

TO HITS AND CAUSES DEATH DAVENPORT LAD

Gellman, 6 Years Old, Struck by Auto While Playing Saturday Afternoon.

Four hours after Max Gellman, 6-year-old son of Mr. and Mrs. M. Gellman, 730 1/2 Harrison street, Davenport, was run down by a machine at 3:15 Saturday afternoon while playing near Eighth and Harrison streets, death came to him. The lad was playing in the street, when he was thrown to the ground and run over by the machine driven by Ted Henigbaum, 12-year-old son of F. G. Henigbaum, 177 East Locust street, Davenport.

The Davenport lad is survived by two half-brothers and three half-sisters in Rock Island: Ica and Beulah Gellman, and Mrs. Albert Westerman.

The Gellman lad, together with Fred McCarthy and Jack Lemmer, two other boys of about his own age, were on the north side of Eighth street, when the Henigbaum machine turned west from Harrison. The driver swung out into the car tracks to avoid the playing children, but the Gellman lad, pursued by the others, ran directly in front of the machine. The lad lay on the pavement between the front and rear wheels when the car was stopped.

Struck on the shoulder by a fender, he was borne to the pavement, and the front wheel passed over his body across the abdomen. His pelvic bone was crushed by the weight of the motor car, and it was this injury together with a fractured skull which caused the boy's death.

Other injuries sustained by the little fellow were a fractured right leg above the knee, a broken right arm, just above the elbow and numerous cuts and contusions about the head and face, besides a fracture of the skull.

The boy was taken into the store of his mother, at the corner of Eighth and Harrison streets, and the ambulance summoned immediately. Speeded to Mercy Hospital, the wounded and unconscious boy was placed on an operating table. Death came at 7 o'clock in the evening.

STEAMERS THIS SEASON CARRIED 58,652 PERSONS

Capital of Steamship Line Accommodates 27,198 in Biggest Summer in Years.

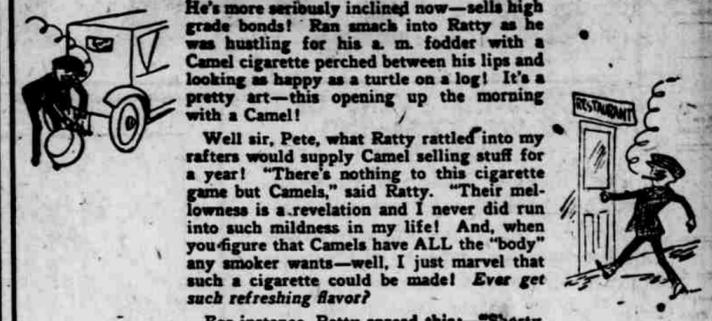

One of the biggest excursion seasons in years, in which 58,652 passengers have been carried by five steamers, is just closing, according to the report made by R. G. Pearce, government inspector of boats.

Mr. Pearce says that in the way of excursions the 1920 season has been one of the biggest yet, the Steamship company with its Capitol, steamer J. S. and steamer St. Paul and the Wisard line with the W. G. Hill and the Majestic, carrying over 58,000 passengers. The season opened with an excursion on May 8 by the steamer St. Paul.

The Capitol, the newest of the five steamers, carried the greatest number of passengers, recording 27,198 for the season. It opened its season on May 29. The G. W. Hill, also of the Wisard line, was second in the number of people carried.

registering 19,918, having started 24, with 5,301. The Majestic of the schedule on May 15. The St. the Wisard line carried 946. Total carried 5,371 and the J. S. Arrangements for a big season in which opened its season later, May 1921 are being made by the Steamship and Wisard lines. Remodeling of boats and overhauling will be done before the beginning of next summer.

OH, YOU PETE:

Remember Ratty Waters who tied the diaphan under Prof. Bunn's car at Princeton? He's more seriously inclined now—sells high grade bonds! Ran smack into Ratty as he was hustling for his a. m. fodder with a Camel cigarette perched between his lips and looking as happy as a turtle on a log! It's a pretty art—this opening up the morning with a Camel!

Well sir, Pete, what Ratty rattled into my rafters would supply Camel selling stuff for a year! "There's nothing to this cigarette game but Camels," said Ratty. "Their mellowness is a revelation and I never did run into such mildness in my life! And, when you figure that Camels have ALL the "body" any smoker wants—well, I just marvel that such a cigarette could be made! Ever get such refreshing flavor?"

For instance, Ratty spread this:—"Shorty, I can't stand the usual unpleasant cigarette aftertaste and unpleasant cigarette odor! Camels are free from both! (100 per cent. O. K., Pete!) And, they never tire my taste! When you pass by Camels you have slipped by your smoke signals!"

Tried to get Ratty to put some of that sales talk on paper, but he came back:—"You tell 'em, old kettle—you've got the spout!"

Pete, Camels won Ratty's favor like they've won thousands of others! They'll win any man who gives them a chance!

Shorty Camel CIGARETTES

P. S.—Just wrote E. J. Reynolds Tel. Co. it ought to help to slip a picture of the Camel package right along side the big name "Camel"—like this! more ideas brewing.

SEM-PRAY Face Powder

The alluring fragrance of spring blossoms is in SEM-PRAY Face Powder and it is oh, so good for the complexion! And, wonder of wonders, "it stays on" under all conditions. Flesh, white, rosy and brunette. Your favorite store should have it. 50c the box.

