THE WEATHER.—The following is the record of temperature as indicated in the shade on the north side of THE ARGUS Office, to-day:

7 A. M.	22°	12 M.	29°
9 A. M.	26°	3 P. M.	24°

POST OFFICE MOVING.—To-day, and people should be patient and good-natured—errors may occur, as the boys have not got the hang of the new place yet—they'll get everything straight in a few days.

PERSONAL.—Among the arrivals at the Harper House, the register shows the names of Maj. A. P. Cattell, of Philadelphia; B. M. Tabor, New York; H. J. Barber, Jr., Hartford; A. Tillard, Chicago; T. S. Cole, Milwaukee; Dr. Hamilton, Wm. Bassnell, Peoria; John Stout, Ottawa; J. S. Tichnor, Rockford, and many others.

ILLINOIS—OFFICIAL.

The official vote of the State is as follows: Grant, 241,297; Greeley, 184,077; Grant's majority 57,801.

For Governor, Oglesby, 237,691; Koerner, 193,915; Oglesby's majority 44,676—or 11,125 less than Grant's majority.

The total vote is 23,617 less than in 1868; Grant's vote is 9,478 less than it was in 1868, and Greeley's vote is 14,129 less than Seymour received in 1868.

FROZEN UP.—Some difficulty has been experienced from the freezing of service pipes attached to the mains of the water works, since the present cold weather set in. The difficulty cannot be ascribed to any fault in the works in a single instance, but to the negligence and carelessness of water consumers. The reason assigned is that some had neglected to have any water cock attached, whereby they could turn the water off, and others who had one, had neglected to use it. Great care will have to be exercised during the season of cold weather or many buried pipes will be the result.

RIVER NOTES.—The Northern Line steamer Savannah arrived from above, yesterday afternoon about four o'clock, having had a rough trip. At La Claire, she took on the freight of the Muscatine, which had laid up there for the winter. Early on Sunday evening she went on the chain of rocks above the old bridge, and there remained, with her two barges, until three o'clock Monday afternoon. At such a landing was made here she commenced unloading her freight, which will be shipped to points South over the Rockford road. The steamer will go into winter quarters at Rocktown.

The Rodwing, of the same line, which arrived here Sunday evening, also, had a rough trip. At Dubuque she took on the crew of the steamer Dubuque,—seventeen men, mostly colored,—and every man refused to pay his fare. The steamer was run ashore and the obstinate crew ordered off. They refused to move, declaring that they would fight first. The steamer then turned and made for Dubuque, where the police were summoned and the refractory crew ejected.

Several large rafts are reported in the river—above this point—some of them frozen in, where they will probably remain until Spring, and even then it is doubtful if the owners receive them intact.

Gen. Joe Hooker says: "I do not pretend to be prophet, but I tell you that Grant aches for another war, and that he will make one if there is the slightest pretext."

HOW TO PARYLIZE A MAJORITY.

A telegram from Montgomery, Ala., the 17, says: "Messrs. Morgan, Kimbro, and McNeil, conservatives, who have certificates of election as members of the legislature, were arrested by the United States deputy marshal to-day between Selma and Uniontown. It is reported that the marshal is to take them to Mobile. The marshal said that he had instructions not to take bail. The offence charged is some violation of the election law. This will make the political complexion of the legislature doubtful on organization, as the carrying of the prisoners to Mobile will involve several days' delay. The liberals and conservatives would have a majority in the houses if the arrested parties were allowed to take their seats. The legislature meets to-morrow."

Political matters in Louisiana are in chaos, also. The State voted for Greeley, but the Custom House ring want the offices—want them bad. They have held them and know their value. Custom House opportunities are pretty good, but it is so much easier and safer to pluck a Southern State than Uncle Sam! So they cried fraud and began the arrest of citizens and State election officers. They now have two boards counting and doctoring returns,—the Warmouth ring and the Kellogg or Custom House ring. If Kellogg is not elected by the returns he must have a chance to make up the deficit by drumming up an army of negroes sufficiently able-bodied to do the necessary swearing. In the meantime his organs and friends are talking about martial law, provisional governors, and the awful responsibility of opposing the United States authority. Injunctions are flying about and nobody can yet tell whether we are to have peace or not.

