

W. I. HARVE
HIS GOAL 500
IN ONE MONTH

Extensive Campaign for New Members to Be Started by Mr. Harvey Next Week.

An intensive campaign with 500 new members as the goal will be started during the entire month of October by the Modern Woodmen of America.

This decision was reached and plans discussed at a meeting last night of the Modern Woodmen Society organization. It was decided to bring Bert Oakman, a special agent, from Milwaukee to direct the drive. Oakman has an enviable reputation for getting across his message in the way of member drives.

AMERICA MUST
RANK FIRST

Senator Harding Sounds Note of Warning Against Hypocritical Yets.

Marion, Ohio, Sept. 15.—Warning against the dangers of a hypocritical citizenship, Senator Harding told a gathering of American-born citizens here today that the United States must avoid "meddling" in the affairs of the other nations.

The Republican nominee declared that he did not blame the foreign-born for conflicting sympathies during the World War and asserted that the fault belonged to the nation itself. The task of thoroughly Americanizing those of foreign extraction, he said, had been neglected and must now be taken up with new determination.

"I want America on guard against that course which naturally tends to array Americans against each other. I do not know whether or not Washington foresees this menace when he warns us against entangling alliances and meddling abroad; but I see it, and I say to you that all America must stand firm against this dangerous and destructive un-American policy. Meddling is not only dangerous to us, because it leads us into the entanglements against which Washington warned us, but it also threatens an America divided in her own household.

"For Americans, who love America, I sound a warning. It is not beyond possibility that the day might come—and may God forbid it—when an organized hypocritical vote in American politics may have the balance of voting power to elect our government. If this were true, America would be delivered out of the hands of her citizenship and her control might be transferred to a foreign capital abroad.

J. A. GUSTAFSON

Funeral of Well-Known Rock Island Clothier and Lodge Man Who Died Yesterday.

Funeral services of John A. Gustafson, well known Rock Island clothier and lodge man, who died yesterday afternoon at his home, 1233 Twentieth street, will be held at 10 o'clock Monday morning at the home, with Rev. Lauspolet, Hageday officiating at the services. Interment will be in Chippewaock cemetery.

Mr. Gustafson had been ill three weeks with typhoid fever and for the last week his condition had been serious. His condition was critical for the last 13 hours.

Mr. Gustafson was born in Sweden on Jan. 5, 1864, and came to this country and Cabel, Ill., when 18 years of age. He was employed at the Cable store, a merchandising business, where he received his first business experience. He came to Rock Island later and was associated for 15 years with the London Clothing company. In 1902 Mr. Gustafson and B. I. Hayes opened the Gustafson & Hayes store on Second avenue. After 14 years of business together, Mr. Gustafson sold out to Mr. Hayes and in 1917 opened his present place of business at 1821 Second avenue.

Married in 1890. Mr. Gustafson was married to Miss Ida Schmidt of Muscatine on Nov. 2, 1890. VILLA CROWDED
OVERCAPACITY

Sisters of Visitation Facing Serious Problems Arising from Largest Attendance.

The accommodations of the Villa de Chantal, which have been taxed beyond their capacity for students the past three years, are crowded to an extent this year, with the largest attendance in the history of the institution, that the Sisters of the Visitation are faced with a serious problem. Every available part of space in the present building has been converted into dormitory purposes, and yet there is hardly sufficient room.

This condition brings the building project, a campaign for which was started last spring, up for immediate and imperative attention, and a renewal of the drive for funds to build the essential additions then inaugurated, must be resumed without delay. If this beautiful school for girls is to continue to grow.

The Sisters were much pleased with the generous response that attended the campaign of last spring, so far as it progressed and they have reason to feel that a renewal of their efforts will be attended by results which will measure up to their fondest expectations. The sum which must be realized in order to complete the contemplated improvements, is \$200,000.

PRE-WAR LEVEL
OF IMMIGRANTS

State to Face Men Problems as Result of Foreign Influx.

Chicago, Sept. 15.—Immigrant trains are once more arriving in Chicago bringing foreign passengers whose number is fast approaching the pre-war level, Miss Grace Abbott, executive secretary of the Illinois' Commission of the Immigrants' Commission of Illinois, said here recently.

"The state is sure to have new problems and new aspects of the old problems to deal with as a result of the present influx," Miss Abbott said. "The people who are now arriving come from suffering and devastated regions of Europe and will no doubt bear the impress of what they have endured during the past six years.

"The Illinois commission expects to achieve results by study of the changing conditions, by keeping in touch with immigrant groups, and by making accessible to them official and private agencies which can be of assistance during their period of readjustment, Miss Abbott explained.

At present a social study of coal mining towns is being made and the educational needs and opportunities offered the immigrant who is above the age of compulsory school attendance are being investigated.

"Somewhat of the scope of the work before the commission can be seen," said Miss Abbott, "when it is explained that in 1910 there were 1,202,500 foreign born residents in Illinois, and that from 1910 to 1917 there were 497,484 immigrants who gave Illinois as their destination. Of the approximately half million immigrants who came to Illinois during the last decade only about 9 per cent were English speaking, 17 per cent were Polish, 15.6 per cent Italian, 8 per cent Hebrew, 7 per cent Slavs from the Balkan states, 4.6 per cent Lithuanians and Letts, 4.3 per cent Greek and 3.1 per cent Russian."

COAL MINERS
HAVE PRIORITY

Washington, Sept. 15.—(United Press).—Coal mines will continue to have first call on empty railroad cars to insure a supply of winter fuel, under an order of the interstate commerce commission, which went into effect today. The order extended for an indefinite period the life of the commission's recent priority list which was to have become void today.

Expiration of the priority list was made necessary by the strike of anthracite coal miners which reduced the output of that fuel and decreased the supply of bituminous coal. Anthracite production fell to nearly 500,000 tons last week as a result of a strike, it was estimated here today.
