

ARCHITECTS OF THREE CITIES NEAR PROVINCE

Professor at University of Illinois Addresses Local Association—Seeks Cooperation.

Two steps of progress were made by Tri-City Architects' association last evening at a dinner held at the Davenport Commercial club, when W. L. Provin, professor in the school of architecture of the University of Illinois, addressed the meeting. It was the first time that the tri-city architects have made any effort to obtain a cooperative spirit between the training school and the architects in the field of their work. And it was the first time that the wives of the club members were invited to attend their dinner meetings. It is expected that both new ventures will prove their worth.

Prof. Provin outlined the work of the department in which he was engaged, 300 students being enrolled. He spoke of the system of co-operation existing between Illinois university and 11 other schools of architecture in this country; de-

scribed the Illinois university architectural library, and emphasized the need of one or two years in a practicing office before awarding a student the university degree. Prof. Provin was impressed by the tri-city field and the opportunities offered by the locality to young architects.

Cervin Chairman.
Olef E. Cervin, president of the Tri-City Architects' association, presided as toastmaster and called for informal speeches by Members Burrows, Kruse, Horn and Temple. A roll call showed that the tri-cities is the working field of graduates from nearly all the large architectural colleges of the country, the majority being from the University of Illinois.

PLAYS MUSIC OF SALVATION ARMY

Eric Leidsen.
The proceeds from the concert to be given by the noted pianist, Eric Leidsen, at the Salvation Army headquarters, Twenty-first street and Fifth avenue, at 8 o'clock this evening, will go toward the purchase of band instruments for the local corps.

The Rock Island Salvation Army corps, under the leadership of Captain Martin Watner, although of recent advent to Rock Island, have performed noteworthy work here, especially in help to the unfortunate during the past winter. The corps has been without hand instruments and now desire to purchase them for use in conducting their services.

They have been able to secure Mr. Leidsen of New York city, well known there as piano instructor and concert artist, to play his program of famous Salvation Army songs in concert here this evening. The musician will appear in Moline, under the auspices of the Moline corps for the remainder of the week, including next Sunday.

Mr. Leidsen studied in Denmark under the best instructors. He has of late been devoting his time to the rendering of Salvation Army programs in various cities from coast to coast. One of the features of his program will be the playing of the piano and cornet simultaneously.

He comes here from Chicago, and will go from here to St. Paul, Minn., for several concerts.
