## CITY.

It will pay to keep your harness in good condition. Use Frank Miller's Prepared Harness Oil.

A handsome six feet show case entirely new, for sale cheap. Apply at ARGUS OFFICE.

Notice to Debtors. All persons knowing themselves indebted to me are requested to call and pay up by August 1st, and save costs.

WHAT IS DOOLEY'S YEAST POWDER? It is made from the purest and strongest elements. Among them, cream-tartar made from grape acid expressly for these manufacturers. The result is that the biscuits, rolls, waffles, cake, bread and pastry produced, are beyond comparison.

MASONIC—Regular convocation of Everts Commandery No. 18, K.T., this evening at 7 o'clock sharp. Work on the order of R.C. and K.T. All Sir Knights sojourning in the vicinity are courteously invited to be present. By order of the E. C.

USE LIVE TOOTH is worth a dozen dead ones, and to secure the teeth from decay, it is only necessary to use the Fragrant Soudont. The odor of this pure preparation is so delightful, that it is a luxury to apply it, and its beneficial effect upon the teeth is marvellous.

The Weather—To-Day. The following shows the temperature at THE ARGUS OFFICE to-day as indicated by thermometer:

Firemen's Election. WIDE AWAKE, No. 2. Foreman—Daniel Hesly. Assistant Foreman—E. W. Asay. Secretary—Geo. Hamaker. Treasurer—B. Winters.

County Court. George Penland, the desperado, who brutally assaulted Mrs. Milly Dillon, in her restaurant, last Saturday evening, appeared before the county court to-day—the 11th—and pleaded guilty. He was fined \$50 and costs. No money. Sent back to jail until the fine and costs are paid.

Impure Water. People are complaining that in the upper part of the city the superintendent has not opened the fire hydrants for three or four months, and, as a consequence, there is a large amount of dirt and other filth in the pipes—making it impossible, sometimes, to draw water from private pipes. It is also said that the water has a very offensive smell, and is unfit for use. The hydrants should all be opened at least once every week—and the city clerk says this is the mayor's order to the superintendent. Then let it be enforced before another epidemic from impure water breaks out.

Personal. A letter from Fred Hass, who is now in Des Moines, says his contract for doing the copper work on the new Iowa state house, has been signed and delivered and that his bonds (for \$10,000) have been approved—and he will commence on the work immediately. Before returning home he will visit the northern copper regions, and then take a short trip to Pittsburg.

Mr. A. Bamberger, formerly of this city, but now of Chicago, is visiting friends here.

Hardy Heater. Hardy Heater, who was badly injured by the premature discharge of one of the Light Artillery Co's cannon, just before the "sham battle" at Moline, on the Fourth, is getting along nicely, under the excellent care of Dr. Galt. His burns and broken arm are healing rapidly, he will not lose the sight of either eye.

At the request of "Adj.-Gen." Geo. W. Vinton, of Moline, and members of the Artillery Co. Prof. George Young will call upon our citizens and solicit subscriptions for Heater's benefit. Hardy is a hard-working young man, and he will not be able to labor for several months, any amount, however small, will be acceptable. The Artillery Co. will pay the doctor's and druggist's bills.

Interesting Tresspass Case in Hampton. An interesting tresspass case has just been decided by Justice Baker, in Hampton, after a four days' trial. The trouble grew out of an old feud between Jonas Barber and A. T. and A. R. Drury, which culminated last week, in an assault and battery—and Barber sued the Drurys for tresspass, claiming \$200 damages. Wm. H. Atwood, Esq., of this city, appeared for Barber, and Wm. Jackson, Esq., of Sweeney & Jackson, also of this city, for the Drurys. Justice Baker entered judgment in favor of the plaintiff for the sum of \$15 and costs of suit—which amounted to \$60 in all. This will probably be the last of the case, as the Drury's think they got off very light. The people of Hampton were much interested in the case, and the court room was generally crowded.

