

Start Drive For West Side Sport Center

Planned As Means To Stop Delinquency

A campaign to procure sufficient funds to establish a community house for the children living on the West Side, was launched by the West Side Human Relations Council at a meeting held Monday in the Nacrena Club, Thirtieth and Millford.

The drive, according to Mrs. Cornelius Henderson, chairman of the meeting Monday night, will continue throughout Nov. 27, and the goal has been set at \$1,000. Twenty-five members have signed to solicit funds during the next four weeks.

The Rev. John Miles, president of the council, recently declared that delinquency had increased in the community because of lack of proper and adequate recreation for the youngsters. This, he stated, could be eliminated by the establishment of a community house in the district between Livernois, Grand River, Tireman and Warren.

Burgess Whitehead, Giant Player, Named As Striker Of Woman

Burgess Whitehead, star second baseman for Bill Terry's New York Giants baseball team and a Phi Beta Kappa student while attending in the University of North Carolina, faced a preliminary hearing Tuesday on charges of assault and battery preferred by Hazel Grimes Alston, local housewife.

According to Mrs. Alston, she was walking along the street in front of a local drug store two weeks ago when she passed Whitehead, who was cursing, and went into a dime store. The athlete followed her and asked if she passed his car. Mrs. Alston told him she passed many cars. Immediately, Whitehead struck her in the eye and she fell to the floor. When she arose, he struck her again and knocked her down. Going out the door, he told her "call a cop and see if I care."

When a warrant was obtained, it was learned Whitehead had left the city immediately after the alleged attack. He was arrested in Durham where he posted \$150 for a court appearance. Mrs. Alston's attorney, T. T. Thorne, is planning on filing a civil suit for \$5,000 against the second baseman.

It was understood Whitehead was on a shopping trip in Rocky Mount from his home in Lewiston where he spends the off season. When he was convalescing at a local hospital two years ago following an operation which kept him out of the Giants' lineup that season, he received the sympathies of colored as well as white. He is well known in this community.

TALK ABOUT HOUSING

The picture shows Reuben Patton (left), and Julius Johnson (right), conferring with Edward J. Jeffries, mayoralty candidate, relative to improvement of housing conditions on the lower East Side of the city.

The Wayne County Negro Voters' Association Swings To Jeffries

By WILFRED NEWMAN

One of the most significant events of the mayoralty campaign is the swing to Edward J. Jeffries, Jr., by the Wayne County Negro Voters' District association.

Having one of the largest memberships of Negro political organizations, the Wayne County Negro Voters' District association, hitherto, had been supporting Mayor Reading for re-election, and was generally considered the backbone of this Negro support.

This surprising move on the part of this organization has done, in the opinion of many Negro politicians, irreparable damage to Mayor Reading's campaign.

The move is generally considered as a desire of the leaders of this organization to keep in harmony with the feelings of the rank and file members, who were proven by the Primary election returns to be strongly pro-Jeffries.

The president of the Wayne County Voters' District association is James H. Peyton.

James Garlick Seeks Council Seat On Mark Of Fairness To All

James H. Garlick, prominent Detroit business man and civic leader, who won the nomination for a place on the Detroit City Council in the recent primary election, has a record of fairness to the colored citizens of the City of Detroit.

Garlick is the owner of a jewelry store located on Griswold at State street, which has a great deal of colored trade and in return for the business of the colored citizens, Mr. Garlick has always employed one or more colored persons in his store.

Thomas Swaine, well known druggist, was in the employ of the Garlick firm for 15 years. At the present time, Elmer Herron is working for the Garlick firm.

Garlick, a native of Ontario, Canada, is a Mason and a deputy grand commander of the Knights Templars. He has the support of many Negro civic and church leaders and expects to be elected to the council.

(Adv.)

Cut By Unknown Man

Willie Jackson, 18, of 985 Illinois street, was taken to Receiving hospital early Saturday morning with stab wound in the stomach which he charged was inflicted by a man who had approached him as he left his home. His mother and sister, Mrs. Ossie and Ruby Jackson, respectively, heard Jackson's screams and took him to the hospital.

Stabbed By Brother Whom He Was Taking Home Before Fuss

Alexander Smith, 38 is firmly convinced that some times this brotherly feeling does not pan out as it should have. At least he arrived at this conclusion following a serious accident which occurred Friday night.

Alexander was taking his brother, Norselle, 35, to his home at 449 Erskine. Evidently Norselle did not want to go home. Any way his actions would lead one to this deduction. Norselle, as a means of persuasion, cut his brother on the face and throat and then stabbed him in the abdomen. He escaped.

Police charge that their records prove Norselle had only recently been released from prison where he had been serving a term for murder.

New Traffic Court Rules Before The Voters

An Amendment to the original Traffic Court Act known as Traffic Court Amendment Number 3 will appear on the ballot at the November 7 election. This amendment seeks the establishment of an official and legal referee system in the Detroit Traffic Court.

Sponsors of the amendment, which include the Detroit Automobile Club of Michigan, the Detroit Tribune and various other civic groups, urge its adoption as absolutely necessary to the functioning of the Traffic Court, whose facilities have been taxed severely by the tremendous increase in the work of the court. It is pointed out that should the proposed amendment fail to receive the approval of Detroit voters the inevitable outcome would be the disruption of the entire structure of the Accident Prevention Bureau, which has been a leading factor in reducing traffic deaths in Detroit fifty-five per cent in the last two years.

The amendment would authorize the judges of Traffic Court to appoint efficient and capable referees to administer oaths, hear testimony and recommend punishment. Under the system proposed the judges would be able to concentrate on the more serious cases, leaving the adjustment of minor ones to the referees.

Without the referee system citizens charged with minor traffic violations would be forced to pass long wearisome hours waiting for their cases to be called and tried by the judges. Important cases have been delayed as a result of the clogging of the docket.

It is to correct this situation that the Traffic Court Amendment has been proposed. People of the city who have experienced the costly delays caused by the inability of the judges to hear cases on the date set should be vitally interested in voting for the adoption of the amendment and the ratification of the referee system.

Would Not Be Halted In Effort To Pass On To Job In Auto Plant

Efforts of strikers to prevent James Fulton, 34, of 2511 McDougall avenue, from going to his job at the Dodge plant where he is employed as a janitor, resulted in the cutting of Joe Vagella, of 4253 Humbolt avenue, Friday afternoon.

According to police reports, Fulton attempted to pass through the picket line when he was accosted by Vagella and others. Vagella allegedly grabbing Fulton by the arm, Fulton is alleged to have cut Vagella on the left shoulder.

Vagella was taken to Receiving hospital, and after receiving treatment, was released. He stated that he would not prosecute.

GREETINGS AND SALUTATIONS

To the man of the hour, Constable J. C. Horn of the Third Ward, has proven himself a most fearless public servant. He has handled his office, his duties and himself in a most effective manner. He has been a most valuable asset. Being a resident of Detroit for 20 years and a successful business man for 25 years, Constable Horn has gained the respect and cooperation of the masses. His affiliations are unlimited. We congratulate him for his past performance and sincerely hope he remains to do greater things. We are with you Constable Horn. "He is fearless—He is honest—He is fair." He fought and personally directed the fight in Lansing against the Baillif's Bill, also he financed many committee trips to Lansing to fight the "Baillif's Bill."

Constable J. C. Horn is a real fighter for his race.