May Bro's have the best stock of Furs, Nubias and Blankets, of any house in the city.

MAY BROS.

Something of their new Wholesale Store—Queensware, Glassware, and Crockery to be purchased in Rock Island by the Quantity.

THE ARGUS has often had occasion to chronicle the enterprise of different firms and establishments in this city, and, in the mercantile line, none have made a better showing than the firm of May Bros. Starting here together a few years since, in the dry goods business they have worked their way up steadily until to-day they occupy a prominence in commercial circles of which they may well be proud.

A few months since they determined to open up in a new line of business, and no sooner was the decision arrived at than steps were taken to bring about the desired result. What has been done can easily be seen by examining their two fine stores fronting on Illinois street. In one will be found a fine stock of dry goods, embracing everything in that line. The store room is nicely fitted up, the front adorned with French plate glass, and the shelves heavily laden with rich goods.

Joining this room and connected with it by an arched doorway, is

THE WHOLESALE STORE,

filled from top to basement with a full line of everything in the queensware, crockery and glassware trade. The salesroom is on the first floor, and is filled with samples of everything kept by any first-class house. In the second story is stored the full sets of different articles ready to be sold out to customers. This story is connected with the basement by an elevator, where the unopened goods are stored in large quantities.

The stock consists of as large and fine variety of goods as can be found in any house west of Chicago, and embraces every thing from the finest china to plain table ware. French cut glass, lamps of all kinds, butcher knives, tea setts, cutlery, etc., etc., as well as a large stock of holiday goods can be found here.

This is the first wholesale crockery house ever started in Rock Island, and for that reason, and the well known ability and energy of its proprietors, it is deserving of encouragement and success. Mr. Louis May has been traveling for the past month in the interest of the new establishment, and says that he has met with substantial encouragement that enables them to open their wholesale trade under good auspices and with perfect confidence in their ultimate success. They are the pioneers in the trade here, and assert that their goods were purchased at the bottom figures, and that no house in the West can undersell them. Success to this wholesale trade of Rock Island, say we, and we say all.

SENATOR SCHURZ IN DAVENPORT.—[Sending a number from this city and Moline, about two hundred persons, among whom were not over a dozen ladies, were in the Burtis Opera House, Monday evening, to hear Gen. Schurz's lecture on "Germany and France." For a town of the size of Davenport it was a small attendance and not a flattering evidence of the literary culture of that city. The number in attendance was not half as large as at the concert in Dart's Hall in this city, the same evening. But Davenport is not famous for its patronage of the lecture room.

In the limited space we have to spare, justice cannot be done to the distinguished lecturer or his subject. Gen. Schurz is one of the most cultured thinkers and statesmen in country, never attempting to make people think, but only to set them thinking, illustrate principles and draw from history lessons for future guidance. He proposes with care what he has to say, and reads tepidly, from manuscript, in a musty voice, with not very distinct articulation, weakening the very uncomfortable feeling as the hearers fear that they are going to lose the last of his sentences. Not even once did he appeal to, or try to generate any enthusiasm. He stood with one arm resting on the stand which held his manuscript, with one leg carelessly thrown across the other leg, and hardly changed this position during the time of speaking—which was one hour and fifteen minutes.