How Brotherly! A few days ago the Union published the following "public notice":

TAKE this notice to notify all whom it may concern, that my brothers, David Adams and Robert Adams, are neither of them in any manner connected with my business, either in buying or selling stock or meats, and that neither of them are in my employ, and from this date I will not be responsible for any contracts they may make.

## Dealing out Justice.

For some time past people living below Weyerhaeuser & Denkmann's saw mill have been complaining to the police that Jennie Fuller, wife of Dearborn B. Fuller, (or, "John Henry," as he is commonly called) was keeping a disorderly house and house of ill-fame in that vicinity. Yesterday afternoon, on complaint of citizens, Justice Cropper issued a warrant for her arrest, which was made by Policeman Bollman, and she was locked up in jail. This morning, the evidence being very strong against her, she was fined \$75 and costs, and sent to jail. She was very insulting to the court and the officers during the trial.

Billy Catton and Wm. McCarty got into a dispute, last evening, in the Blue Front saloon as to who was the best billiard player. Catton called McCarty a "liar"—and the latter slapped him in the face. McCarty was pretty drunk at the time. He was arrested and taken before Justice Cropper by Policeman Gorman. Fined \$5 and costs. Paid and discharged.

Mrs. Martin Gorman went before Justice Cooke and swore that John W. Roach had called her abusive names. He was arrested by Policeman Feeley, but he took a change of venue to Justice Cropper. Yesterday, the case was compromised by Roach paying the costs.

The New Gasometer. The tank of the gas works is now fully completed and the gasometer is in place. For the addition to the tank just made there was required 36,000 of brick, to raise it five feet higher than the height of the old tank. This brick is laid in cement and made water tight. It was commenced at 30 inches and completed 17 inches in thickness. It has been finished up in a substantial and thorough manner, and reflects credit upon the company for making such solid and permanent improvements, as well as upon Mr. P. Kennedy, the master bricklayer, in charge of the work.

Mr. Kennedy has had a large experience in this kind of work, having superintended the construction of sixteen similar tanks, erected by the Manhattan Gas Co. in the city of New York, some years since. Each tank contained 1,000,000 bricks. Mr. Kennedy has also built the brick work of a large number of dwelling houses, stores, and public buildings in years past, and still continues in that line of business. He is deserving of public patronage, and is a competent and reliable man in his profession.

"L'homme qui rit."—The man who laughs is a happy with his blood loaded with impurities. The remedy which all can depend upon for every vitiated condition of the blood is Dr. Bull's Blood Mixture.

County Judges. The members of the Rock Island county bar, some two weeks since, held a meeting in favor of choosing a lawyer for County Judge, and, since then, have issued an address to the people, setting forth the reasons for their action. Why we would not, as a matter of principle, urge the election of a lawyer, simply because he was a lawyer, to any office, we must recognize the fact that there are offices the duties of which are wholly judicial, and which none but lawyers, and eminent ones too, are, from education, training and long practice, qualified to fill. For instance, when a judge of the Supreme or the Circuit court is to be chosen, nobody thinks of going outside of the legal profession for a candidate. There may be men in the district eminent for education and natural abilities, who would be preferred to lawyers for many other offices, but they have not made law a life study, and they must do that, and become eminent in the legal profession, before the people would be willing to elevate them to the position of judge of the Supreme or Circuit Courts.

When County Courts were first organized in this state, they were made up of probate, the recording of wills, appointment of administrators and executors, and other things of a similar nature, embraced the scope of their duties, to discharge which did not occupy more than two days to a month, nor require more legal knowledge than for a justice of the peace. Since the adoption of the present constitution the jurisdiction of county courts have been enlarged at every session of the legislature, until now we have a court with twelve probate and four law terms each year, with jurisdiction in all civil cases involving one thousand dollars or less, and in all criminal cases not involving imprisonment in penitentiary; a court hardly second to the Circuit Court in its scope of business, and designed to take from that court more than half the cases that have been taken there; a poor man's court, as it were, where he can have his grievances redressed without the expense and delay incident to trial in the Circuit Court; and it is a question worthy of very grave consideration, whether any man, save one skilled in the profession and practice of law, can discharge the duties of County Judge with justice to the people and to himself.—*Alto record.*

