She Tells a "Moon" Reporter the Secret of Her Good Health and Happiness.

From the Moon, Battle Creek, Mich.

When a person has been cured from a maiady that has troubled him for years and the best physicians in the country were pewerless to grapple with it. When the patient had suffered for years all the agonies that pen can describe, and then was cured by a remedy, it is no wonder that the patient who has thus been cured would be loud in the praise of that remedy. This is the case of Henry Weston, whose story was told in the Moon several months ago. It will be remembered that Mr. Weston doctored with one of the best specialists in the country and found no relief, and then after a few boxes of Dr. Williams' Pink Pills had been taken he was well. Mr. Weston Weston L. W. Mersha, of the days doctoring with the physicians and after taking treatment for months and after taking treatment for months and secured no relief, she believed that it was time for them to try something that wouldeaure them. In all the cases that she had recommended this remedy for she had not heard of one that had not been greatly benefited by it. To the reporter she said, "You cannot put it too strong for me. I am overjoyed at the result of my experience with the remedy, and I have not only recommended it to friends in this city, but have written to a number in other places who have taken my advice and bought the pills had been taken he was well. Mr. Weston Pills had been taken he was well. Mr. Weston is so jubilant over his recovery that he never tires of telling his story to others. It was through him that Mrs. John Estell, of South

Pillshad been taken he was well. Mr. Weston is so jubilant over his recovery that he never tires of telling his story to others. It was through him that Mrs. John Extell, O'South Avenue, was induced to try them. She is well acquainted with Mr. Weston, and through his characteristic with the story of her cure was true. She said that she knew of the remarkable care of Mr. Weston, and she was suffering from of Mr. Weston and are with a local physician sand received no special been fit. Mr. Weston had urged her to try the pills, and after she had made up her mind that it was useless for her to doctor with the physicians any longer, she decided to try Dr. Weston had urged her to try Dr. Wes

J. W. Murphy, of the drug firm of Amberg & Murphy, was seen by a Moon representative in regard to the case of Mrs. Estell. "Yes," said he, "her case was a remarkable one, but only one of many, yes, perhaps hundreds in this city alone. We never have any fears about recommending these pills to our customers. We do not as a rule guarantee patent remedies, but there is no risk to run in guaranteeing this remedy. No one who has ever taken it can say anything but praise for it and what everyone says must be true."

done for her.

To the scribe she said that she thought it was her duty to her friends to tell them of they are for sale by all druggists, or may be what the Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves, was her duty to her friends to tell them of They are for sale by all druggists, or may be had by mail from Dr. Williams' Medicine done for her. orces and divorces that failed alone would have made the fortune, so far as such advertising can make the fortune, of any ordinary actress. Not that Mrs. Langtry is in any sense an extraordinary actress. She is not even an extraordinarily bad one, but she certainly had from the outset of her dramatic career an extraordinary appreciation of the value of sensational advertising for a more flower so recently transplanted from the Arcadian innocence of her Jersey

The tidings of another effort in the dlvorce line were about due in the regular cycle of Laugtry's widely proclaimed doings, and, like the old true penny that they are, they have arrived on time. It was only a year after Mrs. Langtry made she made the first divorce demonstration. The scene of that effort was in California, tor of the M. E. church, for rheumatism, where Mrs. Langtry bought an estate, Mrs. Garry Merribew, for rheumatism next to the one owned by Frederick C. Gebhard, and lived on it, as she supposed, long enough to gain a residence. But there was some hitch as to the legality of the residence, and the divorce was a flasco.

After that there were reports that she had got a divorce; that she had not; that her husband had got a divorce; that he had not. All these were duly chronicled free of charge in the newspapers, and Langtry Clark in the evening resulted in almost would have been well advertised had she instantaneous relief, and he was able to refrained from other exploits, which she dress himself and get down stairs next

latest addition to the ranks of the alleged miracle workers, the Schraders Schlatters and Bradleys, is a woman Mrs. James B. Clark of West Chazey, Clinton county, N. Y., who has recently given evidence of great healing powers, which she does by the laying on of hands. Since the discovery 80 persons, mostly among her friends and neighbors, have been treated and have found relief. The strangest part of Mrs. Clark's phenomenal success in healing is that cures are effected simply by the laying on of hands, and whether the patient is a believer or an unbeliever the curative effect appears to be her dramatic debut-in 1882, in fact-that the same. Among these who have been and L. D. Hny, for neuralgia.

The most remarkable cure perhaps thus far effected was that of Barney Wilson, whose address is Champlain. Mr. Wilson has been for some time afflicted with palsy, his nerves being in such a condition that he had lost control of his hands, no being able to dress or undress himself-for many months. Among the rich mines of Leadville is one called "Dead Man's Claim." It seems a certain popular miner had died, and his saying that Mrs. Langtry is at it friends, having decided to give him a good having begun the proceedings this send off, hired a man for \$20 to act as sexton. It was in the midst of winter. There was ten feet of snow on the ground, and the grave had to go six feet below that. The grave digger sallied forth into the snow, depositing the corpse for safe keeping in a drift, and for three days nothing was heard from him. A delegation sent to find the fellow discovered him digging away with all his might, but found also the intended grave converted into the en-trance of a shaft. Striking the earth, it seems, he had found pay rock worth \$60 a ton. The delegation at once staked out sumption or asthms.
