

## AT WORK PLANNING HUDSON RIVER BRIDGE.

Photo by Underwood &amp; Underwood.

Gustav Lindenthal, who is regarded as the country's foremost bridge engineer, at work on the projected Manhattan-Weehawken span. The structure, it is estimated, will cost \$190,000,000 and will provide a highway for sixteen lines of vehicles and ten railroad tracks. It will be the largest bridge in the world.

## LENOX A. C. MINSTRELS A SUCCESS

The dance and entertainment given Wednesday night in Schuylkill hall, under auspices of the Lenox A.C. proved an artistic and social success, the affair being attended by more than 200 persons. A ninth provoking minstrel performance was the feature, the cause being made up of "Red" O'Sullivan as interlocutor, "Chick" Clark and Ben

Christian on the ends, assisted by "Bill" Fink, "Doc" Plannigan, A. Stehle, "Ick" Clark, "Bozo" Stehle, "Sharkey" Fitzpatrick and "Nigger" Voitzowitz. The chorus was well trained and rendered popular songs and plantation melodies. Dancing followed the entertainment, and refreshments were served during the

intermission. The interior of the hall was tastefully decorated for the occasion. Next Sunday the club members are going to visit Sing Sing prison, the trip to be made in autos. The Lenox ball team will engage in a game with the Mutual Welfare nine of the institution.

## Frenchman Honors Our Dead Heroes

The near approach to Memorial Day has brought out from former service men of the World War who served in France that the French people now know of Memorial Day as a real holiday of respect and honor to our soldier dead who made the supreme sacrifice for them and sleep their last sleep in their soil. Another holiday is thus added for them to fittingly celebrate and in this connection the following eloquent tribute to our dead heroes who lie buried in France is interesting. It was delivered by Major General Requist, French Army, 3th Region, at the American cemetery, Tours, France, during the ceremonies held there Decoration Day, May 30th, 1921.

"I have come today in the name of France to carry our thoughts and our homage of brotherly affection to the American soldiers who are resting here, after giving their lives to the noblest of causes. Last year, on this day, we dedicated this resting place, given by the City of Tours, to our honored Allies, and since then, a group of heroes—42 officers, 298 men, aviators, fighters of every arm, and women of the Red Cross—have come to sleep their last sleep under this soil which they helped save from the yoke of the foreigner. What Frenchman does not feel a welling of gratitude at this sight? What Frenchman can forget that when the hordes of the Hun were beating closer, the great American

nation, stirred by the German crimes, proved that all Humanity should fight to assure the triumph of right over might? To this noble cause the United States gave everything. Not only its army, but the whole nation threw unstintingly into the scales the weight of its wealth, its industry and its millions of men. American blood flowed with French blood in the crucible of Justice. Sleep in peace, valiant men and women who rest here! Victory has crowned your sacrifice, and you have earned a lasting place in the hearts of the people of France.

Your graves shall have our veneration and the constant devotion of our thoughts, bringing to you the homage of gratitude that is undying. In the name of France, forever united to America, in the name of the French Army, sister of the American Army, we voice this heartfelt cry: "All honor to the heroes who have fallen for the just cause of France and Humanity." This beautiful tribute to our soldier dead was delivered with true eloquence, such as only the French can display when their emotions are deeply touched and was afterwards published in the form of an official army announcement by command of Brigadier General Connor of Headquarters, Service of Supply, American Expeditionary Forces in France. There were present in Tours,

France, at that time hundreds of Bridgeport soldiers who will remember the solemnity of the occasion. Captain A. C. Bennett of 397 East avenue, Bridgeport, was commanding officer of the Headquarters company, Transport Corps, at Tours, of 550 men at that time, and says the boys all felt that they had a real American Memorial Day that year and the only thing they worried about was whether the next one was to be in the good old United States or not. Captain Bennett left Bridgeport in command of the Fourth Company, Coast Artillery, on July 25th, 1917, and after visiting in France was assigned as Adjutant, 2d Battalion, 5th Regiment, Coast Artillery Corps, which trained at Clermont, Ferrand, France. Was later assigned to the 32nd Trench Mortar Battery 7th Div., which saw active service in the Alsace-Lorraine front sector. He was disabled in the Aisne-Marne drive and returned to the United States on October 26th, 1919, after a period of active service of over two years and three months.

Captain Bennett is now Commander of Raymond W. Harris Post, Veterans of Foreign Wars, which has a membership in good standing of over 600 overseas men.

