Judge Graves Signs Decrees in Two Cases in Circuit Court.

HUSBANDS GIVEN CHILDREN

Mary E. Delene From E. C. Delene and Charles V. Kruger From Hattie Kruger.

Decrees were entered by Judge Graves in the circuit court at noon today in two suits for divorce. Mary Elizabeth Delene, of Moline, from Edward C. Delene, and Charles V. Kruger, of Rock Island, from Hattie Kruger.

The Delenes have one child, a boy of 2 years, the custody of whom was given the father. The plaintiff charged cruelty in her bill. The question of alimony will be settled later.

Desertion was alleged by Kruger against his wife. They have been living apart for several years. There is a little daughter, who has been living with the mother. The court awarded the custody of the child to the father.

New Trial Denied.
A motion of the defendant for a new trial of the personal injury suit of Mrs. Bertha Wiedenhoft, of Moline, against the Tri-City Railway company, was overruled in the circuit court yesterday afternoon by Judge Graves. The company represented that new evidence that would aid its case had been discovered, and further that the verdict was excessive. The jury awarded Mrs. Wiedenhoft damages of \$2,013.

OFFICIAL SUMMER HERE:

WEATHER WRONG BRAND
Summer, official summer, arrived today, J. M. Sheridan, in charge of the Davenport weather station, is authority for the announcement. This might be taken as a joke in view of the big fall in temperature during last night after the rain that made a winter vest not uncomfortable this morning. But it is not. Summer officially is here. That is as far as Observer Sheridan wishes to discuss the matter. If the right brand of weather did not come in the package it is no fault of his.

SHOULD NUMBER AUTOMOBILES HERE

Then in Case of Offenses It Would Not be so Difficult to Locate Owner.

Much complaint is heard of scorching by automobile owners on the streets of the city, resulting in narrow escapes for vehicles and pedestrians, and causing runaway accidents.

There are some automobilists who grow reckless to the point where they are a public menace when they turn into the streets with their machines. They speed around corners, never caring whether they are on the right side of the street or not, and seem to think it a huge joke when they brush against a buggy or cause a horse to try to climb a telegraph pole.

There is a speed limit for automobiles, and there should be a means of forcing owners to operate with reasonable diligence while running through the streets of the city. There should be an ordinance passed by the city council requiring the numbering of every machine whose owner is a resident of the city.

Thus it would not be such a difficult matter to find the offender. Now when he takes a wheel off he scoots away without leaving his name. With a number on his machine he could be traced. Then more care would be exercised in the running of the choo-choo wagons.

repressed and interrupted, the Philippine people will follow in the footsteps of the people of Cuba; that were slowly indeed, because they are not as advanced, yet as surely, they will grow in capacity for self-government, and receiving power as they grow in capacity, will come to bear substantially such relations to the people of the United States as do now the people of Cuba."

OUR STANDING AMONG NATIONS

Something to Be Proud of—Tributes to McKinley, Hanna and Roosevelt.

After summarizing the foreign policy of recent years—includes our action in Panama, which was unreservedly approved; our action as to China protecting China from dismemberment; also at the opening of the Russo-Japanese war limiting the field of action; the settlement of the Alaskan boundary dispute; establishment of The Hague tribunal; the recent arbitration of questions between Venezuela and several European governments—he said:

"All Americans who desire safe and conservative administration which shall avoid cause of quarrel, all who abhor war, all who long for the perfect sway of the principles of the republic which we all profess, should rejoice that under this Republican administration their country has attained a potent leadership among the nations in the cause of peace and international justice."

This, however, required backing up by an adequate army and navy, and he told what has been done in that line. After summarizing the work done by the first McKinley administration and that done by the present government, he said:

"We challenge judgment upon this record of effective performance in legislation, in execution and in administration. The work is not fully done; policies are not completely wrought out; domestic questions still press continually for solution; other trusts must be regulated; the tariff may presently receive revision, and if so, should receive it at the hands of the friends and not the enemies of the protective system."

He closed with an eloquent tribute to the late President McKinley, declaring that his successor followed his policy; to Senator Hanna and to President Roosevelt, whom he said: "Incumbent of deception, he has put aside concealment."

It is no campaign of sounding words and specious promises, for our President has told the people with frankness what he believed and what he intended. * * * No people can maintain free government who do not in their hearts value the qualities which have made the present president of the United States conspicuous among the men of his time as a type of noble manhood. Come what may here—come what may in November, God grant that those qualities of brave true manhood shall have honor throughout America, shall be held for an example in every home, and that the youth of generations to come may grow up to feel that it is better than wealth, or office, or power, to have the honesty, the purity, and the courage of Theodore Roosevelt."

