A SLOW GAME.

Yesterday's game between Rock Island and Peoria was one of those slow, dead, decaying exhibitions which have no interesting features. It was characterized by one continual howl accompanying each decision of Needham. Of the latter it may be said his decisions were not always of the kind calculated to inspire interest in the game, but it can not be said he was prejudiced, or that either side had the best of it with him. Dillon, Peoria's wonder in the box, was introduced. Brackett and Flynn caught him pitching hay on a little 10-acre patch near Normal, Ill., and admiring the way he handled a pitch-fork, hired him to pitch ball, but he is the largest, most awkward pitcher that ever played a game here. He officiated in the first three innings, and was put into the field for three, and little Pete Sommers called in to pitch the fourth, fifth and sixth, when the Normal student was returned to the box.

The Game.

Sweeney led off and went out at first on a hit to Delahanty. Cantillon duplicated Danny's out, and Walker Whiteside Zeis strode up to lace out one of Dillon's stinky doos. He hit to his nob, the pitcher, and on a rank throw to Purvis by Dillon, the runner got to second. Katz followed with a 2-base hit over the right field fence, and the tragedian came home. Kreig made a hit and Joe dug up the earth around third base and came home like the fast mail. But Needham evidently thought Rock Island had scored enough, and called Joe out. Peoria made no showing until the fifth. In the third Sonier led off with a hit, Sweeney dittoed, and "Sonie" ran around to third. Cantillon laced the sphere out for a single, and Sonier came home. Zeis sacrificed, but Joe Katz singled and Cantillon and Sweeney quadrilled home. Venerable Papa Kreig came up and waited for four, 'deed he did, and while Katz went to third and home on passed balls. Dad slipped around to second. Hill got a base, and Dillon, the granary comedian, went out in the old familiar hay field, and Pete Sommers came in to pitch. Sage hit to Carroll and forced Kreig. Lynch and Sonier were presented with a base each, and Hill thereby forced home, but Danny ended the inning by going out from Delahanty to Purvis. To describe the rest is unnecessary, suffice it to say that had not George Nulton braced and hit the ball like a streak, in the fifth, seventh and ninth Peoria might have had only ciphers. The score is appended:

Sliding Home.

Dillon couldn't pitch quito. Paddy Lynch made one of those jumping catches of his yesterday, and it was a beauty.

To chase Peoria away from Rock Island once again without winning a game would be an excellent idea.

Gragg, Des Moines' swell-headed pitcher, has jumped his contract. Too bad he didn't jump in the river.

Danny Sweeney has been nicknamed "Madam Onri." He will do the serpentine dance on the globe this afternoon, sure.

Purvis is too much afraid of the Pompeii lake. Kreig got one right on the edge yesterday and hung to it, too.—Peoria Herald.

Red Armstrong, St. Joe's old catcher, is captaining Peoria. He is one of the loud-mouthed, hard-headed players who are a nuisance.

Schaffer should have been fined for saucing the grand stand. The people who attend the game pay to see the game. The players are paid to play ball.

George Nulton had a streak of corking yesterday, making two 2-base hits and a home run. Nobody in Rock Island ever begrudges George his good luck or good playing. He is one of the most gentlemanly players on the diamond.

Cantillon should keep out of Herr Zeis' garden. The latter is quite capable of disposing of all flies that hover in that direction, and little Joe made an error yesterday and almost another by his intrusion. We don't deprecate Joe's hard work, but he should not be ambitious in the wrong direction and at the wrong time.

Bo. Needham is not a professional umpire, although he has done some amateur contests, and he also officiated occasionally in the old I.-L. league. He is, nevertheless, a ball player,

and is merely serving now on invitation of President Rowe to fill out the season. His home is at Rockford, and he is putting in his vacation in this manner. His judgment in many instances seemed ridiculous yesterday, but he appears to be conscientious, and the greatest fault that could be found with him was his toleration of the mouthings of some of the players.

