Ten Years Ago

A man was proud to carry scuffed and travel-stained luggage—not so now.

Today he is as particular about the quality and style of his grip or his suit case as he is about his coat or his hat.

Today a traveler's trunk and hand luggage must be correct and show quality in keeping with his position and station in life. This store is said to be headquarters in the three cities for all kinds of classy, correct baggage.

To more thoroughly disseminate this information we shall GIVE A DISCOUNT OF 10 PER CENT from our well known low prices during this Great Nine Days Sale.

It's worth while to come early, how much more you'll enjoy the next trip when you are properly equipped with smart, correct up-to-the-minute luggage—10 PER CENT DISCOUNT FOR NINE DAYS.

A Nine Days Wonder Sale.

Ever since the beginning of European hostilities early in August the certainty that much higher prices would prevail on all imported goods and on all American made goods whenever foreign products were used has been the dominant note in American merchandising; so that the enormous quantities of high class merchandise gathered in this store during the past 3 months had seemed wise and thoughtful and our buyers were given widest latitude on quantities, if prices were only low enough.

Many unforeseen circumstances, coupled with the delay of winter, decreased consumption, etc., and the insistent demands for payments from makers and importers has decided us to throw overboard all surplus provisions, and to meet the necessities of the situation by a NINE DAYS SALE, which will be a TRULY WONDER from start to finish.

A Sale With a Reason.

A backward winter and an accumulation of winter merchandise prompts us to move quickly--

The temptation was very great for our department heads to buy largely when the prices of all kinds of merchandise was jumping up by leaps and bounds every day.

Unfavorable trade conditions, much idle labor, a backward season and the need of much ready money, all combined, are our reasons for this most unusual cutting of prices right at the beginning of the season.

Whether we were right or wrong the people have the advantage of these great savings. Come and help yourselves

There Are Prices Here That Have Not Been Equalled,

quality considered in many years. Our determination to realize the CASH with which to meet our obligations is the only excuse we have to offer for the reckless slashing of prices that you will find in this great sale.

Thinking men and reasonable women will quickly perceive that such prices as these cannot be continued and of course Nine Days must be the limit.

But during the sale time, any and all goods will go out to all comers as freely as though they were paying us a profit.

We only suggest that you show us the consideration of carrying packages home yourselves whenever convenient.
