Over 12,000 persons sought employment at the 13 state free employment bureaus operated in 11 counties during the month of September, according to statistics compiled by the general advisory board of the Illinois free employment offices. During the same period employers asked for 22,331 persons as compared to the 22,051 persons.

At this number the Rock Island bureau, with Fred W. Rinck, superintendent, received 1,270 applications and 1,527 calls from employers during September. In the state there were 20,315 persons referred to positions and 22,000 actually placed. Locally there were 1,977 placed. On a percentage basis the figures show an average for the state of approximately 96 per cent registered persons placed, 91 per cent placed to registered, 78 per cent placed to registered and 88 per cent placed to those referred to positions. By this it is estimated that a per-

Rock Island, Ill., Oct. 12.—Editor Argus: In regard to the piece of news you had in your paper about apples for asking, I wish to state that I have been out in the country trying to buy apples to sell to the people of Rock Island. I was able to buy a few bushels of Mr. O'Connor, north of Milan, for \$1 per bushel and was compelled to sell some of them for 75 cents a bushel. They were wind falls, worm eaten and small. I answered an advertisement (apples for sale) at Twenty-fourth avenue and Thirty-eighth street. He wanted \$1.50 and \$2.00 per bushel. The people of the city see so much in the papers

about cheap apples they do not want to pay over \$1 or \$1.25 per bushel for them. I engaged the bushels over in Iowa about 15 miles north at \$1 per bushel. When

I went after them the farmer was selling them to other people for 4 cents per pound. He sold me about 30 bushels for \$1 per bushel. Let us know where these apples

are. We will get them and let the poor people of the city who are not able to ride out in the country have them at a small profit. I want to also state that I had to

pay \$2.50 per bushel for sweet potatoes raised on Big Island. I enquired what I could get them for at Muscatine and was told \$2.00 per bushel. Now, Mr. Editor, I am not

a knacker, but I would like to know the people of the city know the truth about these things. Yours respectfully, ED A. BELZ.

GOLDEN JUBILEE**

**Just Four More Days To Go**

Monday's big business showed unerringly how irresistible are the real values we are offering in this, our 50th Anniversary

They are better values because we were especially particular in selecting the merchandise for this sale, the buying of which begun months ago. Then, too, as the market declines we are taking our loss accordingly.

We are going to make these last days the greatest in the history of this store. Watch each day for special announcements of what's going on at McCabe's.

We have replenished our souvenir stock on third floor with new and useful gifts. Even if you have looked them over, better come down tomorrow and see what's been added to our list of souvenirs. Get your coupon with every cash purchase. Save them and get a valuable souvenir or when you have purchased 1.00 worth of merchandise trade them in.

RED-TOP FLOUR  
Milled by the millers of the famous  
Aunt Jemima Pancake Flour**

SINCE Red-Top Flour was first introduced in this locality, the demand has increased faster than it could be supplied—until now. Recently the capacity of the Red-Top mills was materially increased, and Red-Top Flour may now be had by every family.

Red-Top Flour is milled from choicest Kansas Turkey hard wheat—noted for its plump, meaty kernels, its richness in gluten, its wonderful nutritive values.

Red-Top Flour never varies—each sack is the same. Every day the

wheat is tested, every day the flour is tested—and each sack that passes this double inspection is identical in gluten, in color, in flavor, in all those qualities which produce the finest breads and pastries.

Probably your grocer already has this flour—if not, he will gladly get it for you through his distributor. Be sure to specify Red-Top in your next grocery order—it will open up a whole new field of delightful baking results. Aunt Jemima Mills Company, St. Joseph, Mo.

**TRUCK PRICES**

THE much-advertised statement that it is time war prices were reduced is undisputably sound. But not as sound as having no war prices to reduce.

That is the White Company's position.

During five years of the steepest price ascent in the history of American business, White Truck prices have advanced, averaging all models, 16.9 per cent—an advance held to a minimum by a close margin of profit and a rapidly growing output.

Other trucks have gone up in price 30, 40, 50, 60, 70 per cent and more.

Whatever the market conditions, truck buyers can confidently purchase White equipment, knowing that the investment—past, present and future—will be protected against undue price fluctuation. Price STABILITY, the company believes, is an important index of real worth, both in an organization and in its product.