But the interest lay wholly in the subject of his lecture; the manner added no attraction. He described no battles, or armies, or conflicts, but passed in rapid review the various epochs of German and French history, and the habits, education, and morals of those nations—always to the great detriment of the French. In fact, while we were willing to admit all that he said of the good qualities of the Germans, we thought him harsh and even bitter in his review of the French people. The general conclusion, however, is no doubt correct, viz: that, for ages, the careful civil and military culture; the excellent morals, and frugal and temperate lives of the German people has made them the superior of the masses of the French people, and to this they owe their proud triumph. He regards the union of the German States as an advance towards Republican ideas. He says that public opinion, based upon intelligence, is having more and more influence in Germany. The power of the crown has been actually reduced by the organization of the Empire. The Federal Council has now greater power than Emperor or ministers. Even Bismarck takes up the gauntlet for the people, against the class from which he sprung—the Emperor sustains him. And so the German Empire is drifting away from centralization and loosening the influence of obedience to behests without inquiring the cause, which has so long characterized most of her people, and, in fact, restricting more and more the power of Emperor and nobles in government. The Emperor can no longer declare war except with the consent of the legislature. The powers of local government are being increased by law. And here he made some pointed allusions to local self-government, applicable to this side of the water as well as the other, and showing that no Republic can long exist when its local affairs are meddled with by a central power, and that France, though making commendable efforts to educate her people can never maintain a Republic until they do away with a centralized government.

The speaker closed his splendid lecture with some predictions as to Germany's future course—he saw her gradually progressing towards constitutional liberty as enjoyed in England and fulfilled in a still higher degree in the United States, and so attaining prosperity and greatness, based upon the intelligence and true patriotism of a happy people, and wielding an influence unattained hitherto by any other nation in Europe and perhaps the world.

NOTES, HERE AND THERE.

Warmer.

The Rock River boat, Edith, has laid up for the season.

A fire in St. Anthony's Church, in Davenport, Sunday morning, caused the quick dispersion of the congregation and damaged the building to the extent of $200.

The Peoria & Rock Island Railway will sell round trip tickets for one fare to the Cincinnati National Sunday School Convention, to be held in Cincinnati Nov. 20th, 21st and 22nd inst.

James King, a stranger in this city, was assessed a drunk fine of $3 this morning by Magistrate Cropper. As he had no money and was unable to work he was released, but advised to leave the city at once.

The attention of horse owners is requested to the advertisement of a "Sure Cure" for the "epizootic" or horse disease, which has recently appeared in this vicinity. For sale in quantities by Smith & Bonney.

A school election will be held in Moline on the 30th inst. The object of the election is to vote $30,000 to build school houses, one in the east and one in the west part of the city. Bonds payable $3,000 yearly at 10 per cent interest.

The concert of the DeBeriot club at Dart's Hall, last evening, was largely attended, and gave universal satisfaction. The singing by the "Arion quartette" was greatly admired and *encored* heartily. Due announcement will be made of the next concert. The "Arion quartette" assists at a similar concert at the Burtis Opera House in Davenport this evening.

The train for St. Louis over the Rockford road took out a large number of passengers last evening. Nearly one hundred steamboat and railsman came in on the Western Union in the afternoon and shipped for St. Louis by the Rockford road. About half of them were negroes. Several boats have recently gone into winter quarters above here, and the crews were obliged to ship for some by rail.

Mr. Wm. Collins, a carpenter and a resident of Davenport, engaged between that city and Eldridge Junction, on the D. & St. Paul road, Monday morning. The last time he was seen alive by the train he was going out at the door of the car. He was discovered by a second freight train a short distance from Eldridge Junction lying near the track. He died the same evening. His family consists of a wife and one child.

Speaking of the Cameron-Harbaugh affair, in which one of the gubernatorial candidates in Pennsylvania and Grant's supposed determination to enforce the civil service bill, the Chicago *Times* says: "Indications are not altogether wanting that the affair was so adroitly contrived piece of buncombe throughout and that the disappointment and indignation that were said to have been expressed by the party upon their retirement were simply exhibitions of dramatic talent."

