Teddy the Same Old Boy.

Senator Bard of California went to the White House the other day to present a constituent, "I want to in-troduce to you, Mr. President," he said, "a Rough Rider, who drifted out to California, Mr. James-"

The senator was interrupted in his little speech. "Hello, Jim," exclaimed the President, "when did you get here? I am certainly glad to see you." And he brought his hand down on Jim's shoulder with a resounding

"I want to talk with you, Jim," con-tinued the President. I want you to come up to lunch with me. And, by the way, Jim," added the President, "bring Bard with you,"

Compressed are for secret Cara.

Experts claim that compressed air will eventually be the power of the future, supplanting both the cable and the trolley systems. In all lines of industry we see constant improvements, but in medicine thore is one remady that cannot be improved on, and that is Hostetter's Stomach Bitters. It is founded on true merit, and will core indigestion, dyspensia, tatulency, constitution and nervousness also provent malaria, fever and ague. Try a bottle and estisity yourself.

It is as bad to slave at work as to slave at pleasure. But God may for-give what people cannot help,—

LATE WASHINGTON NEWS AND CONGRESSIONAL PROCEEDINGS

lations ordered a favorable report on the treaty to acquire the Danish West Indies. No amendment was made to

The Senate has confirmed the nomination of Medical Inspector Presley M. Rixey, U. S. N., to be called of the bureau of medicine and surgery in the navy, with the ranksof rear admiral, Also other naval promotions.

Secretary Long has detached Rear Admiral Wildes from his present duty as commandant of the Pensacola navy yard and ordered him to relieve Rear Admiral Louis Kempff, the junior squadron commander on the Asiatic station.

The House committee on labor has reported favorably the bill of Representative Bartholdt of Missouri to pre-vent the United States Marine band and other army and navy bands from competing with civilian bands or indi-

Unless there shall be a decided change for the better in the condition of the President's son before the end of the week, it is probable that Prince Henry of Prussia may be impelled to defer his visit to the United States until later in the year.

The House has passed the Lacey bill for the protection of miners in the territories. It provides that in every mine over 100 feet in depth, mine owners be required to provide 5,500 cubic feet or pure air for every fifty miners. It also provides that managers of coal mines shall employ shot firers.

Miss Octavia Wheaton, daughter of Major General Wheaton, retired, was married Monday to Frederick M. Mor-ley of Colorado Springs, at St. John's Church, Rev. Dr. Mackay Smith offi-ciating. Owing to a recent death in the groom's family, only relatives and a few close friends were present.

The Senate committee on pensions has authorized a favorable report on the bill increasing the pensions of Mexican war veterans. The bill applies to the survivors of that war who are pensloned or may be pensioned hereafter under the acts of 1887, 1891 and 1897. It gives each of them \$12 per month.

The House on the 7th passed the legislative, executive and judicial ap-propriation bill, the second of the reg-ular supply bills. As passed it carries \$25,171,969, which is \$503,721 in excess of the current law. Only two amend-ments of importance were adopted. One provides for a commission to re-district the legislative districts of Oklahoma, and the other authorizes the President, in his discretion, to cover into the civil service the temporary clerical force employed on account of the war with Spain. There are about 1,250 of these clerks still in the service. By the terms of the amendment the President must place all or none of them under the civil service.

President Roosevelt is said to be considerably annoyed at the outcome of the appointment of B, F. Daniels as marshal of Arizona. This appointment "Ef some men," said Uncle Eben, "war as kyahful bout what dey puts into deir stomatch as dey is about what dey takes out'n deir pocketbooks, dar wouldn't be nigh so much dyspepsia." sion. No action was taken in the mat-ter, it being understood that the Presat Cheyenne to obtain definite information concerning the alleged imprison-ment of Daniels in the Wyoming peniment of Dameis in the Wyoming pen-tentiary. Daniels' commission has been malled to him, but has not reached Phoenix, and by order of the President will not be delivered until the charges of penitentiary imprison-

ment are cleared up.
The House committee on colnage weights and measures on Friday heard representatives of leading manufacturers and business houses of the advisability of adopting the metric system of weights and measures. those heard were Prof. Elihu Thompson, of the General Electric Company Henry Troemer, an extensive manufacturer; Dr. A. E. Kimmerley, consulting engineer of Philadelphia, and Professor W. W. Crosby of the Lowell School of Theology. The sentiment was entirely favorable to the adoption of the metric system. The committee heretofore has secured the judgment of scientists on this subject and is now seeking to learn whether the practical

business world will approve a change, The President has approved, with one notable exception, all the recom mendations made by the army brevet board, of which General MacArthur was president, for the bestowni of the brevet rank upon all the officers of the army who rendered especially meritorlous services during the war with Spain and in the subsequent cam-paigns in the Philippines and China. The exception noted is the case of Theodore Roosevelt, who was awarded the brevets of colonel and brigadier-general for distinguished services at San Juan, Santiago. Under the law these brevets require the confirmation of the Senate, and the nominations have been made out for transmission to that body next week, but, as already stated, the list

will not contain the name of the Pres-

It is reported that John D. Long will shortly relinquish the portfolio of secretary of the navy.

