cate person can use Dr. Miles' Nerve and
Liver Pills. 50 doses 25 cents.

SEABREEZE

Recent meetings have been held for a consideration of a future hotel on the site of the ill-fated Clarendon. From authentic reports it seems to be generally understood that negotiations for its reconstruction will be only a matter of time. The loss of the Clarendon has been read everywhere with profound regret. Capt. Frank Stone, of Rhode Island, writes to know something concerning the fire at Seabreeze. It will be remembered that he and wife spent several weeks here last year, when he purchased a lot and built an attractive cottage near the Clarendon, and it, like all the other buildings, fortunately escaped. They will not be here this winter, but expect to spend next season in the city.

Mr. Hart, who has been quite ill, has almost recovered, and is able to be walking around again.

Mr. R. C. Mansfield, of Winchester, Ky., who owns a nice orange and grapefruit orchard adjoining his cottage here, has some very fine specimens, which are hanging in magnificent clusters on the boughs and are daily admired by the tourists.

Messrs. C. H. Kenney, C. Jackson, E. E. Johnson and J. L. Wilcox enjoyed a short cruise on the Halifax Sunday.

Mr. Jno. Robarts, the famous hunting guide, returned this week from a trip above Ormond, where he went in search of "bars."

Miss Mae Finley will leave shortly for Tampa, for an extended stay.

We are currently informed that contracts for twenty cottages have been given to be built in the summer.

Capt. George Finley is contemplating building a store on his property on Bath street.

Mr. Shoemaker and family will remove to one of Mr. Silas Hubbard's cottages next week, where they will reside in the future.

Mr. E. E. Johnson has about completed the recent enlargement of the Stewart cottage on Valley street, now owned by Mr. and Mrs. Jones, who after a pleasant winter spent here last year, returned and purchased property.

A merry coterie of boys and girls from Daytona charmingly surprised Mr. and Mrs. Shoemaker one evening last week, by chartering the auto bus and alighting at their home, where an enjoyable evening was passed.

GET A BUSINESS EDUCATION.
Every young man in Florida should get a thorough training in the fundamental principles of business. No matter whether you have prospects of an "easy time" or not. You will be called upon sooner than you think to perform the duties of a business man, and you must be prepared. A few months spent under the careful training of skilled teachers will give you a wider and a clearer conception of business affairs, and you will become interested in that which seemed dull to you before. The best equipped college for technical training is at Tampa, Fla., known as the Tampa Business College. 2-19

Prime Numbers.
It might appear at first that every number can be divided by some number besides itself and 1; but many numbers cannot, and if they cannot they are known as prime numbers. Of all the numbers having a value of less than 1,000, there are 169 that are prime. Of these 26 are smaller than 100, 21 appear between 100 and 200, 18 between 200 and 300, 16 between 300 and 400, 17 between 400 and 500, 14 between 500 and 600, 13 between 600 and 700, 14 between 700 and 800, 15 between 800 and 900 and 14 between 900 and 1,000.

SEARED WITH A HOT IRON.
or scalded by overturned kettle—cut with a knife—bruised by slammed door injured—by gun or in any other way—the thing needed at once is Bucklen's Arnica Salve to subdue inflammation and kill the pain. It's earth's supreme healer, infallible for Boils, Ulcers, Fever, Sores, Eczema and Piles. 25c. at all druggists.

Mother—Your penwiper has never been used at all.
Little Johnny—Don't need it. My new pants is black.

WHAT OTHERS SAY ABOUT IT
Many of the best people in Tennessee and adjoining states recommend St. Joseph's Liver Regulator as being a splendid laxative and liver medicine. Its occasional use will keep the system in good condition, thus assisting nature to establish good health. It will remove the bile and effete matter from the system, and, as a rule, Nature "will do the rest." Try it. It is well endorsed. It is made in both liquid and powders. Druggists and dealers sell it, liquid, 50 cents a bottle; powders, in tin boxes, 25 cents a box

LAKE HELEN.