THE common mineral baking powders foisted upon the American housekeepers are the bane of the domestic board, and the best purveyors of dyspeptic patients for the family physicians. The wonder is, not that so many are sick, but that any escape who are daily poisoned by eating pastry of any kind mixed with these deleterious drugs. It is of course laudable ambition in every lady to have light, flakey bread, spongy biscuits and flaky pastry, but she is so frequently led into buying powders to make them so, which only differs in degree of injurious effect from the acknowledged poisons of the pharmacopeia. There is one preparation which experience has proved, science has tested, one that discovered, and pure principles has indorsed, as a thoroughly healthy and yet wonderfully effective substitute for the obsolete yeast or sponge of past. That is Dooley's Yeast Powder, which makes all articles compounded of flour light, delicious and wholesome. It is as cheap as any other, a smaller quantity does the result, and it will keep its leavening properties an indefinite length of time, while it has no more injurious action on the system than would a simple pinch of salt in the pastry.

Somebody cut a story from a newspaper about Henry Ward Beecher drinking whisky, and sent it to him with regrets. Beecher's reply to this charge will do equally well for the Woodhull business:

MY DEAR BROTHER: You are a world too anxious. Facts live. But lies do not, when facts are against them, and have a fair chance. Do you remember how many just such stories were told about my father? Among others the famous one of the Doctor's "lies?" I have had more lies told about me every year of my public life than would shingle a cathedral. Yet I have contrived to live, and I have a firm faith that I shall continue to live—till I die. So pray do not lie awake about me, but laugh five times when you sigh once. Very truly yours,

H. W. BEECHER.

THANKSGIVING BALL.—The members of St Patrick's Benevolent Society in this city, propose to give a grand Thanksgiving Ball, at Turner Hall, Wednesday evening, the 27th inst. The success of the entertainments heretofore given by this benevolent society is a pretty sure guarantee of a pleasant and profitable time at the Thanksgiving Ball. The price of admission has been fixed at one dollar, so that all lovers of the many dance may be enabled to attend. The occasion will undoubtedly be a happy one.

"I was sick with a bad cough and my lungs were very much affected. I became so bad under the treatment of my physician for Consumption, that I feared that I should die. Hearing of the remarkable cures that had been made by the use of Dr. Wm. Hall's Balsam for the Lungs, I dismissed my physician and took it. I am happy to say that it cured me. I believe it to be the best lung medicine known."

ARGUS PREMIUM POSTER PRINTING.—New cuts, new borders, new type, and new and unique devices of various kinds have recently been added to THE ARGUS job department especially for poster printing, and the office has every facility for executing poster work, illustrated and displayed in the most attractive manner. With four presses running at the same time, by steam, and with the most accomplished workmen to be found, and with the very best materials, THE ARGUS office presents superior inducements to get your work done there.

AGRICULTURAL SOCIETY NOTICE.—There will be a meeting of the members of the Rock Island County Agricultural Association and Board Saturday, December 7th at two o'clock P. M. at the Court House, in the city of Rock Island. All members are requested to be present, as business of importance to every member will come before the meeting.

The fee for membership was reduced to $10. All who desire to become members should hand in their names to the Secretary on or before Saturday, December 7th.

DR. WISTAR'S

BALSAM OF WILD CHERRY

Is peculiarly adapted to every disease of the lungs and liver which is produced by our ever varying climate.

There is, perhaps, no disease with which our country is affected, which sweeps off annually so many victims as that fell destroyer of the human race—Consumption. Day after day year after year, the insatiate monster hurries to the cold and silent portals of the tomb fresh added victims to its conquest. No walk of life is sacred from its blighting influence. No age is exempt from its death dealing shafts. The old, the middle aged, and the young, all alike, are food for this common enemy of mankind. The white haired patriarch whose life of temperance has rendered his system impergious to the attacks of other ills, and whose good deeds prepared him for the enjoyment of life's calm evening, finds consumption fastening its fangs upon his vitals, and tearing him from a world ever bright to minds which look complacently on days well spent.