The Senate committee on foreign reindies. No amendment was made to the treaty in committee.

Secretary Root has called the attention of Congress to the need of providing for the fifty companies of Philippine scouts, comprising about 5,000 men. A deficiency appropriation is required of \$515,000.

The Separa has a made to the property is on the corner of Fourteenth and G streets, one of the best locations in Washington, containing over 11,000 square feet and was sold for approximately \$18 per foot.

An extended speech on the pending Philippine tariff bill was delivered.

the Senate Friday by Mr. Morgan of Alabama. Speaking of the claims which had been made that there was no lawful government. In the Philippines, Mr. Morgan, with earnestness, and there is a government there, and he was glad to say, a very good government, suitable to the character of these people and the circumstances in which was found there. which we found them. It would advance the esteem of the Filipinos for the United States if they could have a delegate in Congress, as in the case of Hawaii, said Mr. Morgan. This, be thought, would be no violation of the constitution. Referring to the work of the Philippine Commission, their personality and their ability, he paid a tribute to the late President McKinley, who, he said, was the happiest man in the world in making selections of men for responsible position, who always could be relied upon to do the right thing at the right time and in the right way.

Representative Lucey of Iowa was given a hearing before the House com-mittee on irrigation in support of his bill making an appropriation for an ex-perimental irrigation system to be constructed at a place designated by the secretary of the interior. Mr. Lacey argued that irrigation under the proposed dual government system of state and federal control is an experiment. He thinks the government should se-lect the most favorable project and give it a fair chance, developing it slowly. He advocated the building up of national irrigation from the bottom rather than going up on a grand scale, as is proposed by the committee bill. He in-sists that mistakes will necessarily be made, and that it would be better to make them in one project than in many as it will afford opportunity to make corrections at small cost. An experi-mental system, such as his bill proposes, he says, can have the approval of the East and can probably pass, while the general bill, in his judgment, cannot get through the House.

Throughout nearly the entire session of the Senate Monday the Philippine tariff bill was under consideration, Mr. Turner concluded his speech begun Friday on the legal and constitutional phase of the Philippine question. He neld in the main that as the Filipinos had established an independent government in the islands prior to the falling of Manila, the United States, under the principles of international law, had no right in the islands. Mr. Turner re-ferred to the Philippines sedition act as not only unconstitutional, but as "A relic of barbarism too black even for the most despotic and tyrannical gov-ernment that now exists on the face of the earth." Mr. Patterson presented an amendment providing for the repeal of the sedition laws applied to the Philippines. Mr. Teller gave notice of an amendment declaring that it is not intended by the government of the Unit- ing I was a sore trial to everybody. I ed States to permanently annex the may mention that I was also very much Philippine islands as an integral part of troubled with scaly skin, and often the United States, but that it is intend-bolls. But one evening I noticed my ed to establish, with the consent and assistance of the inhabita; is thereof, a THE GENUINE ident has telegraphed federal officials government or governments suitable to their wants and conditions. Mr. Teller said he was not going to be disturbed by the unparliamentary and in-decent charge made against those who did not agree with the administration policy, that they are unpatriotic and have not the public's welfare at heart, "Because I stand here with words of sympathy for the Philippines," said he, "I am not guilty of treason, as has been charged against a senator in this cham-ber." Senator Foraker offered an amendment to the Philippine tariff bill providing that the rate of duty on Philppine products coming into the United States shall be twenty-five per cent, or the Dingley rates. The committee bil provided for a seventy-live per cent

> terstate commerce committee, has in-troduced a bill making a number of changes in the interstate commerce law, the most important of which are the following: Glving the Interstate Commerce Commission authority un-der certain conditions to fix railroad rates, legalizing pooling and abolishing imprisonment as a method of punishing offenses against the law. The provision with reference to the fixing of rates authorizes the Interstate Commerce Commission to hear complains of discrimination made against common carriers and directs that any definite order made by the commission after such hearing, declaring a rate, reg-ulation or practice to be just and reasonable, shall become operative, and be observed by the party or parties against whom it is made within thirty days after notice, Appeal to the United States Circuit Court and to the Supreme Court of the United States is authorized. Authority is given to the Interstate Commerce Commission to hear complains against the fairness of pooling arrangements and to make an order annulling the contract in the re-Alarming rumors were affont Friday spects found to be unjust and uniaw-to the effect that Admiral Sampson had ful. Worked His Chin.

The following anecdote of Lincoln has perhaps never before been in print.

"Speaking of gray hair puts me in mind of Bates—Attorney General Bates, you know—and of one of Lincoln's remarks. We were all going one day out from Washington to Tennally town-the President, Secretary Chase Mr. Bates, and myself—to see General McClellan review the Pennsylvania reserves. Bates' hair, I noticed, had retained its original dark color in perfect freshness, while his beard was almost as white as mine is now. It was an exception to the naual law, and I asked Mr. Bates, after he had spoken of the peculiarity, if he knew any especial reason for it. He said he didn't, but the President exclaimed, laughingly: 'Why, don't you know? It's because he uses his chin more than he does his head.'"—Alfred Mathews in The Era.