Mr. and Mrs. Fred Seele, of St. Louis, Mo., spent part of last week with their cousins, Dr. and Mrs. Zanders. They were returning from a trip down the Indian River, which they made in a private launch belonging to a friend. They met the gentleman by appointment in Jacksonville and visited most of the East Coast towns as far down as West Palm Beach, living on the boat meanwhile. This is certainly an ideal way to travel in this State and beats whirling through the State in a hot, dusty train, catching mere glimpses of stations and edges of towns. How often, tho', tourists whirl thro' the State in this way—doing the whole thing up in a couple of weeks and then returning north to tell their friends that Florida is nothing but sand and razor-back hogs; that they never saw a flower, that they had to pay more for oranges than at home, and that they wouldn't live here, if we should give them the whole State. Well, we don't want them—not that kind. They are a detriment to the State.

Messrs. Carlton, Cotton and Kramer, of DeLand, accompanied Mr. Blocker to Lake Helen Sunday morning. The whole party dined at the Harlan after church.

Mr. and Mrs. Ellis Blake left for Coronado Monday. They will remain only a short time.

Seventeen guests dined at the Harlan on Sunday, including a party of four from Orange City and four from DeLand.

Quite a number of guests are expected at the Harlan next week, to remain a month.

Mr. and Mrs. Williams, who came over from DeLand to visit our quiet little town, are so delighted with the place that they contemplate having a winter home here. They will be warmly welcomed.

Mr. Jim Andertan, of Fernandina, is spending a short holiday in town, the guest of Miss Corrine Pelton.

Mrs. Will Todd entertained a small party of guests Thursday evening. There is no doubt about their being congenial spirits, for there was not a quiet moment for hours—each and every one contributing to the merriment with stories, jests, recitations, songs and dancing, and the evening's pleasure ended with a good old-fashioned Virginia reel, danced to good old-fashioned music.

Mrs. Arthur Pelton entertained Dr. and Mrs. Gillette and daughter and their guests, Mr. Noble, Monday evening.

A crowd of our young people attended the masquerade at the camp Thursday evening. Of course they had a good time.

Mr. John Day and wife, Mr. Guy Shannenhoe, wife and babe, and Mr. Arthur Wakefield and wife, Messrs. Jay Sheldon, Geo. Race and Sim McIntyre spent a day at Blue Springs last week. They had a glorious picnic—killed two snakes ate more than they ought to, and brought home a beautiful coat of sunburn—but no sand-fly bites.

Mr. Loring Mace has taken his fine launch to the St. Johns River.

Word was received here tonight of the death of the mother of Mrs. John Hurst, in Brooklyn.

Mr. Mace's packing house is open for a few days work, getting off some late oranges.

Mr. Brazeau has recently shipped the fruit from his fine grove, which has been admired by all the tourists in town, as it has been about the only one in which the fruit was allowed to hang until it reached maturity.

Messrs. Bond, Caissaman and Sherman enjoyed a trip to Glenwood Sunday, in Mr. C.'s beautiful white car.

Mrs. Virginia DeRieux delighted her host of friends in this city by coming over from Chaudoin Hall for a ten days visit recently.

An important event that deserves chronicling is the advent, February 6, of tiny Miss Georgia Marguerite Webster Jeffreys, at Hotel Webster.

Miss Burkle is furnishing customers with ripe strawberries. Her strawberry bed is the admiration of all passers by.

Miss Mamie Buzzell, Mesdames Hayden, Crowley and Buswell returned Friday from a most profitable visit to the State Fair. They say that they saw twelve varieties

of fruit of which they had never heard.

Mrs. Noble has held herself in readiness for a hasty trip to Connecticut because of the serious illness of Mrs. Mason Noble, whose condition has improved, however. Dr. Babcock has improved his tenement house on his farm by adding new porches.

Stereopticon entertainment at Congregational church Saturday evening. National Yellowstone Park. Sunday evening, views of China. A plate collection will be taken.

At the February meeting of the Womans Improvement Association the following were elected for the ensuing year: President, M. A. Noble; Vice-president, Eliza Westlake; secretary, Irene G. Adams; Treasurer, Emma Todd.

The public school presented an interesting program in honor of Washington's birthday on the 22nd inst.

Mace and Son and E. G. Blake have finished gathering and shipping their mammoth crop of citrus fruits.

Mrs. Chas. Abbott, of Jacksonville, is ill at the home of her parents Prof. and Mrs. Westlake.

In Circuit Court Seventh Judicial Circuit of Florida, in and for Volusia County. In Chancery.

Emerson Bedell, Vs. Alice Powell, Ella Powell, Mellie Bedell and Anna Bedell—Notice to Non-Resident:
