

Tumors Conquered Without Operations

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in Cases of Mrs. Fox and Miss Adams.

Fannie Fox

Miss Luella Adams

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, tumor.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain extending from the abdomen through the groin and thighs.

If you have mysterious pains, if there are indications of inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound at once and begin its use and write Mrs. Pinkham at Lynn, Mass., for advice.

Read these strong letters from grateful women who have been cured:

Dear Mrs. Pinkham:—(First Letter.) "In looking over your book I see that your medicine cures tumors. I have been to a doctor and he tells me I have a tumor. I will be more than grateful if you can help me, as I do so dread an operation."—Fannie D. Fox, Bradford, Pa.

Dear Mrs. Pinkham:—(Second Letter.) "I take the liberty to congratulate you on the success I have had with your wonderful medicine."

"Eighteen months ago my periods stopped. Shortly after I felt so badly I submitted to a thorough examination by a physician, and was told that I had a tumor and would have to undergo an operation."

"I soon after read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed, the tumor is entirely gone. I have again been examined by the physician and he says I have no sign of a tumor now. It has also brought my periods around once more; and I am entirely well. I shall never be without a bottle of Lydia E. Pinkham's Vegetable Compound in the house."—Miss Luella Adams, Colonaide Hotel, Seattle, Wash.

Such unquestionable testimony proves the value of Lydia E. Pinkham's Vegetable Compound, and should give confidence and hope to every sick woman.

Mrs. Pinkham invites all ailing women to write to her at Lynn, Mass., for advice.

DAVENPORT DOTS.

Fell Dead in Street.—Juergen Slevens, aged 55 years and a resident of Walcott for 25 years, fell dead on the street there Saturday afternoon at 5 o'clock. Heart trouble was supposed to have been the cause of his sudden demise. Mr. Slevens was a bartender there for many years and was very well known. He was born in Germany and served in the war of 1870 and 1871.

Sues for Slander.—Claus Muentner, whose name has figured prominently in court circles of late because of a divorce suit against him, an original notice served upon him of a suit for alienation of affection, and two trials in police court, is again made defendant in two damage suits filed in the district court by Attorneys Gannon & McGuirk and B. T. O'Neill. These suits are brought by Anna Miller and Veronica Wenzel, who claim \$2,500 each because of alleged slanderous terms applied to them by Mr. Muentner. They charge that, on July 25, 1904, Mr. Muentner applied epithets to them that were most humiliating.

She sold Pianos.—A woman giving her name as Mrs. Johnson was arrested Saturday afternoon by Officers Quinn and Lamb and charged with violating the city peddling ordinance. The police magistrate was called to the city hall, and upon trial the woman was fined \$50 and costs. Mrs. Johnson was selling no small trinkets upon the streets of the city, but was out after large game. She was selling pianos, but the magistrate decided that the street merchant with his basket was not the only person whom the peddling license ordinance applied to. Mrs. Johnson came to this city some time ago and rented a room. She then inserted an ad in the newspapers that read as follows: "For Sale, \$175, or best offer will buy my new upright piano. Must sell, Big bargain for cash. Call at 529 — street." She disposed of one piano thus offered for sale and had another stored in the Ewert & Richter company's warehouse prepared for sale. It is reported that Mrs. Johnson has already departed for other fields in which to conduct her piano business.

Creditors Lose All.—The papers in the bankruptcy matter of Frederick Philemann have been returned to Referee Helmick from Des Moines, and the first meeting of creditors set for April 3. The schedule filed by Mr. Philemann shows liabilities of \$19,343.94 and no available assets. The creditors will therefore lose everything that Mr. Philemann is indebted to them. William Armil and James Quinn, who were upon Mr. Philemann's bond on his contract for the erection of the present First Presbyterian church edifice in this city, are the heaviest losers.

Beuthien Freed.—Martin Beuthien, the New Liberty bank president, was acquitted by the jury which tried him upon the charge of receiving deposits in a bank which he knew to be insolvent. This is the second time that Martin Beuthien has been tried on a criminal charge and escaped. The first time he was tried for borrowing money from the bank of which he was an officer without taking the necessary steps required by law.

HORTICULTURAL SOCIETY ON ARBOR OBSERVANCE

Letter Sent Out Calling Attention to Approach of Tree Planting Time.

The Illinois State Horticultural society is sending out the following letter calling attention to Arbor day:

"For the promotion of arboriculture, the conservation of moisture, the prevention of widespread droughts and general barrenness, the adornment of homes, the adding of beauty to our parks and places of public interest and for the comfort of the people generally, a day to be known as Arbor day was set apart by an act of the general assembly some years ago.

