BRYAN WILLINGHAM, STATE PRIZE WINNER IN BOYS' CORN CLUB CONTESTS FOR 1917, SETS THE PACE.

Columbia.-What one boy can do. another can do. There should be an American boy to match every German boy in producing food to feed the ar- red top canes or sorghums, excellent mies fighting at the front and the famflies of the soldiers left at home. In Germany the boys are working. On the farms in America, from which so many men have gone to take their places in the fighting line, there is a great opportunity for patriotic service for the farm boys not yet old enough to fight with a gun. Their weapons are the plow and the hoe.

Bryan Willingham, of Winnsboro, Fairfield cunty, first State prize winner in the Boys' Corn Club contest for 1917, has set the pace for the farmer boys of South Carolina. What Bryan Willingham has done, other boys in South Carolina can do.

Bryan is seventeen years of age. He has been a member of the Corn Club for several years. He has on more than one occasion won in his county contest. In 1915 he won a scholarship to a short course in agriculture offered by Clemson College. In 1916 he attended the short course, when he received valuable scientific knowledge of soils, plants and cultural methods. which, coupled with his practical knowledge, he has applied to his farming operations with marked success. He has learned well the importance of deep and thorough preparation of the seed-bed, the value of humus in the soil, and of good and well-selected seed. He has learned the value of commercial fertilizers and how to apply them for best results; the value of frequent and shallow cultivation, and the injurious effect of pulling the blades or fodder from the corn.

With these important principles well fixed in his mind, he started out with the determination of succeeding, and he did so, producing 157.8 bushels of corn on one acre at a cost of 17.6 cents per bushel. His net profit was \$287.75.

This being the best record made by any member of the Boys' Corn Club in South Carolina in 1917, Bryan Willingham was declared State champion for that year, and won as prizes rold medal offered by Hon A. Lever and an International No. 4, 6shovel pivot axle Riding Cultivator. value \$70, offered by the International Marvester Company., of Columbia.

The past achievements of this young farmer have fired him with a determination to do even greater things. He will continue in the club work in 1918, after which it is his purpose to attend Clemson College and take the complete agricultural sourse to fit himself for successful farming, which he proposes to make his life work.

Bryan Willingham's achievement should prove an inspiration to the farmer boys of South Carolina.

FARMERS URGED TO PLANT LATE CORN

Columbia.-After grain is harvested, every available acre of good land should be planted in late corn, says the Food Administration. The Conservation and Production Division of the Food Administration has secured, for the benefit of those who will plant late corn, expert advice.

Corn can be successfully grown, according to Clemson College experts, from Columbia to the coast when planted by the middle of June. There is yet time, therefore, if corn is planted after the grain crop is harvested, to add largely to the corn acreage in South Carolina, which is greatly desirable.

Only good land should be planted in late corn, however. The poorer fand can be made to produce food by planting cow peas and peanuts.

It is stated that it will probably not the wise to plant corn after grain in the Piedmont section, because of the shorter season. For grain lands in this section, cow peas, soy beans and peanuts are recommended.

NO REASON FOR HIGH PRICES ON WHEAT SUBSTITUTES

Columbia The Food Administration has sent out a warning to corn mifflers and to wholesale and retail dealers in corn, barley and oats prodacts that at the present prices of these grains cornmeal and oatmeal should be selling at least twenty per cent below the price of wheat flour and that corn flour and barley flour should be selling at least ten per cent below

wheat flour. The high levels ruling in grains as a result of car shortages and storm weather last winter have now fallen materially with much greater freedom of transportation and the stocks accumulated by manufacturers and traders at the prices ruling then should have been liquidated by this time. in the view of the Food Administration. The maintenance of higher price levels by millers and wholesalers will require justification to the State and local administrators, and although retailers are not under control, wholesalers will be instructed to cease dealing with retailers who cannot justify their prices on the Lasis 'of the cost of their goods.

We take this means of notifying our customers that on account of the shortage of labor we will not deliver Argoe, deceased, I will sell at pubice after June 1st. We will continue lic aucton at the late store of the to handle ice and keep a supply on deceased, near Boynton Academy on hand at all times, but purchasers will Tuesday, May 28, at 10 o'clock in have to call at our place of business the forenoon, the following personal for it. After June 1st the price will property-Stock of general merchan be 65 cents per 100 pounds retail; and dise, carpenters tools, two talking ma wholesale price \$1,50 for 300 pound chines, corn, etc.

## FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.— Mrs. Chas. Gaston, of this place, writes: "I am a user of Thedford's Black-Draught; in fact. it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Thedford's Black-Draught has been in use for many years in the treat-ment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious

Thedford's Black-Draught has been found a valuable remedy for these nervous system and furnishing troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Thed-ford's the original and genuine. E 79