Consumption, in its confirmed and incipient stages, coughs, asthma, croup, and liver complaint, form by far the most fatal class of dis eases known to our land. Yet even those may be cured by means of the simple yet powerful remedies that are scattered wherever these maladies prevail.

A SAFE, SURE, AND EFFECTUAL

Remedy FOR Worms

Purely Vegetable and as Easy to take as Candy.

It is often very difficult to induce children to take remedies for any of the diseases incident to childhood, as the very idea of taking medicine is repulsive to them.

Scovil's WORM KILLER OR CONFECTIONS,

Is put up in the form of a lozenge, is pleasant to take, and by calling it candy, children will not refuse to eat it, which saves the parent the disagreeable task of forcing the child to take nauseating medicine.

There is no class of diseases known to Medical Science of more frequent occurrence or so little cared for as those peculiar to the female organism. Rosadalis, the Great Blood Purifier and Renovator.

BALTIMORE, Jan. 1st, 1869.

Gentlemen:—It affords me pleasure to add my testimony to the wonderful effects of your truly excellent medicine—Rosadalis. After suffering for two years from a shattered constitution, with scarcely a hope of restoration to my usual health, I was induced to try your Rosadalis; after taking, according to your directions, five bottles, I can truly say that I have been completely restored, as my many friends know, and I believe solely by the use of your medicine. I cordially recommend it as an excellent renovator and purifier of the blood. Truly yours,

In numbers there is safety. It was upon this principle that the formula of Judson's MOUNTAIN HERB PILLS was prepared. Dr. Judson, intending to spend a fortune in advertising his pills, submitted his receipe to the revision of the most intelligent and learned physicians of the age, and the result is a simple but most efficacious medicine—the JUDSON'S MOUNTAIN HERB PILLS. They purify the blood, remove all obstructions clear the skin of all pimples and blotches, and are positively sure and safe in their operation. The JUDSON'S MOUNTAIN HERB PILLS cure Biliousness, Female irregularities, Headache, and many of the diseases arising from impure blood and a deranged digestion. Use the Judson's Mountain Herb Pills, and when you have proved their virtue recommend them to your friends. They are both sugar coated and plain. For sale everywhere.

If you do not feel well you send for a doctor he calls upon you, looks wise, scrawls some hieroglyphics upon a piece of paper which you take to a drug store and there pay 50 cents to $1.00, besides the doctor's fee, for a remedy nine times out of ten not half so good as Dr. Morse's Indian Root Pills, which costs but 25 cents per box. Do you think the former the best, because you pay the most for it? If you do, we advise you to use, just as an experiment, the Morse's Indian Root Pills. They are prepared from a formula, pronounced by the most learned physicians of our country, to be the best and most universal of family medicines. The Morse's Indian Root Pills cure Headache, Liver Complaint, Indigestion, Dyspepsia, Female irregularities, &c., and are put up both sugar-coated and plain. Give them a trial. Sold by all dealers.

A bright, healthy child is a perennial spring of joy in every well regulated family, and where is that father, who after the strife and turmoil of business, on retiring to his home, is not beguiled of care by the innocent prattle of his child? Perhaps this father is a worldly man, and makes gold his idol, he may have been a successful man, and amassed riches. Yet place his child on the sick bed, and all his gold is at the disposal of the physicians, and the only return he asks is the restoration of health to his child. Fathers! Mothers! would you preserve your child in health? Then listen to us. There is one prevailing cause of the disease in children, and that cause is worms. If this cause of disease is not removed, your child will sicken and die, or linger a suffering invalid for life. We present to you an infallible remedy for worms; it is

Dr. Judson's Dead Shot Worm Candy,

and is put up in the form of a stick of candy, and so pleasant to the taste, that children greedily cease for it. It is purely vegetable, and cannot hurt the smallest child. Ask for Dr Judson's Dead Shot Worm Candy. For sale everywhere at 20 cents per package.