## The Colored Man in this Country.

From the Chicago Times. The traveler of a conspicuous New York journal who was detailed to examine and report upon the progress which Sambo has recently made in civilization, comes to the conclusion from all facts that he can gather that the southern negro is gradually regressing into the condition of barbarism. As the statement implies that the southern negro has, at some period of his existence, advanced out of the barbarous condition, the question arises, how far he must recede in order to get back to it. The average American supposes that there is a difference, in respect of civilization, between the negro as we see him in America and the negro as seen by Livingstone and others in Africa, corresponding in some degree to the difference between the modern European and the European of the time of Alaric and Barbarossa. But in reality there is no such difference. The average American who has receded but a little way to reach the social status of his kindred in Africa.

## Cease Racking the System.

With drastic cathartics and hurtful salivators, and use that rational and genial rectifier, Hostetter's Stomach Bitters, the success of which in the eradication of disease and the building up of feeble constitutions has utterly confuted the preposterous medical theories who insisted on the rationality of depleting the frame in order to restore it to health. Appetite, easy digestion, regular evacuations, a natural flow of bile, are as sure a result of the use of the finest of America's invigorants as increased loss of power and irritation of the system were of the old exhausting method. The new era of medical treatment inaugurated by the Bitters is indeed a happy one for the sick and feeble, for it has not only placed health within their reach, but saved them from the hurtful consequences of an absurd fallacy.

Legal Blanks, of all kinds for sale at THE ARGUS OFFICE.

## NOTES HERE AND THERE.

—Very dusty.  
—Very pleasant day.  
—A home ruler—the kitchen poker.  
—The silver question—Can you lend me a quarter.  
—Charley Ross has turned up again—this time in England.  
—Great men are scarce, but there are many great grandchildren.

—All our merchants report business as having been very dull since the Fourth.  
—Some one says that Russians sleep in their clothes. We should think it would spoil their nap.

—Travel over the Chicago, Burlington and Quincy road has been very heavy thus far this season.  
—The Michigan Central has made three reductions in the wages of its employees during the past year.

—Col. Blood, who fell a victim to rotation under the Woodhull code, is practicing medicine in Memphis.

—George Wilson, in jail for vagrancy, was released to-day, his term of imprisonment having expired.

—A gentleman's horses, when they are running away with him, are "circumstances over which he has no control."

—A quarterly dividend of 2 per cent, payable August 1st, has just been declared by the Chicago & Rock Island Railroad Company.

—At a meeting of the Directors of the Davenport Plow Co. Monday night, an annual dividend of 10 per cent was declared, payable July 15th.

—The Rev. Mrs. Van Cott wants somebody to "stand on the battlements of hell and shake her glorified white robes at old Satan." Why, your dear old girl, Satan isn't afraid of an empty nightgown.

—Reports from above are very encouraging to saw mill owners. The rivers are all rising, and the prospect is that enough logs can be run out to keep the mills going until the close of the season. Hope so.

—The city clerk is busy collecting water rent. Yesterday was the last day of grace, and the superintendent was around to-day shutting off the water from all who have not paid up. That's right—but no partiality should be shown—no matter who it is.

—It is now reported that the Brazilian mission will be tendered to Gen. John A. McNulta, of Bloomington. McNulta ran as the republican candidate for congress, in 1874, in the 13th district, having already served one term in congress from that district. He was beaten by Hon. A. E. Stevenson, the democratic and independent candidate.

—Notwithstanding the hard times, the hot weather, his duties as engineer on the ferry boat, his anxiety as a large tobacco merchant, and his occasional attacks of rheumatism, Bob Solomon, this morning, became the astonished father of a bouncing boy. P. S.—Please add one more boy to the family. Bob, all we can say is, "Well done." Bobbitherein (anybody on the ferryboat) "gohomebetter."

