Relieved. Pine Lumber,

I am new 49 years old, and have suffered for the last fifteen years with a lung trouble. several members of the family on my mother's and the doctors were all agreed in their opinion that I had consumption also. I had all the distressing symptoms of that terrible disease I have spent thousands of dollars to arrest the march of the disease; I have employed all family, but temporary relief was all that I obtained. I was unfit for any manual labor for several years. By chance I came into possession of a pamphlet on "Blood and Skin Dis-case," from the office of Swift Specific Co., Atlanta, Ga. A friend recommended the use of Swift's Specific claiming that he himself had been greatly benefitted by its use in some lung been greatly benefitted by its use in some lung troubles. I resolved to try it. About 4 years ago I commenced to take S. S. S., according to directions. I found it an invigorating tonic, and have used about fifty bottles. The results are most remarkable. My cough has left me, my strength has returned, and I weigh sixty pounds more than I ever did in my life. It has been three years since I stopped the use of the medicine, but I have had no return of the discase, and there are no pains or weakness felt is my lungs, I do the hardest kind of mechanical work; and feel as well as I ever felt since I was a boy. These, I know, are worderful statements to make, but I am honest when I say that I owe my existence and health to-day to Swift's Specific. It is the only medicine that brought me any permanent relief. I do not say that I wist's Specific will do this in every case, but most positively affirm that it has done this much for me, and I would be recreant to the duty I owe to suffering humanity if I failed to bear this cheerful testimony to the merits of this wonderful medicine. I am well known in the city of Montgomery, and can refer to some of the best citizens in the city.
