A CITY LABORATORY.

One Proposed by Health Commissioner G. G. Craig, Jr.

APPROPRIATION FROM THE COUNCIL

An Apparatus for Conducting Tests of Milk and Water, as It is Claimed Nearly All Cases of Typhoid Are Due to Unsanitary Condition of Latter—Department Rules to Be Enforced.

Health Commissioner G. G. Craig, Jr., is agitating an innovation for Rock Island in the nature of a municipal laboratory, an appropriation for the purchase of which, it is understood, is soon to be asked from the city council.

The proposed feature of the laboratory is an apparatus for testing milk and water, the former at indefinite intervals to insure a sanitary product for public consumption, and the latter whenever a case of typhoid fever is discovered, as the doctor is firmly of the belief that the majority of the cases of this disease are traceable to unhealthy well water. Dr. Craig states that a laboratory that would answer the needs of the city of Rock Island could be purchased for less than \$200.

Most Observe Rules. The rigid enforcement of other rules governing the department is also sought by Health Commissioner Craig, those pertaining to the reporting of typhoid cases and births in particular. This will be undertaken the first of the coming year, and it is intimated there are likely to be prosecutions unless these requirements are observed to the letter thereafter.

PLOW WORKS EXPLOSION.

Steam Condenser Blows Up, Doing \$500 Damage.

The Crawford condenser recently installed in the engine room at the Rock Island Plow company exploded yesterday, damaging the apparatus to the amount of about \$500 and necessitating its shipment back to New York for repairs.

The condenser is located in the southwest corner of the engine room, where all steam of the propelling engines is exhausted in proportionate amounts of cold water, which is received from a pump underneath the condenser. The vacuum in the condenser became overtaxed with steam and stopped the cold water pump. This was unavoidable, as an electric light engine stationed near the condenser admitted ignitable refuse, causing a dense steam, and Engineer Oliver Graham was unable to see the vacuum of the condenser. Pieces of cast iron flew about the room, breaking a number of windows. The condenser is about 8 feet long and the best make on the market. Although it was a bad accident, it will not interfere with operations at the factory.

A Week's Show.

The Imperial Stock company, loaded with melodies and a fine new repertoire, is given by a competent cast, is the week's offering at Harper theatre beginning Sunday evening. The opening play will be Edwin Arden's successful comedy drama in five acts entitled "The Eagle's Nest." Dealing as it does with western life in the Rocky Mountains, it gives ample scope for clever comedy and thrilling dramatic situations. Many high class specialties will be introduced during the action of the play. Matinees will be given Wednesday, Thursday and Saturday. Popular prices will prevail.

WINE OF CARDUI

WOMEN WHO WORK.

St. Louis, Mo., Aug. 12. Though only 19 years old, I suffered from pains and female troubles two years. Last spring I got so bad I had to quit work. I had to support myself, and could not afford a high-priced doctor. I got one bottle of Wine of Cardui and that made me feel better. Have now used several bottles and am well. My mother used the Wine for Change of Life and was greatly relieved. MISS MARGARET WALSH.

McELREE'S Wine of Cardui

Many girls and women find it necessary to earn their own living in various kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for tiresome tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing on the feet, and coming and going at the beck of a superintendent or foreman, induces falling of the womb, leucorrhoea, headache and backache. The pay of women workers is often so notoriously small that when sickness comes they have no money to engage skillful physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small cost, and they can act as their own physicians. No doctor can do as much for "female troubles" as Wine of Cardui.
