

## BODY IN SLOUGH

Remains of an Unknown Man  
Taken From Water at Twen-  
ty-fourth Street.

## FOUND BY BRIDGE WORKER

Nothing About Clothing to Throw  
Light on Identity—Appears to  
Have Been Foreigner.

The body of an unknown man, apparently about 30 years of age, was found about 8 o'clock this morning by Herman Schale, an employee on the new Rock Island bridge, being erected across the slough at Twenty-fourth street.

The body when found by Schale was floating down the slough from the east and near the middle of the stream. Mr. Schale was rowing in a row boat on the east side of the bridge and noticed the object floating in the water about 50 yards from the bridge. He immediately went to investigate and found it to be the body of a drowned man. He took a rope that he had in the boat and tied it around the body and pulled it ashore, and then notified the police department.

Coroner is Called.  
Coroner Eckhart arrived on the scene a few minutes after the finding, and had the remains taken from the river to Knox's undertaking parlors for an inquest. The remains had been in the water so long that they were in a badly decomposed condition. As said before, the drowned man was about 30 years of age, five feet six inches in height, and weighed about 140 pounds. He had a light mustache and light hair. He wore a coat and vest of black twill, a soft black shirt, black striped trousers, heavy woolen underwear, black socks, and a new pair of No. 7½ shoes.

His features resemble very much those of a foreigner. Money to the

amount of \$1.25 was found in the pocket of the trousers, a looking glass and a yellow comb, and a bunch of four keys. There were no marks on any of the garments worn by the man that would help to identify him.

An inquest was held over the remains at 10 o'clock this morning at Knox's undertaking parlors.

The coroner's jury consisted of the following members, Forrest K. Rambo, foreman, Ralph McManus, Simon Goldberg, Harry Linderholm, Jack McHugh, and Robert Kurtz, returned a verdict of death by drowning, cause unknown.

## ANOTHER SUTTLE VS. DOOLEY SUIT

Præcipe in Assumpsit Case for \$15,000  
Filed by Peoria Man in the  
Circuit Court.

Another suit against H. A. Dooley of this city was commenced today by H. A. Suttle of Peoria, præcipe in a \$15,000 assumpsit of debt case being filed in the circuit court. W. H. Kirk of Peoria represents the plaintiff. It will be remembered that Dooley made criminal complaints against Suttle, which resulted in Suttle's indictment here for embezzlement. In turn Suttle filed a suit for damages against Dooley, and another for \$5,000 for services, and commenced suit against a mining company in which Mr. Dooley is interested. None of these cases have been disposed of in court.

Speaks at High School.

Dr. E. D. Starbuck, dean of the Iowa university, who is here attending the meeting of the Illinois Federation of Colleges at Augustana visited the high school yesterday afternoon, and while there gave a very interesting talk to the pupils on the subject, "The Power of the Will". In his lecture, he cited several good examples of men of strong will power, among them President Roosevelt.

## FELL FROM TOWER

George Senn Loses Balance  
When Attacked by an Epileptic Seizure.

## DEATH RESULTS INSTANTLY

Was Repairing Watertank at Home  
Near Baseball Park—Skull Crushed  
in Fall of 50 Feet.

While at work on a platform of a watertank tower this morning shortly after 9:30, George Senn, Ninth street and Eighteenth avenue in South Rock Island, had an epileptic seizure, and fell, sustaining injuries which caused instant death. The platform is something over 50 feet above the ground, and closely adjoins a high windmill. In falling the young man struck a brace between the two towers, and his course was diverted so that he struck his head on the stone foundation of the tower. His skull was crushed, and his right eye cut. Death was instantaneous.

## Fell a Year Ago.

About a year ago Senn met with a similar accident, but in the fall that time escaped without severe injury. He was cautioned this morning by William Swan, who takes care of the baseball grounds, and advised not to attempt to fix the tank today. "I'm all right this morning," was his reply. He had been at work on the tank, tightening the bands, when he fell. His fall was seen by his aged mother, Mrs. Elizabeth Senn, and by Mr. Swan. Both hurried to the spot, and carried the young man's lifeless body into the home.

## Coroner Holds Inquest.

Coroner L. V. Eckhart was notified, and held an inquest at the home this noon, the jury returning a verdict of death from injuries in falling from the tank when in an epileptic attack. The victim of the accident was about 32 years of age, and was born in Chicago. He had for some time been afflicted, and had been at the Watertown hospital for a time. The only relative is his mother, Mrs. Elizabeth Senn.

## CEMENT FACTORY

Steps Taken to Develop Plant  
in the Vicinity of  
Milan.

## SUITABLE ROCK IS THERE

Spur Track from Rock Island Road to  
Be Laid—Raw Material and  
Fuel at Hand.

Rock Island capital is back of a plan that may lead to the establishing of another important industry in this vicinity. Lime stone near Milan has been found to be suitable for the manufacture of a good grade of cement, and steps have been taken to develop a quarry and factory on the farm of L. Stapp just southwest of the village boundaries.

The Rock Island road passes a short distance from where the rock can easily be secured, and it is the intention to lay a spur track to the plant. This would serve both to haul the product away and to supply the plant with fuel, though the latter would probably be largely secured from the mines that are but two or three miles distant.

## BUGGY BREAKS DOWN;

OCCUPANTS UNINJURED

Peculiar Accident on Fourth Avenue,  
Which Happily Does Not Result  
Seriously.

Mrs. Julia Schreiner and daughter Miss Grace Schreiner and Mrs. L. M. Titterton were driving up Fourth avenue this afternoon when the reach between the axles of the buggy parted in crossing the street car tracks at Fifteenth street and the horse was separated from the vehicle. The ladies escaped injury and the horse was quickly stopped as it walked along as if nothing had happened. Had the animal been fractious the result might have been serious.