Cost of Philippine Officials.

Governor Taft gets \$20,000, and each of his four assistants \$15,000, while there are twenty-six other officers the Philippines who draw from \$4,000 to \$7,500 a year. In all there are 4,606 civil employes, not quite half of whom are Americans. The salary roll runs to over \$3,000,000, of which over twothirds goes to Americans. The cost of living is very high.

The Grand Junction Fruit Growers' Association is moving to find some re-lief from the depression which has fallen upon the peach industry. For two years they have been running an evaporator, but this scheme for utiliz-ing surplus fruit will have to be given up for the reason that the expense of drying is too much, on account of high-priced labor. Hesides the process is too slow to make much progress. They are now thinking about putting in a cannery and in this even the growers will have to accept the California schedule for ripe peaches and this ranges from \$4 to \$5 a ton according to the senson, It would seem, after all, peaches are not the thing on land that cost \$400 an acre-now that the bloom is rubbed off the business-and as a result but few more trees, if any, will be planted in the Grand valley for years to come. Still there are those over on the western slope who have unbounded faith in the peach of commerce and much planting will be done this spring, especially in Delfa county where the Elberta is so popular. There is, however, a great scarcity of Elberta stock.-Filed and Farm.

BEFORE HE TOOK VOGELER'S

He Could Not Touch His Wife's Dinners, and They Were "Fit

for a King." So writes our esteemed friend Mr.

Frank Chambers of 9 Bennett street, Chis vick: "For over two years I suffered agonies from indigestion and became reduced to a mere shadow of my stalwart self. I would return home from my business feeling so faint that I could hardly drag one leg after the other. My dear wife did all she possibly could to tempt me with dainty dishes, and as I entered the house i sniffed and thought: 'Oh, how good: I know I can eat that!' But alas! no sooner had I eaten a few mouthfuls, when I felt sick; severe pains shot through my chest and shoulder blades. my eyes swam and everything seemed black, I became alternately bot and cold, and got up from such a dainty dinner heartly sick of living, and feeling I was a sore trial to everybody. I wife seemed more cheerful than usual. I questioned her and found she had been reading a pamphlet she had received of men afflicted just as I was, and who had been cured by Vogeler's Com-pound. Said she, What gives me more faith in it is that it is made from the formula of an eminent physician now in active practice in the West End of London, so I am sure it is no quack thing.' 'All right, dear, let's have a bottle,' said I. After taking the contents of the first bottle, I felt very much better, and determined to give this remedy a fair trial, and I can pos-Itively assure you that a few bottles made a new man of me. I can sleep well, eat anything, and thoroughly enjoy life. I have told several of my rlends whom I knew were suffering the same as myself, and they all wish me to say that they are like new men. I sincerely bless the great physician who gave you the formula of Vogeler's Curative Compound, and also yourselves for making its virtues known to a suffering public."

The proprietors (The St. Jacob's Oil Ltd., Baltimore) will send a sample free to any one writing to them and mentioning this paper.

The Toronto Mail makes a claim that "if the tectotalers were counted it would probably be found that, in proportion to the population, they are more numerous in Canada than anywhere else in the civilized world."

The object of all government is to de-stroy the necessity of any government, by developing such a public conscience that no other force than that of con-science will be needed to protect the rights of man.—Lyman Abbott.

SISTERS

Use Pe-ru-na for Coughs, Colds, Grip and Catarrh-A Congressman's Letter.

Dr. Hartman receives many letters from Catholic Sisters all over the United States. A recommend recently received from a Catholic institution in Detroit, Mich., reads as follows:

Detroit, Mich., Oct. 8, 1901.

Dr. S. B. Hartman, Columbus, Ohio: Dear Sir--"The young girl who used the Peruna was suffering from laryngitis, and loss of voice. The result of the treatment was most satisfactory. She found great relief, and after farther use of the medicine we hope
to be able to say she is entirely cured."

SISTERS OF CHARITY.

This young girl was under the care of the Sisters of Charity and used Peruna for catarrh of the throat with good results as the above letter testifies.

SISTERS OF CHARITY

All Over United States Use Pe-ru-na for Catarrh.

From a Catholic institution in Ohio omes the following recommend from the Sister Superior: "Some years ago a friend of our in-stitution recommended to us Dr. Hartman's Peruna as an excellent remedy for the influenza of which we then had several cases which threatened to be of a serious character.

"We began to use it and experienced such wonderful results that since then Peruna has become our favorite medi-cine for influenza, catarrh, cold, cough and bronchitis.'

SISTER SUPERIOR.

Dr. Hartman, one of the best known physicians and surgeons in the United States, was the first to formulate Peruna. It was through his genius and perseverance that it was introduced to the
