stand as a wall of defense to the liquor crime. Therefore, believing in the incrime. Therefore, believing in the in-ternal principles of right, liberty of con-science, and relying upon the guidance of an over-ruling power, we boldly de-clare our allegiance to the prohibition party, and our devotion to the great, un-derlying principles upon which the party is founded, realizing that the mission of the prohibition party is to carry forward the great political reform; of the pre-sent until they are fully attained, made secure and practically applied through-

out the nation.

4. That we deplore the sympathy of the dominate parties with the liquor interests in the past.

5. That it is neither right nor politic for the state or neither right nor politic.

terests in the past.

5. That it is neither right nor politic for the state or nation to give legal sanction or protection to any business, trade or traffic, system, custom or habit that tends to disturb the peace; menace government; corrupt social habits; waste national resources; destroy health, happiness or life; increase sorrow, shame and grimes or retard the process of true size. crimes or retard the progress of true civ-

That the entire traffic in intoxicating liquors, as common beverages, is inimi-cal to the true interests of the individual and destructive of the order and welfare They are just as represented, prepared and destructive of the order and welfare of society, and it ought, therefore, to be made a criminal effense to manufacture, sell, or in any way dispose of, or import of the highest strength attainable. the same and that it should be legally prohibited by adequate laws and penal

ries.

That the history of past legislation en

That the history of past legislation endeavoring to regulate the traffic, abundantly proves that it is impossible to satisfactorily limit or control a system so essentially irregular and mischievous in its natures and tendencies.

That no consideration of private gain or public revenue can justify the upholding or licensing of a system so utterly wrong in principle, suicidal in policy, and disastrous in results as is the liquor traffic.

Two Learned Men Have a Talk and Come to a Common Conclusion.

"There can be no question as to that," said Dr. P—, who is prominently connected with a certain hospital, to his friend, the House Surgeon, as the two sat having a smoke and a quiet chat in the reception room late on a recent stormy night—"No question at all."

traffic.

That the constitutional and legislative prohibition of the traffic is perfectly compatible with rational liberty, and with all the claims of justice and legitimate commerce, and that such suppression of the liquor crime would be highly conductive to the development and growth of progressive and enlightened civilization.

Ever since I began practice in that little country village you've heard me speak of, away up near Lake Ontario, thirty years ago, I have felt—in common with all other physicians—the need of a reliable plaster. There are so many diseases—if, indeed, the majority do not come

ductive to the development and growth of progressive and enlightened civilization.

That all loyal citizens should, and we as a party will, labor boldly and persistently in all judicious and honorable ways for the election and support of men who will gladly enact and execute such prohibition laws, and for the upbuilding of a high public sentiment that will render it impossible, or at least not expedient, for officers to foully betray the people or refuse to entertain their demands.

6. That much time and money is unnecessarily wasted by the present mode require heroic treatment."

expedient, for officers to foully betray the people or refuse to entertain their demands.

6. That much time and money is unnecessarily wasted by the present mode of electing president, vice-president and United States senators without the gain of any compensating advantages; therefore, we declare for their election by a direct vote, believing that the election of officers by the people, so far as convenient and practicable is based upon true governmental principles.

7. We believe that the proper administration of justice demands that our courts shall be placed beyond the pale of politics and that the judges shall hold their offices for life or during good behavior.

8. We declare in favor of the principle that the office should seek the man and not the man the office.

9. We declare in favor of reform in our laws pertaining to the suffrage franchise a veter, and a minimum amount of education should be required.

10. We declare ourselves in harmony with the National Prohibition Home Protection party.

11. Some soothing application. If the patient needs anything, combined with rest and good nursing, will do the business—save where cases of accidents require heroic treatment."

12. If say, Doctor," said the other, "you can speak of it, or not, just as you like, but in my private practice, when I want anything of the sort, I use BENSON'S CAPCINE PORCUS PLASTER. It's a proprietary thing, of course, but it is by all odds the best plaster I have come across. It is scientifically prepried, quick in taking hold, sare to relieve where rellef is possible, and neat as wax to handle. It is just the perfect flower of all that has been done in that line. I happen to know, too, that it is being rapidly introduced in the principal hospitals of London, Paris and other leading cities in Europe."

12. You needn't fret, my friend," laughed the House Surgeon, "over the change of being caught in an act of professional hetorodoxy, for we use Benson's here every day, and so they do at the other city hospitals. We find it so much bett

house."

Benson's plasters are prepared from an improved formula by distinguished physicians and chemists to meet a want felt for years. You will not be disappointed in them. In the middle of the genuine is cur the word CAPCINE. Price 25 cents. Seabury & Johnson, New York.

Rand, McNally & Co's

NEW SECTIONAL MAP OF

Dakota

Exhibiting for the first time the boundary lines of the newly organized Counties. Size, 26x48 inches.—Scale, 12 miles to one 1nch.

Size, 36x48 inches.—Scale, 12 miles
to one linch.

THIS MAP shows every section surveyed, as
well as every city, town, postoffice and railroad built to date. It is constructed from large
scale drawings of each county, certified as to
their correctness, so that every detail in the
course of streams and every irregularity or
offset in the section lines can be implicity relied
on as correctly represented. It is the first map
published showing the boundaries of 34 new
counties, all railroads completed, and the large
contigious districts covered by land office surveys. The railroads are all accurately delineated from large scale drawings furnished by the
engineers of the several roads; and the
stations, postoffices, and other localities are the
result of extensive correspondence with nearly
every portion of the territory. The importance
of this accuracy can best be appreciated by
those purchasing or selling plats of land, where
these facts often govern the market value of
property. Me other map of Dakota compares
with this in truthfulness or amount of detail,
and but few maps hitherto published equal it
in beauty and clearness of engraving. We also
show as a plan, part of the adjoining province
of Manitoba, with its many lines of railroad
that are destined so soon to bind the incommon
interest with Dakota, increasing the property
of both, by the inter-commercial relations that
must necessarily arise.