This organization with the G. A. R. Sons of Veterans, Sons of the American Revolution, United Spanish War Veterans and American Legion are very much interested in the movement for a memorial building to the patriotic societies of Bridgeport. He states that it seems a pity that some suitable place should not soon be provided for the public display of hundreds of articles brought back from France, Italy, Belgium, Germany, Russia, Serbia, Rumania and even Turkey by the Bridgeport boys

## WOMEN LEGISLATORS FIGHT AGE LIMITS FOR FARM INMATES

### Tax On Intangibles Killed In Committee

Hartford.—The legislative committee on finance voted yesterday to recommend the rejection of the bill proposing a new tax on intangibles including the assessment of stock of foreign corporations not carrying on business in Connecticut. The action of the committee followed several weeks' wrestling with the subject and consideration of many modifications of the original bill, and the draft finally voted down was one fixing the tax rate at 3 mills and making an exception in cases where money was assessed at 2 mills on the dollar. The vote to reject the bill was unanimous.

The committee has recommended a 5 per cent. tax on admissions to amusements. LEFT SCHEDULED RUN. August Smith, a jitneyman of 67 Maplewood avenue, who was arrested yesterday for operating his machine off a scheduled run, was arraigned in the City court today, and his case was continued until May 27.

## PARIS TAXI DRIVERS ORGANIZE SOVIET

Paris, May 27.—Paris taxi drivers will not go to Moscow or become in any way affiliated with the Third International. They prefer to run their own little soviet in their own little way on the streets of Paris, where they delight in jostling fares and in generally making a trip round the city as uncomfortable as possible. At a recent meeting to discuss adherence to the Third International the Communist drivers lost out by 862 votes against 596. On the other hand, French lynch-type operators voted for Moscow by a big majority, without having come to blows with their more moderate colleagues. Both the

secretary general and his assistant, moderates, were badly beaten up and had to be taken to the hospital. The police did not interfere. OXFORD TO CAIRO WIRELESS. London, May 27.—The first station in the new Empire wireless chain—Oxford to Cairo—will be working by the first week in June. India, Singapore, Hong Kong and Australia will be included in the chain. A committee is still to consider what terms licenses should be issued to private enterprises.

## SWEDENBORG SAID TO HAVE ANTICIPATED EINSTEIN THEORY

Boston, May 27.—Professor Albert Einstein in his theory of relativity of space and time was anticipated by Emanuel Swedenborg by 175 years, according to the followers of Swedenborg in Boston. Rev. H. A. Whittlemore, in referring to Einstein's theory, says: "As to the relativity of time and space, Professor Einstein was anticipated by Swedenborg by 175 years. The great Swedish scientist maintained that while events in the spiritual world seem to happen under conditions of time and space, yet time and space there are totally different from what they are here."

"He deals with this paradox at some length. Perhaps Professor Einstein might get some additional points from him on this subject." secretary general and his assistant, moderates, were badly beaten up and had to be taken to the hospital. The police did not interfere. OXFORD TO CAIRO WIRELESS. London, May 27.—The first station in the new Empire wireless chain—Oxford to Cairo—will be working by the first week in June. India, Singapore, Hong Kong and Australia will be included in the chain. A committee is still to consider what terms licenses should be issued to private enterprises.

## CAN'T CUT BUDGET DOWN CHAIRMAN HALL HOLDS

Hartford.—Chairman E. S. Hall of the appropriations committee of the General Assembly took the position yesterday that the budget of maintenance appropriations aggregating \$26,415,292 was down to rock bottom and that it would be impossible to make any material cuts in it without crippling the activities of departments and institutions of the state during the coming two years. It was the first statement made by the chairman since the announcement from the governor's office, Monday, that the executive would insist on substantial reductions.

He also conferred with Chairman Trumbull of the finance committee on a proposal to recommend a \$2,000,000 bond issue to pay for two new construction projects which Senator Hall said were absolutely justified, including \$200,000 for the Newington Home for Crippled Children, \$250,000 for the American School for the Deaf, \$325,000 for the erection of a building for acute insane at the Connecticut State Hospital, \$375,000 for the acquisition of property for a state administration building and \$750,000 for the state normal school at New Britain. Garry Hermann of the Reds, denies rumors that a deal is on where by the Glatts will secure holdout Heine Groh, third baseman.
