

NEW WINDSOR MAN IS KILLED

Henry H. Blackledge, Auto Agent, Pinned Under an Overturned Car.

NOVICE WAS AT WHEEL

Man Receiving Instruction in Operation of Machine Lost Control on a Hill.

New Windsor, Ill., April 22.—(Special)—Henry H. Blackledge, an automobile demonstrator and a well known resident of this vicinity, was almost instantly killed in an automobile accident four miles east of Aledo at 4 o'clock yesterday afternoon. The machine turned over and pinned him beneath the body. He lived only a few minutes after being taken out. Three other occupants of the machine escaped with slight bruises.

HAD GONE TO ALEDO.

Mr. Blackledge was instructing B. B. Baxter of New Windsor, to whom he had sold a new machine, in manipulating the same, and the two, with Mrs. Baxter and the little daughter of the Baxters, had gone to Aledo.

On the return the two men were sitting in the front seat. Mr. Baxter was driving. On coming to a hill Mr. Baxter noticed that at the bottom was a culvert with bad ruts on either side. He became confused and in trying to apply the brakes lost control of the steering wheel, but being on the wrong side, he made a mistake and turned the wrong way, throwing the auto off into a ditch.

The machine overturned, throwing the Baxters clear, but Mr. Blackledge appears to have held onto the wheel and in consequence was caught under the car.

HELP TOO LATE.

Mr. and Mrs. Baxter soon gathered their wits and tried to remove the auto from Mr. Blackledge's body, but were unable to do so. By the time they secured help he was breathing his last.

A coroner's inquest was held during the evening and the verdict was accidental death. Mr. Blackledge was 28 years of age and leaves a wife and three small children.
