Prominent Women Battle for Political Supremacy

WILLETTE KERSHAW OPENS WESTERN CAMPAIGN WHILE MRS. J. BORDEN HARRIMAN FIGHTS IN EAST

BY RICHARD R. SINCLAIR.
 (Special Correspondent of The Argus.)
 New York, Sept. 16.—Following the announcement that Jane Addams of Chicago would take the stump in behalf of Colonel Roosevelt, Miss Willette Kershaw, the founder of the Professional Women's Union and Marshall league, called a meeting of her fellow workers at the Flat Top armory in New York last Saturday afternoon, at which plans were formulated to counteract the arguments of the women progressives in the west headed by Jane Addams.

It was decided that the most effective method of combating the arguments of the "mosses" would be to compare Woodrow Wilson's record of 20 months in office with Roosevelt's 20-year record.

Miss Kershaw will not touch the tariff question, as Mrs. Harriman, the New York society leader, is devoting her activities exclusively to this issue, making daily speeches in the east and

ZEMO FOR DANDRUFF
 You Will be Surprised to See How Quickly it Disappears.

No more dirty coats from dandruff heads. Zemo stops dandruff. Apply it any time with the tips of fingers. No smell, no smear. Zemo sinks into the pores, makes the scalp healthy, makes the hair fine and glossy.

Zemo is prepared by E. W. Rose, Medicine Co., St. Louis, Mo., and is regularly sold by all druggists at \$1 per bottle. But to enable you to make a test and prove what it will do for you, get a 25 cent trial bottle fully guaranteed or your money back at F. D. G. Walker's drug store.

sending literature throughout the country. Before leaving on her special for Chicago last evening, Miss Kershaw gave out the following letter:

"The campaign conducted by the Professional Women's Union and Marshall league in the New England States during the past three weeks has been successful beyond our wildest dreams. I found that, in the factories employing child labor, there existed a total ignorance of the magnificent child labor legislation enacted by Governor Wilson in New Jersey.

"In the west our efforts will be devoted principally to the child labor question, although we will tell of the great benefits of the different factory laws that have been enacted in New Jersey during Wilson's administration, such as the laws relating to the employment of women wage earners, the compelling of adequate fire protection in factories and schools, and the hours in which children should work in the various industries.

"We will show the benefits of the workmen's compensation act, which provides definite sums for definite injuries and for deaths involving varied relations, in other words, we will pit Wilson's record against Roosevelt's and let our audience judge for themselves.

"We are having moving pictures made showing by comparison the former miserable conditions in the factory homes in New Jersey and the present conditions. It's up to the working man to cast his vote for the man who has done so much in his own state to better conditions, and I believe the way to reach this vote is through the wife or mother or sister

upon whom the greatest burden falls." Miss Kershaw will conduct an active campaign in Chicago for the next two weeks and will assign speakers from the New York headquarters to the western territory.

ARE MANY CASUALTIES IN A NICARAGUAN BATTLE

San Juan Del Sur, Nicaragua, Sept. 20.—Revolutionists yesterday captured San Jorge, on Lake Nicaragua. While rebel gunboats bombarded San Jorge another force of insurgents attacked Rivas, five miles away, forcing the government troops to fall back on Coarce. When the rebel attack slackened, the government forces captured a rapid-fire gun and used it with such deadly effect the rebels were obliged to retire. The fight lasted five hours. Both sides suffered many casualties.

TRAVELING STORES.

Portable Shops on Wheels a Curious Feature of Cuban Life.
 Among the many interesting things to attract the attention of the tourist in Cuba are the traveling stores, consisting of all sorts of queer vehicles which traverse the city and rural districts.

These portable shops are constructed in an ingenious manner so as to display their wares to the best advantage. Every article used in a household and wearing apparel of all kinds are on sale, and the owner of the wagon, which resembles a department store, boasts that he can supply dry goods and notions of all kinds, from a paper of needles to a ready made gown. The sides of a shop on wheels are made of glass and so arranged as to give them the appearance of a shop window.

Perfumery is one of the leading articles sold in this way, for, however poor the natives may be, they always have money enough to purchase colognes and generally the most expensive varieties.

During carnival season a plentiful supply of masks, caps and grotesque suits is added to the stock. Men with pushcarts laden with linens and laces or cooking utensils go about the streets of Havana, offering their goods to the women who cautiously peer out from behind barred windows. These carts have the appearance of a street organ and are pushed among the splendid smooth avenues of the city with ease. Often men will carry their stock, displaying it on a pole to which cross-wise sticks have been fastened. Like the old-fashioned clotheshorse. Toys also form a part of the stock of these human delivery wagons. — Leslie's Weekly.

The Turbine.
 The first steam turbine fitted vessel was constructed by the Hon. C. A. Parsons at his works at Newcastle-on-Tyne. The Turbinia, a small vessel, a hundred feet in length, made her trial trip Nov. 4, 1894. The system rapidly developed owing to increased speed of the vessels fitted with turbine engines and the economy effected in coal. Improvements were made in their construction, and today the turbine ship is popular the world over.

Depressing.
 "Were there laughter and cheers during your speech?"
 "Well," answered the youthful statesman, "there weren't many cheers, but now and then people in the audience looked at one another and laughed." — Washington Star.

Also Sharp.
 "Miss Polly's father is a man who is blunt."
 "Yes; he wanted to know the other night if I were coming to the point." — Baltimore American.

TELLS STUDENTS TO ESCHEW DRINK

President James of Illinois Cites Failures Due to Tobacco and Alcohol.

Urbana, Ill., Sept. 20.—President Edmund J. James of the University of Illinois at the opening of the university for the 1912-1913 term, spoke to the freshman class in part as follows:

"Many failures in the college work of the first two years can be directly traced to alcohol and tobacco. The only safe thing for college students in such matters is to abstain, and not handle it. Seniors and juniors might build up a most excellent college tradition if they would prohibit freshmen and sophomores from smoking and drinking, on the ground that they are still infants, at least in the academic sense."

A word of warning was also uttered against the undue absorption of time and energy by so-called "student activities," of which study is not commonly considered an important one.

"College students," said the president, "should follow the simple, economic principle of doing at college the thing which is of most advantage to them at that time and that place, leaving for other times and other places the acquiring of habits and the

doing of things for which other places offer better or at least as good opportunities.

"You can learn to dance at home as well as here. I believe, indeed there are better dancing-masters in Chicago, or even Bloomington or Decatur, or Springfield, than in Urbana-Champaign. If you wish to excel in this art, therefore, it would be better to select some other place of residence. You can learn to drink and smoke at any small town in the state of Illinois, and the elements of poker may be learned even at any cross roads.

"The one thing you can do better here than at home is to develop your intellectual powers.

"Dawling along over your books or your problems or your laboratory work and thinking chiefly of social or athletic matters will not bring to you the specific advantages which university residence ought to bring.

"Every citizen of this state, no matter how poor, contributes to some extent to the support of this university. If he lies in a house at all, wears clothes and eats food, he contributes, indirectly at least, to the support of this institution. The miner in his gloomy pit, the weary washerwoman over the steaming tub, the tired mechanic at the place, one and all are doing their share to help provide you with these opportunities and facilities, placed so freely at your disposal."

Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will

STOMACH MISERY

In Five Minutes M-I-O-na Stomach Tablets End Gas Fermentation, Sourness and Any Upset Condition.