The Quincy Herald voices some wholesome sentiments when it says of President Rowe's interest in the Omaha club: "A thing that needs correction is that the owner of one of the clubs in the league should have all to do with the hiring and discharging of umpires. Dave Rowe, who owns the Omaha club franchise, is president of the league and runs things with a high hand. He selects the umpires himself, and when he sits in the grand stand and watches the Omahas play he figures that the umpire is his hired man, and if that worthy does not give him the best end of it there is apt to be trouble. The way that Ward and some of the other umpires have trucked to him is a scandal on the game. Bo Needham, an experienced young umpire and base ball player, who is also the sporting editor of the Rockford Star, was put in as an umpire in this league while taking a vacation from newspaper work. He happened to umpire the three games at Omaha last week in which the Quinners administered three defeats. The president thundered, but the umpire was untimid and decided what he thought was right every time, regardless of whose corns were damaged. Rowe shook his fist and declared that such a thing as being beaten three straight by the Quinners was impossible."

A Little Girl's Experience in a Lighthouse.

Mr. and Mrs. Loren Trescott are keepers of the Gov. Lighthouse at Sand Beach, Mich. and are blessed with a daughter, four years old. Last April she was taken down with measles, followed with a dreadful cough and turning into a fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones."—Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may try a bottle free at Hartz & Ulmeyer's.

A Time Saver.

It is the fashion now for ladies' maids to keep diaries two or three weeks ahead of their mistresses' probable engagements, putting the name of the dress against the day. The lady looks at the list at the beginning of each week, and if she does not approve of the gowns to be worn she alters it. It saves a great deal of flurry at the time of dressing.

Perhaps a Slip of the Pen.

A Good Appetite

always accompanies good health, and an absence of appetite is an indication of something wrong. The universal testimony given by those who have used Hood's Sarsaparilla, as to its merits in restoring the appetite, and as a purifier of the blood, constitutes the strongest recommendation that can be urged for any medicine.

Hood's Pills cure all liver ills, biliousness, jaundice, indigestion, sick headache—25c.

The Weather.

Invited to Witness Maneuvers.

Governor Altgeld has received a telegram from Maj. Gen. Nelson A. Miles, commanding the United States military forces at Chicago, inviting officers of the national guard to witness the field maneuvers near Evansston Monday, Aug. 27, Wednesday, Aug. 29, and Saturday, September 1. Governor Altgeld replied by wire, thanking General Miles for his courteous invitation, and accepting the invitation for so many of the officers as can conveniently attend. Adjutant General Orendorff thereupon sent out copies of the telegram to the generals commanding the three brigades of the state guard, requesting that as many of them as could conveniently do so attend the field maneuvers with the governor and his staff. It is probable that nearly every member of the general staff, with officers from the entire three brigades, will witness the maneuvers.

Know Thyself.

How important this injunction to every young man! How many ruin their health and future happiness through permissiveness, practices contracted in ignorance and repeated of when too late. Parents, guardians and humanitarians can do no better service to the rising generation, than to place in their hands the information and warnings contained in a little book carefully prepared by an association of medical gentlemen, who have had vast experience in dealing with the grave maladies here hinted at, and who feel that they owe it to humanity to warn the young of the land against certain destructive habits which are far more prevalent than any layman can possibly imagine, and which, if persisted in, gradually undermine the constitution and health, and destroy the future happiness of the victim. Cut out this notice and include it with 10 cents in stamps (to pay postage) to World's Dispensary Medical Association, 661 Main street, Buffalo, N. Y., and the book will be sent, secure from observation in a plain sealed envelope.

Use It in Time.

Catarrh starts in the nasal passages, affecting eyes, ears and throat and is in fact, the great enemy of the mucus membrane. Neglected colds in the head almost invariably precede catarrh, causing an excessive flow of mucus, and if the mucus discharge becomes interrupted results of catarrh will follow, such as bad breath, severe pain across forehead and about the eyes, a roaring and buzzing sound in the ears and oftentimes a very offensive discharge. Ely's Cream Balm is the acknowledged cure for these troubles.