Before adjourning the convention unanimously approved the recommendations of the national committee allowing Porto Rico two delegates and the Philippines six with two votes.

Will Visit the Fair.

An invitation from the Louisiana Purchase exposition officials for the delegates and members of the press to visit the world's fair at the conclusion of the convention was accepted. Roll calls for names of persons selected to serve on the several committees were completed and the committees announced.

By the Gets Recognition

Senator Lodge, chairman of the resolutions committee decided to appoint Senator Spooner and J. W. Blythe, of Iowa, the latter an oppon-

ent of tariff revision, as members of the subcommittee to draft a platform.

Seating Arrangement.
The seats of the delegates are arranged in a semi-circle about the speaker's platform, and number 992. They are painted green and are separated by a low fence from the seats of the alternates, in the rear. Around the seats of the delegates and alternates are thousands of others for spectators, and there are seats in the balcony and galleries. The decorations are not profuse, and consist principally of flags and shields of hunting. A large picture of the late Senator Hanna hangs above the speakers' platform.

CULLUM SLATE ADOPTED.

William Lorimer Puts Thumb Screws to Hinchman and Yates is Defeated.

Chicago, June 21.—Victory in the fight for the chairmanship of the Illinois delegation was won by Senator Cullum yesterday after a contest in which the thumb screws were applied to wavering delegates by William Lorimer as holder of the "balance of power" and by the narrow margin of two votes defeat was administered to Governor Yates.

With the contest over the chairmanship settled, the rest of the business was transacted speedily. Harmony prevailed throughout, and when once it was demonstrated who had the majority, small as it was, the torying ceased.

The slate prepared at the Cullum caucus went through without obstacles, and the delegates, after dodging a motion instructing them for Congressman Hitt, prepared to wage a campaign for the Illinoisian by laboring with the delegations from the several states. The following were chosen:

Chairman of delegation—Shelby M. Cullum.

Honorary vice president—Charles H. Deere.

National committeeman—Frank O. Lowden.

Permanent organization—William A. Coleman.

Rules and order of business—E. C. Perkins.

Resolutions—Sen. A. J. Hopkins. Credentials—Graeme Stewart.

To notify the president—Isaac L. Ellwood.

To notify the vice president—Vespasian Warner.

Tariff Plank Approved.

The tariff plank, which bears the stamp of President Roosevelt's approval, and which will probably be adopted by the convention without material change, reads as follows:

"Protection, which guards and develops our industries, is the cardinal policy of the republican part. We insist upon the maintenance of this principle. But we recognize that particular tariff schedules are neither sacred nor immutable. Present duties must be altered (readjusted) when changed conditions and the public interest demand their alteration. But this work cannot be safely committed to any other hands than those of the party of protection."

"BADGER QUEEN" MURDERED

BY HER WHITE PARAMOUR

New York, June 21.—Ida Howard, alias "Goldie" Mora, a negress who was known as the "colored badger queen of the tenderloin," was shot and killed by her paramour, Charles J. Arthur, 25 years old, a white man. The shooting was the culmination of a quarrel in which the couple had been engaged for more than a week, and occurred after Arthur had been apparently deserted by the woman.

Arthur was arrested after he was about to fire a fifth shot into the woman's body as he lay in the street where she had fallen, and on the way to the police station he was menaced by negroes, who sought vengeance for the death of a member of their race. The Howard woman was 28 years old, and was exceptionally pretty.

Boy of 13 Commits Suicide.

Bloomington, Ill., June 21.—The body of Ira Eller, a 13-year-old boy, was found hanging from a tree. The lad had been plowing, but abandoned the plow, used a horse rein for a noose, and hanged himself. No cause is known for the deed except the fact that some time ago a boy friend was shot and killed on the same farm, and the death greatly affected Ira.

Weaver Had a Close Call.

Flint, Mich., June 21.—Marcus Weaver, a section hand on the Grand Trunk railway, whose home is at Duffield, was thrown from the rear platform of a caboose in the yards here, when a loaded car struck the caboose. He fell in front of the moving car, but rolled just over the rail. So close was he to the moving wheels that the brim of his hat touched the wheels as the car went by. Weaver received some very severe bruises and will be laid up several weeks.

Liberal Replaces a Conservative.

Sued by His Doctor.

"A doctor here has sued me for \$12.50, which I claim was excessive for a case of cholera morbus," says R. White, of Coahuila, Cal. "At the trial he praised his medical skill and medicine. I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he used as I had good reason to believe it was, and he would not say under oath it was not." No doctor could use a better remedy than this in a case of cholera morbus, it never fails. Sold by all druggists.
