## Foreign Aeroplane Motors Impress British Airmen

[Special Correspondence to the Herald] London, Nov. 15.—British airmen were impressed by the superiority of foreign motors for aeroplanes during the military competitions held at Salisbury Plain in July.

All of the aeroplanes which passed the test and others recommended for awards were equipped with foreign engines. Two of the foreign engines were failures and spoiled the chances of two aeroplanes of British construction, but on the whole the foreign engines were trustworthy and efficient.

The British engines in the competition showed improvement but are not yet capable of equaling the performance of the foreign motors.

The judges' report asserts that the importance of establishing first-class British air craft engine works cannot be overrated. It also points out that while there is a natural reluctance to flying in winds of "twenty" or thirty miles an hour when there is no object to be gained, such flights can be safely made by most machines of a good type.

That the London business man takes too much exercise is the starting assertion of a physician at the conference of hygiene for business men recently held here.

The city man is said to be too fond of rushing from the intellectual toll of his office to the strenuous golf links, one doctor stated that this practice is a fruitful source of neurosthenia. "It is simply draining your nervous system and energy by two taps instead of one," he said. According to this expert there is no relation between the size of the muscles and health.

Most of the delegates proached the simple life for city men, who were all too busy to attend the sessions of the conference.

All of the heavy artillery of the medical men was brought to bear against the business lunch, and the

## WOMEN SHOULD BE PROTECTED

Against So Many Surgical Operations. How Mrs. Bethune and Mrs. Moore Escaped.

Sikeston, Mo.—"For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl."—Mrs. DANA BETHUNE, Sikeston, Mo.

At these times, and I wish I could talk to every suffering woman and girl. I have taken Lydia E. Pinkham's Vegetable Compound for a very bad case of female trouble and it made me a well woman. My health was all broken down, the doctors said I must have an operation, and I was ready to go to the hospital. I had a letter from the doctor, and I was so weak I could hardly walk. I cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. ## PIONEER LAS VEGAS CITIZEN IS DEAD

B. F. Forsythe, Alderman of Meadow City and Well Known Old Timer, Passes Away at Advanced Age.

[Special Correspondence to the Herald] Las Vegas, N. M., Nov. 15.—Benjamin Franklin Forsythe, a member of the city council and one of the oldest residents of Las Vegas, passed away shortly after 1 o'clock last evening at his ranch on the Los Alamos road. Mr. Forsythe had been ill for a number of weeks and for the past several days had been unconscious.

Deceased is survived by his brother, Jesse Forsythe of Urichville, Ohio, who was with him when the end came. Mr. Forsythe had been a resident of Las Vegas since 1881. For a short time he was engaged in the carriage making business. He was probably best known as a member of the firm of Clark & Forsythe, which

operated a cafe and restaurant at Hollywood avenue and Center street, which was famous all over the southwest for the excellence of its fare.

Mr. Forsythe was a Mason, a member of the Knights Templar and of the Royal Arch chapter. He was also a member and past exalted ruler of the Las Vegas lodge of Elks. Always a staunch Republican, he was active in politics in both Mimbres county and the city of Las Vegas until illness forced him to take to his bed. Mr. Forsythe was the owner of considerable real estate in Las Vegas and vicinity and was rated a man of comfortable fortune.

## MRS. LARAMORE TELLS TROUBLES

Lady in Goodwater Describes Her Distressing Experience and Tells How She Was Finally Relieved.

Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia. I suffered misery after eating, and had terrible heartburn.

I thought I had to suffer this way as long as I lived, but when I began to take Theford's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned.

I speak a good word for Theford's Black-Draught whenever I have the opportunity.

If eating causes distress, we urge you to try Theford's Black-Draught. It cleanses the system, helps the stomach to digest its food, regulates the bowels, and stimulates the liver.

It acts gently and is without bad after-effects. Try it. Price 25c.

## TRAVELING AUDITOR TURNS DOWN SUGGESTION

Believes Change in Size of the School District Warrants Recommended By Educators Would Be Unwise.

[Special Correspondence to the Herald] Clevis, N. M., Nov. 15.—The following letter received by L. C. Morfeller, secretary of the county superintendent's section of the state educational association, will be of interest to association members:

Santa Fe, N. M., Nov. 13, '13. Office of Traveling Auditor and Bank Examiner.

Dear Sir:—Resolutions of your Association dated the 9th inst. received and same carefully considered.

Taking up your first resolution, I regret that I cannot see the wisdom of making any change in the form of school district warrants and size of book, therefore do not desire to appear arbitrary in the matter give the following as my reason:

The small-sized books when used are in many instances lost, thereby causing that particular district much inconvenience if at any time it becomes necessary to refer to past records.

