An invitation is extended to all who can to hear him. Police Points. Yesterday morning several of the residents down along Second avenue in the vicinity of Eleventh and Twelfth streets found that on the previous evening they had been bothered with some one pilfering flowers, etc. A step-ladder and porch chair were also missed and the facts were reported to Chief Sexton. The latter detailed Officer Ryan on the case, who afterward reported some matters to his chief which resulted in the latter going to a residence down on Fourth avenue and finding the missing articles. The woman was in trouble only a short time ago and was not arrested this time, as the facts surrounding the last occurrence seem to leave a doubt in the chief's mind as to whether the actions are with a view of personal gain or rather an affection of kleptomania. If the latter it is indeed a misfortune. R. Graham, the "seen" man whom Chief Sexton picked up while working the Rock Island train on Thursday morning, has been fully identified by Mr. Wilford, of Muscatine, as the man who tried to work him. Graham was given 30 days in Davenport on general principles, while the matter is being looked into further. The Square Drinking Fountain. ROCK ISLAND, May 19. EDITOR ARGUS.—I noticed in your paper a few days ago a reference to the lack of water at the drinking fountain in Spencer square. I have also been inquired of by many people why we have no water to drink. At the opening of the season I requested the plumbers to turn on the water; for some reason or other they have been unable to give us water with sufficient force, although they have made repeated trials. Whether the pipe is stopped by scales or whether the change in the well at Mitchell & Lynde's block is the cause I don't know, but I do know the lack of water is regretted by hundreds of men, women and children. I think the city ought to pipe the water to the fountain through lead pipe, then there will not be any danger of scales. The artesian water does seem to affect iron pipe, but I can assure the people I have done all I could to get the water, and earnestly hope that the water department of the city or some other good citizen will come to our relief and give us the water again. WILLIAM JACKSON, Park Commissioner. River Ripect. The boats down were the Irene D and Sam Atlee. The Verne Swain made her regular daily appearance. The stage of the water at noon was 12.70; the temperature 77. The Verne Swain takes an excursion up the Hennepin canal tomorrow. The Inverness and Irene D each came down with eight strings of logs. Capt Blair, of the steamer Silver Crescent, is in possession of some papers, which to him are particularly valuable as relics and are interesting to anyone who cares for antiquaries. They are bills of lading found in the old Richey house, which overlooks the river at Oquawka, and which has recently been undergoing repairs. One consignment is made to the steamer Adventure and Keel and is from St. Louis, the goods be-billed to S. Phelps at Oquawka, the date being Oct. 10, 1836. Schnell Club Attention. All members of the Schnell club are requested to meet at the club rooms tomorrow afternoon at 1:30 sharp to participate in the dedication of St. Mary's school. By Order of Committee. The Weather Forecast. For the next 36 hours, continued fair weather, slightly colder, winds southwesterly.

Liability of Chicago Hotel Men. Travelers may be interested in the news to the effect that Theodore Bendit, a New York drummer, has recovered a judgment of \$40 against the Palmer House of Chicago for a coat and overcoat which were stolen from his room. Mr. Bendit brought his suit as a test case for the benefit of commercial travelers who have to stay in Chicago. It has been a well settled principle of law in most of the states for a long time that hotel keepers were liable for the loss or theft of a guest's wearing apparel, provided the guest himself was not at fault or guilty of negligence which led to the loss or theft. Indeed, in New York state this principle has been so broad that the legislature has seen fit to restrict it, presumably on account of the heavy damages several times recovered against hotel keepers prior to 1883.

Around the World on a Wheel. Thursday morning Thomas G. Allen of Ferguson, Mo., and William L. In their tour the cyclists crossed the Chinese empire from east to west, a distance of 32,000 miles, and are the only white men who have accomplished this feat since Marco Polo in the thirteenth century.
