E. C. DeWitt & Co. of Chicago, at whose laboratory Kodol is prepared, assure us that this remarkable digestant and corrective for the stomach conforms fully to all the provisions of the national pure food and drug law. The Kodol laboratory is a very large one, but if all the sufferers from indigestion and stomach troubles could know the virtues of Kodol it would be impossible for the manufacturers to keep up with the demand. Kodol is sold here by all druggists.

A Word of Warning.

People who are not acquainted relative to the different lines of merchandise they wish to purchase and give as presents, need feel with perfect satisfaction that they are getting nothing but the genuine in each and every article bought at this store. A great deal has been said through the newspapers of different cities about genuine Haviland china, and it has caused a great deal of discussion. We are agents in Rock Island for the Theodore Haviland & Co.'s china. Mr. Haviland was at one time at the head of the Haviland & Co.'s concern, but withdrew, forming a company that is manufacturing what is known as Haviland china in a revised form, making it far superior to any china manufactured, and this is the china sold by us.

Opening of Toyland

"THE STORE THAT SAVES YOU MONEY"

Young & McCombs
ROCK ISLAND

THE second floor, east side, is a land of toys. Thousands of miles this Toy Army now invading Young & McCombs has traveled—over mountains from the hearts of Germany and over land again—before it bivouacs here. What a joy to get first peep of the new things as they pop out of their boxes! If you bring your mothers or fathers, or grown up sisters and brothers, children, you can try yourself how many things work—a special privilege that we know will not be abused. WE'VE OPENED DOLLDOM!—A great troop of new Dolls have come to find little mothers and tomorrow they promise to hold a special reception. Bring the children.

A large part of the third floor has been given over to Toyland—where Sleighs, Doll Buggies, Velocipedes, Wagons, Wheelbarrows, Rocking Chairs, and Galloping Horses and many other interesting articles for children are well displayed. The change from second to third floor isn't much of a step and the elevator makes it a mere trifle, and the ease of movement and better light ample, compensate one.