Taking up the next, I have made careful inquiry and find that the large size, well bound, will cost about \$2.50 for four warrants to a page and 100 pages to a book; about \$2.50 for two warrants to page and 100 pages to a book, and about \$1.25 for one warrant and 100 pages to a book. These prices are based on one firm getting the contract for the entire county and the number of each district being printed thereon.

The large size books will be a record for years, and as a suggestion I think it would be a good idea for all school district superintendents to call in those books of the end of each term to verify the stubs with the warrants approved by him and at the beginning of each term send them out to the clerk of the board.

As to your second resolution, in general, I am willing to adopt the company of Albuquerque and recommend that the following changes be made on all new books ordered:

The balance, total, total receipts and total expenditures columns be one inch and all the rest three-quarters of an inch, and all columns unit ruled and the "to whom issued" two and one-half inches. By these changes I feel confident your record will be more easily kept, as it gives you more room to make your entries. Very truly yours,

HOWELL EARNEST, Traveling Auditor and Examiner.

## THE whole doctrine of Devoe Lead and Zinc Paint turns on these three points:

1. It is all paint and true paint.
2. It is strongest, and goes farthest paint.
3. It is full measure.

Because these three things are true, Devoe Paint takes least gallons for the job; looks best all the time; lasts longer.

There is no such argument for any other paint; there is no other such paint; the man who uses Devoe gets the best he can get, in paint.

## CHENEY HOPES NEW PRESIDENT WONT BE STAMPEDED

Director of Santa Fe Believes Mr. Wilson Will Take Time to Look Over His Hand and Play Cards Well.

"I hope President Elect Wilson won't permit himself to be stampeded on the tariff or on other important questions; I believe that he will take time to look over his hand and play his cards as he wants to play them and not as his friends wish him to do," is the characteristic manner in which B. P. Cheney, one of the best known members of the board of directors of the Santa Fe railroad today indicated his belief in Mr. Wilson's ability to handle the affairs of the government.

"Mr. Wilson was evidently the choice of the people for president," continued Mr. Cheney. "I believe he will make good. I don't believe he will permit himself to be stampeded into things like Mr. Taft was stampeded during his administration."

Mr. Cheney said he believed that the talk of disaster accompanying a Democratic administration is not to be taken seriously.

"There isn't any reason why railroads should retrench just because the Democrats are in power," declared Mr. Cheney. "There are many who view with alarm pending changes in the tariff schedules. In my opinion the tariff would have been radically changed even if Mr. Taft had been re-elected. The tariff is an intricate affair. The readjustment should come, I believe, as the result of far reaching investigations by a tariff commission. I don't believe that the tariff should be changed by any snap-judgment process. There are undoubtedly many changes desirable and possible. The steel industry and the boot and shoe industry, for instance, indicate that the taking off of it will not injure them. In that event I believe the tariff should be suspended. But there are many industries that require and demand protection for the best interests of the American people. Fruit, I may say, is one industry that requires protection. Fruit grown in California, cultivated by men who receive high wages, cannot be shipped by rail three thousand miles to New York City and compete with fruit grown in Italy by men who receive a few cents a day and shipped across the ocean at a greatly inferior transportation cost."

Mr. Cheney was in Albuquerque today en route from Los Angeles to Chicago. He said that the double track-work west of Albuquerque is proceeding in splendid shape and that everything along the coast lines is lovely. Mr. Cheney is one of the most popular directors on the Santa Fe. He is a man's man all the way and when making a trip over the road goes with the section foreman, brakemen, conductors and engineers and because of his intimate relations with the employees has a wide knowledge of the inside affairs of the corporation from the standpoint of the men who make the wheels go around.

MY JIMMY PIPE.  
Companion of the years gone;  
true friend, unchanged by fortune's  
flow and ebb;  
helpful, inspiring; in life's  
battles my confidant, my  
collaborator—  
my Jimmy pipe!

Deny me not a taste of  
tobacco from your fragrant bowl;  
you have won your reward,  
your rest;  
but to me, your charm is like  
the spell of magic; I yearn for just  
one more cool, soothing smoke  
ere I lay you in peace and quiet,  
to my well deserved—  
my Jimmy pipe!

Blackened by long years of faithful  
service; ready, willing, eager to give  
me happiness; beauty that  
adorns you not, I confess;  
but best of all my earthly possessions  
I pay you homage  
—a tribute born of enduring  
affection,  
my good friend, my true friend,  
my Jimmy pipe! —Prius Albert.
