washher is so cold that Coristians can't live tore."

The Forthcoming Annual Message.

Washington City, Nov. 2.—A dispatch to The Now York World, referring to the forthcoming presidential message, says the administration will take very positive ground upon the financial question. Mr. Jordan and Mr. Manning will recommend in their reports the su-pension of the silver coinage. The president will indore their views. Mr. Jordan will be able to show in his report that \$45,000,000 has already been lost in the attempt to force silver into circulation. It is understood that the policy of the treasury will be against any further calling in of bonds. It is hell that it is not good financiering to reduce the national debt which bears interest of only 8 per cent. When the current rate is 6.

immediate delivery stamp will receive the same treatment as a letter.

If I low a should go republican this time, the shouters of that party will call it a rebute for the administration.

SENATOR BELLA, of Peoria, was tendered the workingmen's nomination for mayor, but declined. He very properly thinks that the interests of the workingmen are identical with the democracy.

Second Letter from an Illinois Lady,

CONFIRMING A REMARKABLE RECOVERY.

SEYMOUR, Champaign Co., Ul., June, 1885 I want the public to know how I have improved under the treatment and by the advice of Mrs. Dr. Keck. To the surpise of friends and neighbors I am up and doing a part of my house work, after so many years of inability to do anything and so much suffering. Can be up all day without lying down to rest even; those terrible bad feelings have nearly all left me; I am fleshier than ever in my life before, have a good appetite, and feel as though life is worth the living; I am not traubled any more with that cold clammy sweat and have no more long, sleep-less nights, but can go to sleep as soon as I retire, and sleep well all night. I took the trian at Seymour and went to Champaign to see Dr. Keck, a short time ago, returning home the same nay, and walked from the depot an eighth of a mile to our house; this was a great thing for one who had for years been pronounced hopelessly incurable. Mrs. Keck being the only one who gave me hope. People whom have not seen during the years that I was confined to my bed now stare at me as they weuld one from the dead. I carnestly advise the afflicted to go to Mrs. Keck, and by following her advise implicitly, as I have done, they will, without doubt, be greatly benefitted.

Respectfully. Mrs. WM. Anderson. nearly all left me; I am fleshier than ever in my life before, bave a good
