

BOOM BEGUN FOR HANNA

Result of Election Brings Him Out for President.

APPEARS UNWILLING

More Definite Returns From the Various States.

Cleveland, O., Nov. 5.—The feature of election echoes is the talk about Senator Hanna for the presidency. The papers here and elsewhere in Ohio seem to be with this gossip, and some prominent Republicans go so far as to offer wagers. They say that "this boom" would spread to other states but for Hanna himself, who is most emphatic in his denials and refusals of such use of his name. According to precedent Governor-Elect Herrick will be at the head of the Ohio delegation to the next national convention, and the two Ohio senators will also be delegates-at-large. As Herrick and Hanna both reside at Cleveland it is stated that "Cincinnati, as the banner Republican city," will likely have the other two delegates-at-large. The talk elsewhere about Herrick for vice president is regarded here as an attempt to stop the talk about Hanna for president.

What Hanna Says About It. Senator Hanna, referring to the renewed suggestions made in various quarters to the effect that he is the logical Republican candidate for the presidency next year, as a result of the unprecedented victory won in Ohio at Tuesday's election, made this statement last night: "The results of the election in Ohio yesterday in no wise changes my opinion in reference to my proposed candidacy for the presidency, of which position the public has been fully advised." Hanna has received more than 100 congratulatory telegrams, one being from President Roosevelt.

More Figures on the Result. Columbus, O., Nov. 5.—The Republican plurality in Ohio is about 115,000 for governor and the majority in the legislature on joint ballot for senator is ninety-three. Herrick (Rep.) carried sixty-two counties, and Johnson (Dem.) twenty-six for governor, most of the latter by small and the former by large pluralities. On a total vote of less than 900,000, Herrick's pluralities in the counties aggregate 335,132 and Johnson's 29,476, so that Herrick has a net plurality in the state of 114,706 on estimates that may be increased from 1,000 to 2,000 by the official count.

Situation in the Legislature. The house stands 89 Republicans and 21 Democrats—majority 68. The senate stands 29 Republicans, 4 Democrats—majority 25.

Explained by Tom Johnson. Cleveland, O., Nov. 5.—Hon. Tom L. Johnson, the defeated Democratic candidate for governor of Ohio, has given out a statement relative to the election in this state, in which he says: "The result in Ohio is due to several causes, of which the chief was the successful attempt of Senator Hanna to impress upon the people of this state that a continuance of undisturbed business conditions demanded his return to the senate."

NEBRASKA AND COLORADO Both States Go Republican—One Miners' Union Man Elected.

Denver, Colo., Nov. 5.—The latest returns from the election in Colorado show that the plurality for Campbell (Rep.) over Wilson (Dem.) for justice of the supreme court will not be far from 7,000. Wilson carried but eleven of the fifty-nine counties in the state, his only large plurality being in Denver, which he carried by 5,300. Less than 50 per cent. of the normal vote of the state was cast. An incident of the election was the victory of P. J.

Administration Postpones the Postal Investigations for a Year

Washington, Nov. 5.—President Roosevelt, while not opposing a congressional investigation of the postal scandals, does not believe it should be hastened to the detriment of the prosecution in the cases of the indicted officials. After consultation with the attorney general, the president has advised Representative Cannon and other republican leaders in congress to restrain a congressional investigation until the pending cases are disposed of. This position is taken because the attorney general fears a

MILL LABORERS RIOT AT CHICAGO

Demand Work and Whiskey and Then Proceed to Wreck a Saloon.

Chicago, Nov. 5.—Over a hundred Poles and Italians became riotous in their demands for work at the plant of the Illinois Steel company in South Chicago, hurling clubs and stones through windows and trying to batter down the gates to gain entrance to the works. Several were injured in the melee before they were finally dispersed by the police. The rioters were former employees of the steel mills who had been discharged. After their dispersal the rioters retired to the saloon of Thomas Walsh. Here they spent an hour drinking and talking of their supposed wrongs until all of their money had been spent. "Give us some more whiskey. We will pay after we get work," said one of the Poles. "Can't get whiskey without money," replied Walsh. "Then we will take it," was the reply, and they proceeded to wreck the saloon.

