THE condition of Chairman Wilson, as reported from Mexico, will create general apprehension and sincere regret. It seems to be a fact that Mr. Wilson seriously impaired his health by protracted labor on the tariff bill in the basement of the tariff bill in the basement of the mays and the constant of the mays and the constant of the may are the constant of the may are the constant of the constan capitol occupied by the ways and means committee. THE Chicago papers announce that George W. Ferris, who gave his name world-wide fame by building the higgest wheel on the globe, is now president of a second scheme, with which he proposes to visit the backwoods part of this country. It is to be a miniature reproduction of the World's fair. The scale will be sufficiently reduced to allow the whole outfit to be shown inside a common ear. It will have all the details exactly as they operated at the expentity as they operated at the expentity as they operated at the expentity as they operated netly as they operated at the expe-sition. There will be small foun-tains, the intramural railway and features from Midway, with glaring electrical effects.

Governon Forms, of Louisi says the appointment of a successor to Senator White will require him to do a great deal of thinking. The democrats of the northern portion of the state, who are nearly all cotton planters, insist that the new senator planters, insist that the new sensior shall come from one of those counties. The democrats of the southern end of the state say that the appointer must be sound on "sugar," and they are not inclined to trust a North Louisiana man. Congressman Blanchard in quite likely to be the governor's choice. He lives in one of the northern counties, but he has governor's choice. He fives in one of the northern counties, but he has telegraphed to the governor that f appointed he will vote against the Wilson bill unless it provides a duty on sugar. This pledge, it is thought, will make Mr. Blanchard acceptable to the sugar democrats. The question of democracy does not appear to enter into the question at all; it is a matter of sugar and nothing but sugar.