People's Pulpit

The Dispute Continues.

Rock Island, Ill., Sept. 19, 1920.

Editor Argus: In my former letter, answering that of Kenne Miller, I referred to his epistolary efforts attacking me, as "amusing," and "entertaining." In the mouth of two or three witnesses shall every word be established. In his contributions to the gayety of Rock Island, the conductor of the funny department of The Argus quoted from Mr. Miller's reply to my reply.

"Secret laughter tickled all my soul at the spectacle of Mr. Miller's attempt to quote from the bible. The verse that with such unctious he claims to be from the sacred writings is not found there. It is delicious, my young friend's simultaneous omniscience and actual ignorance!"

Then again consider his ipse dixit that "Tom Paine did far more for America than did Theodore Roosevelt!" It is to laugh.

As defective as is Mr. Miller's knowledge of history, and of the scriptures, so defective is his logic. I will not waste time nor typewriter ribbon in meeting it.

It will charitably assume that when the immaturity of his high school days is past, his argumentative processes will have been improved.

Mr. Miller will probably try to reply to this. I doubt not that he enjoys seeing his name in print. But I feel that it will not be worth while to answer any further effusions of his.

Closing, I would suggest that he look up in an unabridged dictionary the secondary meaning of "Sophomoric," and the etymology of "sophomore." He might meditate with profit on the definition and the derivation. As he considers the root words from which the noun comes, I would urge him to read Romans 1:22.

DR. W. O. COFFEE
In Davenport Offices Every Saturday, Monday and Tuesday

Dr. W. O. Coffee, the oculist and aurist, is in his Davenport offices Saturday, Monday and Tuesday of each week in the First National bank building, phone Davenport 7314. Hours from 9 a. m. to 3:30 p. m. Practice limited to the treatment of all eye diseases, failing sight, deafness, impaired hearing, head noises, ulcers of the ears, catarrh of the nose, head, throat and sinuses. He treats catarrrh as a constitutional condition as well as a local disease. He treats enlarged tonsils without a surgical operation and says many cases of partial blindness can be restored without an operation by his special non-surgical method. He straightens cross-eyes by his special method, usually at one visit. He removes adenoids, polypus tumors of the nose without chloroform and patients return home without danger. He has treated eye, ear, nose and throat diseases for 38 years. Dr. Coffee is in his Peoria offices at 309 South Jefferson street all the rest of the time he is not in Davenport. Better see him about your case before submitting to an operation. His experience in treating thousands of cases makes it possible for him to give relief many times when others would fail. Many operations are not necessary.

Deep-Seated Coughs
Develop into complications if neglected. Use our cough and cold remedy and you will get satisfaction for more than fifty years.

PISO'S

Gasoline to Help Lower Food Prices

"Of all gasoline manufactured in the United States 67.6% is used by automotive vehicles." (Oil News, Sept. 5, 1920, page 42.)

"Of all the motor vehicles in use in the Middle West, 65% of the total registration are farmer-owned." (Arthur Capper Address, 1920.) Gasoline is taking the place of vanishing man-power on the farms; and not only does it reduce the man-hours required to produce a given amount of food, but it also reduces the actual cost of production, and this despite the advancing price of gasoline. (H. W. Quaintance "Influence of Farm Machinery on Production," Power Wagon Reference Book 1920, page 561.)

Authorities agree that gasoline is a most important factor in the production and distribution of food products.

When gasoline is employed universally to increase the efficiency of man-power on the farm, we may look for vastly increased production and a consequent decrease in the cost of producing food.

In the eleven Middle West states served by the Standard Oil Company (Indiana) more than 100,000 tractors are in use, and the number is increasing rapidly.

In the states served by the Standard Oil Company (Indiana) the number of farmer-owned motor trucks is as follows:

Kansas	1,733
Iowa	2,773
Illinois	2,261
Indiana	1,548
North Dakota	501
South Dakota	1,708
Michigan	1,636
Minnesota	1,255
Missouri	2,065
Wisconsin	1,465
Oklahoma	723
Total	17,667

(U. S. Department of Agriculture states that only about 75% of total farmer ownership was reported.)

The distribution service of the Standard Oil Company (Indiana) brings petroleum products quickly and cheaply to the farm when they are most needed.

It is the plan of this Company to make its distribution facilities the most perfect systems of its kind in the world. To do this, largely increased equipment is being installed. To supply this vast network of stations, trucks, tank wagons, etc., the Manufacturing Department is bending its energies to devise means for producing an ever increasing percentage of gasoline from the crude oil obtainable, and at the same time to keep users of other products of petroleum supplied with their needs.

910 So. Michigan Ave., Chicago, Illinois

Certain-teed Roofing Costs Less to Lay

You will appreciate the low cost and convenience of laying Certain-teed Roofing. Skilled labor is not required to lay it properly. You save much of the expense of hiring trained workmen and avoid delays because of a scarcity of such men.

But this is only one of the Certain-teed economies. It also costs less to buy and less to maintain than any other type of good roofing.

In addition, Certain-teed roofing is weather-proof, fire-retarding and spark-proof. It is guaranteed for five, ten or fifteen years, according to weight. Experience proves that it usually outlasts its guarantee by years of satisfactory service.

See your dealer about Certain-teed Roofing. If he can't fill your entire order from stock, he can get what you want quickly from a nearby Certain-teed distributing center.