Devault, miners' union candidate for assessor in Teller county (the Cripple Creek district) over both party candidates, by a plurality of 300. Omaha, Nov. 5.—Returns received up to this writing show that Barnes (Rep.) for supreme judge will have a majority of at least 8,000 over Judge Sullivan, and it may go to 11,000. The Republican candidates for state university regents, Allen and Whitmore, are also elected by a good majority. In Omaha the Republicans elect all six of their candidates for district judges, county judge, county assessor, surveyor and minor offices, and the Democrats elect clerk of the district court, county sheriff and county treasurer.

Gov. Cummins' Big Plurality. Des Moines, Ia., Nov. 5.—Complete returns place Governor Cummins' plurality over J. B. Sullivan Democratic

candidate for governor, at 80,802. Governor Cummins ran somewhat ahead of the remainder of the Republican state ticket. The Democrats will have 23 of the 100 members of the next house, a gain of 6, and 8 of the 50 members of the senate, a loss of 2. Governor Cummins received a number of telegrams of personal congratulations.

Beckham Likely to Break a Record. Louisville, Nov. 5.—Returns which are complete save for a few scattered precincts in remote parts of the state give Governor Beckham (Dem.) for governor a majority of 30,406 over Morris B. Belknap, his Republican opponent. The missing precincts may cut this down to 25,000, the largest Democratic plurality in fifteen years. The Prohibition and Socialist vote was very light.

Gorman's State Is Democratic. Baltimore, Nov. 5.—The returns of Tuesday's election received from Baltimore city and the state of Maryland have not all been received, but in Baltimore city the entire Democratic state ticket was elected by about 5,000 plurality. The plurality for the Democratic ticket in the state will reach 8,000, probably. The legislature is overwhelmingly Democratic.

PLURALITIES AT NEW YORK

Tremendous Popularity of the Canal Idea—Hugh McLaughlin's Comment.

New York, Nov. 5.—The pluralities on mayor, comptroller and president of the board of aldermen in the sever-

congressional investigation may disclose evidence and information that will be valuable to the defense. For this reason he has been directing the prosecution to oppose all motions that would develop the government's side of the cases against the indicted offenders. It is probable from the position the president takes that there will be no congressional investigation of the post-office department at the next regular session of congress. The investigation will be taken up at the session beginning December, 1904.

COBDEN'S MISTAKE

Pointed Out by Chamberlain in a Fair Trade Speech at Birmingham.

SAID WE WOULD DIG FOR THEM

Whereas We Became Their Rival in Manufactures—Ex-Secretary Loudly Acclaimed.

London, Nov. 5.—Joseph Chamberlain made a speech to 9,000 of his fellow townsmen at Hingley hall, Birmingham. It was by far the largest audience the ex-colonial secretary has faced during the fiscal campaign and the enthusiasm, naturally, exceeded the remarkable scenes witnessed in the other cities, and was emphasized by the Chamberlainite victory at the municipal election in Birmingham Tuesday. Chamberlain, who was accompanied on the platform by many prominent persons, rose to speak at 8:10 p. m. He was given a great reception, the cheering and singing of "For He's a Jolly Good Fellow," lasting many minutes.

Where Cobden Missed It. After dealing with conditions during the past fifty years under free trade, and quoting figures to sustain his argument, Chamberlain commented on Cobden's position, and quoted Cobden as saying that the United States would eventually abandon manufacturing and that "their workmen would go back to the land and dig and delve for us." Americans, however, said Chamberlain, had not so conceived their national destiny and did not believe that they were created by providence to dig and delve and plow for the benefit of Great Britain.

Doesn't Blame Uncle Sam. They knew that they had resources of their own, and behind the tariff wall they had built up their industries until they had reached a stage where, unsatisfied with the extent of their own markets, they were invading those of the United Kingdom. Chamberlain said he did not blame the United States, but he appealed to Englishmen to say whether they would adhere to the old system or adopt another which would prevent the American invasion.

Imperial Unity Undervalued. Reverting to the question of a preferential tariff for the colonies Chamberlain charged those opposed to his plans with being "little Englanders," lacking in the desire to bring the colonies closer to the mother country and preferring to do more for strangers than for their own flesh and blood. He said that the leaders of the opposition failed to appreciate the value of imperial unity, and only valued the unity of the Liberal party. He instanced the jewelry, brass, bicycle and button trades of Birmingham as suffering from the dumping process.

