**MAGEE GRAND.**

It is the acme of perfection. Everybody should examine it who wants the best. It is on exhibition at our store, also at the World's Fair, Chicago. Baking is regulated by a patent automatic clock, thus doing away with opening the oven door to ascertain the right heat before putting in your baking. The water back is a new construction patented and will heat more water than any other plan ever invented. It has the patent Dock Ash Grate, which can be taken out for repairing without disturbing the linings or water front. This new range is made in many sizes by the Magee Furnace Co., Boston, Mass., and was produced after two years of preparation at an expense of ten thousand dollars.

Our easy payment plan to buyers of the Magee Grand Range. Five dollars down and one dollar per week.

**BOSTON'S LEAGUE LEAD**

Strengthened Materially by Taking Two Games

From Baltimore.

Boston, July 29.—Carroll's good catch  
in the last inning and his lucky hit in the  
eighth inning saved the second game with  
the Baltimore for the Boston yesterday  
at the South End grounds.

In the first game the Baltimore gave  
the Boston several runs by bad errors.  
And then Mutane got sulky and wouldn't  
try, and with his wildness and ineffec-  
tiveness at several moments the Boston se-  
cured an easy victory. The Orioles ran  
back in it after the sixth inning. Nichols  
pitched a very fine game.

**THE BUSINESS OUTLOOK.**

The Country Showing Great Strength and

Stability—Failures For the Week.

NEW YORK, July 29.—The hardest week  
yet has left the business world still able to  
rejoice in the soundness and strength dis-  
closed. Prices of stocks were greatly de-  
pressed Tuesday and Wednesday, closing  
lower than any day since January,  
1879, and the fall on Wednesday averaged  
over \$2 per share, and yet only two failures  
resulted, and those of brokers not espe-  
cially important. A sharp rally followed  
on Thursday with buying from London  
and by shorts, and especially significant  
buying by small investors. No banks  
help, or at other eastern cities and no eastern  
firms of large importance have gone  
down, but numerous banks failed at the  
west, including some of high repute and  
large business.

Failures during the past week number  
384 in the United States against 171 last  
year, and 23 in Canada against 22 last year.  
Only three failures were of capital above  
\$200,000 each, and only 99 of capital over  
\$500 each. Over 50 banks stopped during  
the week, but nearly all were at the west.  
Last week the failures in the United  
States numbered 457 and the previous  
week 374.

**A SENSIBLE LETTER.**

The Grand Army Commander Wishes No Un-  
necessary Expense Incurred.

MILWAUKEE, July 29.—It having been  
brought to the attention of Commander  
in-chief Weissert of the Grand Army that  
large sums of money were raised at In-  
dianapolis for fireworks and other means  
of entertaining the veterans at the national  
encampment, he forwarded the following  
letter to the chairman of the committee on  
arrangements in view of the depressed con-  
dition of affairs in the country:

While appreciating the generosity of the pa-  
triotic citizens of Indianapolis in preparing for  
the entertainment of the 77th national encamp-  
ment, G. A. R., which is to assemble for the  
third time in your city, and being to the great  
financial depression that prevails all over the  
country, and the distress and suffering that  
exists, and being likely to exist, on account of  
the closing of mills, factories and other places  
usually employing large numbers of men, it is  
my wish, and I am quite sure I speak the sen-  
timents of every comrade of the G. A. R., that  
no unnecessary expense be incurred for the  
entertainment of the veterans of the Grand  
Army and the representatives to the said na-  
tional encampment.
