This is a busy world. People are busy hustling on their own account. They know little about you, and care less. They will not remember you long. You must remind them as fast as they forget.

A music box will be given away at the St. Julien sample room, Seventh avenue and Seventeenth street, tomorrow evening. A nice lunch will be served and Mr. Pfaff invites all his friends to be present.

Mr. and Mrs. H. S. Warner entertained a company of friends at their home at 724 Nineteenth street last evening. The hours were most pleasantly whiled away at the card table and refreshments followed.

Madge Schafer, daughter of ex-County Treasurer and Mrs. John Schafer, Jr., of Port Byron, is very ill and a number of physicians, including Dr. C. C. Carter, of this city, have been in consultation at her bedside.

Henry Carse, of the committee on organization and location of the new Peaslee Shoe company, states that people having desirable property or sites for the factory may present the same to the committee through him without delay and they will receive attention.

The W. J. Young will be among the swiftest little packets running on the upper waters next season. She is at present in winter quarters at Kahike Bros' boat yard, where she is having a Texas built and undergoing general repairs, after which the painter will add the finishing touch.

Lon Ned Harrington, of Jefferson, Iowa, and Miss Gertrude McDaniel, of Barry, Ill., were married today at noon at the residence of Justice Hawes, who performed the ceremony. The groom is an actor, and he and his young bride depart for the west this afternoon, he says, to fill an engagement.

Morrison & Dolly have changed their headquarters to Second avenue in one of the storerooms in the Harris block—just completed opposite Spencer square. The firm's wholesale cigar business has increased considerably and the necessity of more room forced the abandonment of the Twentieth street store.

Harry Jones, while at work upon an 8-inch roll at the Sylvan Steel

works Thursday afternoon, stepped in front of a red hot iron, which struck him just below the hip, burning a hole in his leg as large as a man's fist. He will get over it, and if it had been some other part of his body he might not—so he wasn't so unlucky after all.

Some well dressed stranger apparently either daffy or intoxicated went through a series of ridiculous performances about the foot of Eighteenth street yesterday afternoon. He would occasionally burst forth with a stump speaker's harrangue and prance back and forward much to the consternation of passersby. He finally got tired and disappeared in the vicinity of Second avenue.

There was quite a spirited argument between two teamsters employed by William Huber in hauling ice on the river embankment yesterday afternoon, which would have resulted in an interesting battle but for the unwillingness of one to exercise his dukes in such a cause. This fellow was given a punch in the jaw by the aggressor, but at that he would not fight, continuing to prevail upon his friend to desist and it was finally settled.

Probable Drowning.

Word came from Davenport yesterday afternoon for the Rock Island police department to be on the look-out for information concerning the supposed fate of John N. Malchau, whom it is thought is at the bottom of the cold Mississippi. Malchau is described as a young man of 30 years and has a wife and two small children who reside at 1096 West Fourth street, Davenport.

Malchau was employed at the Sylvan Steel works, which he left at 6 o'clock Wednesday evening and has not been seen or heard from since.

The theory is that Malchau rode in the street car from Moline down to the Rock Island Plow works and there started across the ice for home, which is in the lower end of Davenport. There are numerous air holes at the point where Malchau is supposed to have attempted to cross and it is thought he went down in one of them.

The missing man's family is now more inclined to the belief that instead of having fallen in the river he has wandered off while suffering with temporary aberration.

From Ocean to Ocean.

A large audience of delighted people was present last evening to hear the lecture and see the views of the Crary tour from "New York to San Francisco." This was an interesting subject, taken as it was, from a trip through our own country. Beginning with a view of and talk on Brooklyn bridge, the following cities and pleasure resorts were mentioned and splendid views of interesting places given: New York, West Point, Niagara Falls, Chicago, World's Fair, Nebraska, Colorado, Pike's Peak, Salt Lake City, and lastly the end city of the tour, San Francisco, was especially mentioned. This evening "Boston to Florida" will be given.

The Porte.

The porte is the short name of the sublime porte, which is the official way of speaking of the Turkish government. In the east judicial business is transacted at the city or palace gates. One story says that the sultan of Bagdad put in the portal of his palace a piece of sacred black stone of Mecca, thus making his gate the porte. Another says that Sultan Orkhan built a gorgeous gate to his place in Broussa. Both of these stories are probably untrue so far as they purport to explain the name as applied to the Turkish government. Just as the British court is called the court of St. James and the late French court that of the Tuileries, because their headquarters were in the palaces of St. James and the Tuileries respectively, so the Turkish court got the name sublime porte because its headquarters were in the palace of Bab-i-Humayun, or the Lefty Gate, in Constantinople. The name has been attached to the building in that city which shelters the four principal departments of the government—New York Sun.

Ladies' Auxiliary Entertains.

The Ladies' Auxiliary of the Order of Railway Conductors gave a reception last evening in the hall, corner Fifth avenue and Elm street, to O. R. C. men and their families in honor of the grand vice president, Mrs. O. N. Marshall and 10 lady members of the Galesburg division who came here to give the ladies the new work. The music was furnished by the Mandolin club and the evening was spent in card playing and dancing. Refreshments were served.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