Appeals to British Patriotism. Chamberlain spoke for nearly two hours, in the main repeating his former arguments and appealing to the patriotism and self-interest of the people of the United Kingdom to sustain his fiscal project.

al boroughs were: Manhattan and the Bronx—McClellan, 56,829; Grant, 57,843; Forbes, 57,188. Brooklyn—McClellan, 1,808; Grant, 3,272; Forbes, 2,361. Queens—McClellan, 5,138; Grant, 5,619; Forbes, 5,402. Richmond Low (Fusion), 218; Grant, 56; Forbes, 22.

Nearly complete returns from this city on the canal amendment in twenty-five districts missing give a majority in favor of it of 32,907; 489,493 of the 629,186 registered and 564,437 actual voters expressed their opinion on the proposition. Hugh McLaughlin, the aged Brooklyn Democratic leader who openly revolted from the Democratic city ticket, but could not carry his organization with him, said: "The people are the jury; they have decided and must abide by the result." He said he was far from feeling any regret over his attitude in the campaign, and he would repeat it if the case had to be gone over again.

LOW MARK IN STEEL AGAIN ESTABLISHED

Simultaneously Comes Announcement of Cut in Price of Billets.

New York, Nov. 5.—New low records were established by the United States Steel securities on the stock exchange today. Common stock sold down to 117-8, preferred to 563-4, and 5 per cent bonds to 671-8. The remainder of the list, especially standard railway shares, were not affected by the decline in steel stocks. There is little doubt the weakness in steel issues is a result more directly from trade conditions.

New York, Nov. 5.—It is officially announced by the United States Steel corporation this afternoon that the price of steel billets had been reduced \$4 a ton, but that the price of steel rails would not be changed.

COMPANY CHARGED WITH BEING TRUST

Suit Filed at Omaha Against the American Bridge Concern.

Council Bluffs, Ia., Nov. 5.—In answer filed in the federal court by Portland Mining company to a suit brought recently by the American Bridge company for \$77,000 damages for breach of contract the mining company charges that the bridge company is a trust in itself, and a part of the United States Steel Corporation, and pleads this as a defense. The suit was brought on behalf of the Gillett-Herzog Manufacturing company.

The Portland company alleges that the bridge company did not complete its contract in the stipulated time, which it says was an important consideration, and that the building was left for the Portland company to complete. The Portland company sets up a counter claim for \$145,036 for damages. That part of the answer making the charges against the American Bridge company and the Gillett-Herzog company are part of a combination known as the United States Steel Corporation.

MAKE IT USELESS

What Railroads Promise to do to Erie Canal if it is Rebuilt.

PROJECT CARRIED AT ELECTION

Cost Will be \$101,000,000 and 30 Years are Needed to Complete It.

New York, Nov. 5.—"If the Erie canal is ever rebuilt according to the plan for which the people of the state of New York voted Tuesday, the railroads will put it out of business in less than a year, making it as useless to the producer as is the present waterway."

This statement was made yesterday by an executive traffic official of one of the large railway systems, and was backed by the general sentiment expressed in railroad circles. Another statement of sensational character was to the effect that the Erie canal improvement never would be accomplished, as the railroads would find some way of defeating the undertaking. The boast that the railroads would be able to more than successfully compete with the rebuilt canal, capable of floating only 1,000-ton barges, is not considered by traffic and transportation experts as an idle one.

Generation to Build It. The problem, in any event, will not have to be met by the railroads for at least a generation, as it will take that length of time to complete the improvements contemplated by an expenditure of \$101,000,000. By that time traffic conditions and the centers of production will have changed so materially, it is thought, that the problems presented will be entirely different from what they would be today if the canal improvements were completed.

Mighty Careful of the Czar. Wiesbaden, Prussia, Nov. 5.—About 12,000 troops occupied the principal thoroughfares of Wiesbaden while awaiting the arrival of the czar, and some hundreds of police mingled with the rather small crowds behind the military lines. He is eager to serve his prison term, and is not seeking bail.

"I am done," said Parks. "Nothing can save me from Sing Sing. If I did get a new trial I would be convicted as regularly as I came up before a jury. I am not ashamed of my labor career. I thought I was right and followed my best judgment. I have but one regret, and that is for my wife. She is prostrated over my troubles."