"To bring the matter more fully to the attention of the people, the Illinois State Horticultural society urges its members and all others interested, to cooperate with all local societies, with the public schools and with individual efforts for the proper observance of the day.

"To create a more general interest and that the young people in particular, throughout our state may realize something of the importance of this work, we should endeavor to inculcate, as far as possible, the love of nature and nature studies in our schools, a proper regard for all useful plant life and some knowledge of the time and cost expended to produce it, the protection and care of natural growths of timber and the encouragement of all rural life.

"To this end we request the public press of our state and particularly the agricultural and horticultural journals, to make prominent the notice of Arbor day as proclaimed by the governor and to urge, so far as may be practicable, the observance of the same.

"We also recommend the planting of some tree, plant or seeds by every school district, with appropriate exercises by the pupils, as a proper observance of the day and would request individual planters generally, so far as it may be conveniently done, to give preference to Arbor day for their annual planting, to the end that the great state of Illinois shall with one accord join in making this one of the notable days of the year in a work of economy, wealth and beauty."

Pulverized Diamond.
According to the Mohammedans of southern India, pulverized diamond is the least painful, the most active and the most certain of all poisons. According to "Wilke's History," the powder of diamonds is kept on hand by the wealthy only presumably as a last resource. But a belief in the poison character of the diamond also exists in Italy in the sixteenth century.

Yellow Fever.
There is a marked peculiarity about yellow fever which distinguishes it from most epidemics. It is essentially a disease of a hot climate, and it takes a certain amount and duration of heat to awaken it to life. It is said that it can never prevail where Indian corn will not ripen.

MOLINE MENTION.

Many Counterfeit Dollars.—Counterfeit silver dollars are numerous in Moline, and it would be interesting to know whence the source of the supply. G. M. Loosley, of the Fisk-Loosley company, reports that inside of the week four of the bogus dollars have been offered, one at a time and by different people each time, at this store. Neither are the dollars duplicates of each other. They are either of different manufacture, or the manufacturer has more than one mold.

Kept Marriage Secret.—Mrs. Charles Lane, better known to her Moline friends and acquaintances as Miss Jessie Findley, is in the city for a short stay with her parents, Mr. and Mrs. E. R. Findley, 2020 Fifth avenue. The announcement of her marriage will come as a surprise to many in this city, although the secret has been known in the family since last summer. She was united in marriage to Mr. Lane last August at Shepheard Bay, N. Y., and since that time the secret has been kept from her Moline friends. Mr. Lane is a New Yorker and they expect to make their future home in New York City.

Alderman Johnson Married.—Alderman N. O. W. Johnson happily surprised his friends Saturday when wearing a smile he passed the cigars with the accompanying remark: "I am married, smoke on me." It was rumored about the city Thursday that he was going to be married, but like a true alderman when questioned he entered an emphatic denial. But, nevertheless, the story was true and he was united in marriage that morning to Miss Ella Mae Gamble, daughter of Mr. and Mrs. J. O. Gamble, 1714 Third avenue. The ceremony was performed by Rev. L. A. Johnston at the Swedish Lutheran parsonage at 9:30, and they were unattended. Both young people are well known in this city and have many friends who wish them happiness. The bride has been employed in the office at the Moline Plow company, and the groom is linotype operator at the Journal office.

Hand Badly Injured.—Leander Berggren, of 1613 Second avenue, an employee of the Moline Organ & Piano factory, was injured Saturday about 9:30 a. m., when in the course of sawing wood with a rip saw the saw flew back, almost severing the middle, ring and small fingers of the right hand.

night, was born in Sweden Aug. 14, 1856, and came to America when but a small boy. He received a grammar school education and worked for his uncle in the Hesselroth drug firm of Chicago. He completed his course in pharmacy at the Northwestern university, and after he was registered worked for his uncle 16 years. He came to Moline six years ago and launched in business for himself at 410 Fifteenth street. Three years ago he was united to his now bereaved wife in Chicago, who is left with an infant son to mourn. He also leaves his father and mother in Paxton, Ill., and one sister, Mrs. Neise Bergman. The funeral was held this afternoon at 2 o'clock from the home.

NOT HEREDITARY.
Baldness Due to a Living Minute Germ.
Many people, even unto the present day of grace, consider baldness due to hereditary influence. Nothing is further from the truth—Baldness is caused by the onslaught of a minute organism which secretes itself beneath the scalp and attacks the roots of the hair—causing it to lose its life and fall out.

This organism cannot be got rid of except by the free and persevering use of Newbore's Herpicide.

No matter how badly the scalp is effected the dandruff surely disappears and hair health is restored when Herpicide is applied.
