Doctor Advised Use of Lydia E. Pinkham's Vegetable Compound

Happy Results in Both Cases

St. Joseph, Missouri. — "Both of my sides swelled and hurt me so that I could not move or do any of my work. There was heavy pressure and pains through my lower organs and the doctor told me to try Lydia E. Pinkham's Vegetable Compound for these troubles. He said I had this one chance, and if the Vegetable Compound did not help me nothing but an operation would. After taking several bottles I felt it was helping me and now I am able to do my own work. If my testimonial will help others I shall be glad for them to read it and hope your Vegetable Compound will do them as much good as it did me." — Mrs. Wm. Lockman, 513 N. 4th St., St. Joseph, Mo.

Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupify the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician.

Everybody has read the above headline; how many believe it? Have you a little-one in the home, and has that dear little mite when its stomach was not just right felt the comforts that come with the use of Fletcher's Castoria? You have heard the cry of pain. Have you heard them cry for Fletcher's Castoria? Try it.

Just help baby out of its trouble tomorrow with a taste of Castoria. Watch the difference in the tone of the cry, the look in the eye, the wiggle in the tiny fingers. The transformation is completefrom pain to pleasure. Try it.

You'll find a wonderful lot of information about Baby in the booklet that is wrapped around every bottle of Fletcher's Castoria.

This is one of many intimate anecdotes of his long connection with the royal family told by Ernest Brooks, O. B. E., the accredited royal photographer, in the Strand magazine. Queen Mary's favorite portrait of Princess Mary reveals something of the king's tastes in regard to feminine fashions. When claimed the first boy, and this closed Mr. Brooks showed the king the first print, his majesty raised an objection to the width of the panniers on either side of the princess' frock and ordered him to have them taken out of the negative.

Mr. Brown walked proudly out. They couldn't fool old Brown.

But old Brown had fooled himself.

Brown's day was heavy and dull. He lacked "pep." There was a mid-afternoon drowsy spell when he needed to be awake-the direct and natural result of heavy, starchy breakfasts and lunches, taken on faith and without question as to value—just because the food looked and tasted like food.

Thousands of shrewd business men who count their change, take their food for granted.

That's what builds up the sanitarium business, and puts the tired "all-done" feeling into the midafternoon of a business day.
