Dear friends of this wonderful, whole-souled west. You are justly proud of your native son. For a fearless heart beats beneath his vest!

He's the valiant foe of the plutocrat. An ardent American, through and through. It gives me great pleasure to tell you that!

He's much, is your Hiram, like Theodore: He finishes every fight he starts; He still has a thirst for the old guards' gore!

SPEAKING OF THE NEW ILLINOIS... WHO was it sprung that "splendid isolation" phrase? It's beginning to appeal to us.

Well, Perhaps Every Little Letter Has a Meaning All Its Own... F. H. Poppen has just completed the painting of the buildings on his farm 12 miles northwest of Desmet.

Frederic Haskin's Letter... Methods in Campaigns... Washington, D. C., Sept. 16.-The management of a national campaign is a matter of business as well as politics.

During the campaign of 1928, however, Chairman Johnson of the Democratic executive committee revived the idea of having a district representative in every election precinct throughout the United States.

Three Kinds of States... For campaign purposes the states are divided into two classes: the first are those that are doubtful with chances favoring the ticket.

The most costly mistake that any party manager is able to make is that of taking the vote of the rank and file of the party and grousing their enthusiasm for the ticket.

There are three ways of attaining the results. The first is through mass meetings. Most leaders claim that their value is limited to the arousing of enthusiasm of the rank and file.

Getting the Dope... The national committee is aided in its work by a campaign or executive committee. The information on which the campaign is conducted comes from two sources.

The poster has come to be a big factor in every campaign. The Republicans circulated five hundred cartoons by Homer Davenport and Thomas Nast have been widely used by campaign committees.