—The Douglas monument commissioners, consisting of Judges Drummond, Trumbull, Canton and Frieley, and Messrs. Potter Palmer, M. W. Fuller, R. T. Lincoln and Ralph Plumb, met in Chicago last Friday and instructed a subcommittee consisting of Messrs. Lincoln, Trumbull and Frieley, to prepare a report on the work except the statue, and after a careful examination of the same to advise for proposals to do the work.

—Louis Tappe, aged 13 years, son of Fred Tappe, of Muscatine, was drowned Monday afternoon while bathing in the river near the levee. He was wading into the water, got beyond depth, and sank. The body was soon recovered, but life was extinct. The funeral took place Tuesday afternoon. On Friday evening last, a young man named Danl. McAllister was drowned while bathing at Burlington.

—Miss Ada C. Sweet, Illinois' pretty pension agent, accompanied by Mr. Pierce, an assistant, reached the city Saturday evening. They are taking possession of the books, papers, and other government property in the pension office here, and to-morrow the Springfield agency will be numbered among the things that were, but are not. They have already taken possession of the Quincy office. They go from here to Salem, to accumulate the office at that place.—*Springfield Register.*

—On Tuesday morning there were two fires in Davenport—one on the corner of Seventh and Tenth streets, and another on a family named Beck, which was damaged to the amount of \$1,000—but covered by insurance. The other originated in an old frame dwelling at the corner of Seventh and Marquette, communicating to Mr. Adam Weigand's residence 632 Marquette. The same was burned almost before the department arrived and they turned their attention to Weigand's house, but before extinguishing the flames the roof was burned and the interior of the upper story partly. Most of the furniture was saved, but much of it damaged in the water, got beyond depth, and sank. The body was soon recovered, but life was extinct. The funeral took place Tuesday afternoon. On Friday evening last, a young man named Danl. McAllister was drowned while bathing at Burlington.

A VALUABLE MEDICINE.—Buchu in various forms has for many years been one of the chief articles in the Materia Medica for the treatment of certain diseases, among which are chiefly those affecting the urinary, digestive, and circulatory organs. The difficulty that was long experienced in obtaining a preparation of this valuable drug that could always be relied upon for uniformity in strength and absolute purity led to the introduction of Helmbold's Extract of Buchu, which for the last quarter of a century has been extensively used both by physicians and in house and family practice, and with very gratifying success. This medicine, like every other valuable thing, has been imitated, and those who have used it will do well to see that the obtain the genuine "Helmbold Buchu," the only pure and reliable preparation.

## WHITE LEAD.

Pennsylvania White Lead Works. The Original "B. A. FAHNESTOCK LEAD."

In 1844 the B. A. FAHNESTOCK & CO., brand of White Lead was first offered to the trade, and was soon acknowledged as the STANDARD FOR PURITY, WHITENESS, COVERING PROPERTIES AND DURABILITY, which position it still maintains. On January 1st, 1896, the brand was changed to "FAHNESTOCK, HASLETT & SCHWARTZ," which change was considered necessary to protect purchasers against imitating and closely resembling brands. NOTICE—Having recently entered largely into the refining of Pig Lead, our Patrons will hereafter in order to avoid confusion and insure prompt attention to orders and inquiries, please address to O. F. WELLS & CO., Pittsburg, Pa., all communications relating to the FAHNESTOCK, HASLETT & SCHWARTZ and "PENNSYLVANIA WHITE LEAD COMPANY" brands of White Lead, Red Lead, and all products of the PENNSYLVANIA WHITE LEAD WORKS. PENNSYLVANIA LEAD CO., J. E. SCHWARTZ, Pres't. Having, during the past year, increased the facilities and product of the PENNSYLVANIA WHITE LEAD WORKS, we are prepared to furnish promptly, either direct or through the leading Wholesale Dealers, the FAHNESTOCK, HASLETT & SCHWARTZ, PERFECTLY PURE WHITE LEAD. We invite the attention of dealers to this brand with the assurance that the quality will at all times be maintained at its old standard of strict purity and excellence. C. F. WELLS & CO., Office 45 Fifth Avenue, Pittsburg, January, 1897. For Sale in Rock Island by JOHN BENGSTON; and in Davenport by Dessaint & Nutting.
