

BOLTERS QUICKLY FINISH BUSINESS; ARE NO CONTESTS

Edward D. Reynolds of Rockford, State Consul, and Chicago Voted Next Camp.

HEAD OFFICERS ENDORSED

Hancock County Delegation Registers Only Protest—Unable to Agree With Either Side.

After the administration delegates had been seated at Knights of Columbus hall O. E. Aleshire, floor leader, called to order.

"It is time for a state convention to be held by men who know how," said Mr. Reynolds on taking the chair.

Dr. C. E. Orr, of La Salle, placed a motion which carried, that a committee of five be appointed on credentials.

The committee on credentials seated delegates without a dissenting vote on the adoption of the report.

"Hancock county is meeting with this body because we think you are better than the insurgents. We don't endorse the head officers' records during the past three years in view of mistakes.

Mr. Aleshire was on his feet quickly. "I am glad to hear from the neighbor from my old home county," he said.

At the resolutions did not recommend the convention city for the next three years hence F. O. Van Galder invited discussion of that matter.

The business of the administration delegates was finished about 7:15.

Cook County. Delegates—George V. McIntyre, J. C. Bush, C. A. Aiman, D. L. Williams, Wm. Vizard, F. S. Webb, F. A. Rice, F. W. Coffey.

These Are the Days of the Ready-to-Wear Clean-Ups

Mrs. Good Housekeeper—Here Is News.

Splendid news for you. We are going to make tomorrow and Saturday the banner days of the year, so we will give you House Furnishings at prices lower than the cost to the store ordinarily, and in many cases lowest offered this season.

Bohn Syphon Refrigerator.

Mr. William C. Hollbrook will explain the many advantages of using the Bohn Syphon Refrigerator. He will demonstrate with groceries and ice the positive practicability of the new ideas in refrigerators.

CIRCULATION OF AIR is absolutely necessary in order to have perfect results. "Microbes and Heat spoil the freshest meat."

ECONOMY IN CONSUMPTION OF ICE.

Insulation is the keynote of a refrigerator's efficiency. Lacking insulation, the most elaborate appearing refrigerator is useless.

After years of practical experimenting, we have rested satisfied that we have attained perfection in insulation.

A practical combination of non-conducting, non-absorbent material and dead-air space. Ten thicknesses of insulation.

FREEDOM FROM MOISTURE.

Dampness causes food to become stale and mouldy, and, consequently, unwholesome.

In the Bohn Syphon Refrigerator it is impossible for moisture to accumulate on the walls of the provision chambers.

An experiment will demonstrate that a wet cloth suspended in the provision chamber will become dry in a shorter time than if hung in the outside air.

BATHROOM SUPPLIES

TOWEL BARS, made of brass, 15-inch size, nickel plated; just the thing for the home, each... 25c
