

If cable dispatches are to be believed, there is an altogether absurd amount of fuss in England about the receipt to be given General Grant in official circles there.

The country is treated every day or so to some new rumor as to the future career of Gen. Grant. He is to be the chief in some grand banking concern.

If Governor Stone, of Mississippi, is correctly reported in our telegraphic summary of an interview which he is said to have had with a correspondent of the Memphis Avalanche, he considers himself to have done all that the laws of Mississippi allow the executive to do in the matter of bringing the "Kemper county rioters" to justice.

We advise those of our contemporaries who are disposed to quarrel with the World for calling the recent savage acts in Mississippi an after-clap of the Ames regime to examine prayerfully the Mississippi report of 1876.

"After a Street Flirtation, May 29." From the Chicago Journal. One of the saddest reports of what many girls regard as innocent amusement-street-flirting—that has ever been chronicled was reported to the police last night.

Walter Dupey. The couple met several times, and last evening another meeting took place. Mary being accompanied by her cousin, Annie L. Blide, who resides at 48 Hanover street, and the young man having with him another young man. They paired off and started for a walk, and after walking awhile a ride on the lake was proposed.

"TO SEA IN A TUB." The Craft That is to Carry a Man and a Wife to England. On Monday, Capt. and Mrs. Thomas Crapo sailed from New Bedford, Mass., for England, in a little craft which is described by the New Bedford Standard as follows:

The boat in which Captain and Mrs. Thomas Crapo are to sail for England was officially measured yesterday by Captain Orrick Smalley, United States Admeasurer, who reports her dimensions as follows: Length, 19.55 feet; breadth, 6.4 feet; depth, 3.16 feet; tonnage, 1.62 tons.

The principal sails are of leg-mutton pattern, the fore-sail hoisting 15 feet and main-sail 13 feet each being about 9 feet on the foot. The foresail is without a boom. She is having a square-sail and staysail made for light winds, to hoist from the deck, the former containing about 15 yards and the latter 18 yards of canvas.

The New Bedford has no bulwarks, but will be rigged with life-lines instead, and Captain Crapo does not expect much water will come over the deck. The hatchway will be arranged in two parts with hinges, and most of the time the forward half of each will be closed.

In the Sweet By-and-By cannot but be the happy thought as the fortunate recipient of the "Rocky Mountain Tourist" scans its wonderful attractive pages and peruses its fascinating descriptions. Most beautifully embellished with new and high artistic engravings, its letter-press a model of typographical richness, and the arrangement throughout simply superb, the Rocky Mountain Tourist is worthy of comparison with Picturesque America or The Aldine.

Files-Itching Files. Postile, cured—also Bleed and Bleeding Files, F. C. Salt Rheum, and all diseases of the Skin, by the use of ROSSMAN'S CURE. ITCHING FILES is generally preceded by a moisture-like perspiration producing a very dry, scaly and distressing itching, particularly at night, after getting warm in bed. No humbug—as a trial will prove. For sale by all respectable druggists.
