MACHINERY MOVING.

The Rock Island Plow Company Resumed this Morning.
The Rock Island Plow company started its machinery this morning after the summer shut down, giving employment to 250 men. All the departments have been started but the paint shop and it will most likely start in a day or two," said Superintendent Kerns to a reporter this morning. "The foundry department has 25 moulders, besides the other labor employed. The force will be increased steadily as business picks up until the works are running full force again."

The Local Packets.

The latest improvement Capt. Streckfus has made in the Verne Swain is an equipment of the boat with incandescent electric lights. The dynamo which furnishes the light is one of the latest pattern, being so arranged as to furnish incandescent and search light. The cabin, upper decks and engine room are now all provided with incandescent jets, and a wire is laid so that when the barge Little Verne is in use, it too, can be illuminated. There is no boat on the Mississippi better suited for the trade than this one, and its master deserves full measure of credit.

The Silver Crescent, in the Rock Island, Davenport and Burlington trade, has made a better showing than last years, even though general conditions of trade have not been as good. There has been a fair amount of travel, and freight shipments have been excellent. They have yielded a good revenue. This may be partly accounted for by the scarcity of Diamond Jo boats on this part of the river, but more largely on the ground that the people are learning how to make use of a regular tri-weekly packet.

As the Chicago Drummers Do.

Since Monday, Oct. 9, the traveling man from Chicago has an additional air of greatness. He has always been noted for that peculiarity which has made the World's fair city known the country over as the windy city. When a man walks to a hotel register he can be spotted at once if he hails from that municipality. He always comes in with a rush, drops his grips with a bang, shouts "hello" to the clerk, grabs a pen and writes his name with a John Hancock flourish and an air of importance. Now, instead of putting "Chicago" on the register he simply writes "John Smith, 75,000." The Chicago drummer is nothing if not original and purely American.

Ask Your Friends

Who have tried Hood's Sarsaparilla what they think of it, and the reply will be positive in its favor. Simply what Hood's Sarsaparilla does, that tells the story of its merit. One has been cured of indigestion or dyspepsia, another finds its indispensable for sick headache or biliousness, while others report remarkable cures of scrofula, catarrh, rheumatism, salt rheum, etc.

Hood's Pills are purely vegetable.

Dramatic.

Tomorrow evening at Harper's theatre the representative American actor, A. W. Fremont, will appear in his sterling dramatic success, "777", a play with so much of interest and romance clustering about it that to see it is to remember it always. Those who had the good fortune to witness the production last season will not fail to do so again, and they will testify to its popular merit.

That Joyful Feeling

With the exhilarating sense of renewed health and strength and internal cleanliness, which follows the use of Syrup of Figs, is unknown to the few who have not progressed beyond the old-time medicines and the cheap substitutes sometimes offered, but never accepted by the well-informed.

Pele's Hair.

One of the most singular products of Hawaii is a vitreous lava known as "Pele's Hair." It is a silky, filamentous substance, olive green or yellowish brown in color, soft to the touch, but very brittle. It is produced by the wind catching the fiery spray thrown up from the great crater of Kilanea (which the Hawaiians long since personified as the fire goddess Pele), but the real cause of the lava forming into such soft, silky fibers is believed to be the gas and steam escaping through the lava. Nearly all of the native birds of Hawaii use it as a nest-building material.

Thackeray's Opinion of Publishers.

Sixteen London firms are accused of having declined "Vanity Fair," for which Thackeray poured out the vials of his wrath upon them in "Pendennis." Calling on a publisher once, Thackeray waited with a friend, who told the story. The carpet of the drawing-room was of a gaudy design of red and white. On the host appearing the author of "Vanity Fair" said: "We have been admiring your carpet. It is most appropriate. You wade in the blood and brains of authors."

A Different Thing Altogether.

An English lawyer, Mr. William Willis was once rather amusingly interrupted in a speech. In addressing a political meeting, Mr. Willis found an opportunity of referring to Charles Dickens' character, Barkis, and of exclaiming "Barkis is willin'!" "No, no," shouted a workman in the audience; "it ain't 'Barkis is willin'!' but 'Willis is barkin'!'"
